We can process those administratively as long as I have an e-mail from Brian at IDOT saying they will assume sponsorship of the project.

Thanks,

Holly

Phase I Report has been sent to IDOT for approval. The project limits are stated at Thorndale Ave from IL 53 (Rohlwing Road) to Arlington Heights Road. Agnes- pls proceed with coordinating the TIP changes with/thru DMMC as noted below, including limit change.

Dan: pls confirm project limits. I believe there is a signal interconnect that will extend beyond the actual roadway imp limits. DMMC has different project limits than we currently shown in the TIP. Agnes- please coordinate with Mike Albin on the TIP change. In addition to the funding changes, the project sponsor will now be IDOT and we may have a limit change.

Holly: I believe that a sponsor change can be handled administratively. Pls confirm. What about a limit change, if needed?
