MEMORANDUM

To: **Citizens' Advisory Committee**

From: Erin Aleman

Date: November 8, 2011

Re: GO TO 2040 Outreach Collaboration Discussion

CMAP staff are requesting the assistance of the CAC in identifying potential new partners across the region. To accomplish this, we have put together a document that details many of the organizations we have reached out to to-date through our GO TO 2040 efforts. This document is not exhaustive of all of the organizations we work with. However, staff would like to use this as a starting place to begin a conversation on new outreach efforts.

Ideally, we are looking for organizations who might be interested in a brief presentation from CMAP as to who we are and what we do. We would also like to work with the CAC to identify "the hook" – or what area of planning would be most appropriate to focus on with newly identified organizations. Staff will work with CAC members to integrate their suggestions into a timeline of outreach activities. We anticipate that this will be the first discussion of many, which will help create a framework for the committee to determine how effective outreach has been. In addition, we will be able to track our progress toward reaching the shared goal of increasing awareness of CMAP and GO TO 2040 across the region.

Initial discussion at the November is requested, with continued discussion at the next few meetings as well.

GO TO 2040 Outreach for CAC
