Burnham Plan Centennial Partner

BURNHAM PLAN CENTENNIAL PROGRAM PARTNER

The City of Aurora is one of 250 Burnham Plan Centennial Partner institutions offering hundreds of ways for the people of Chicago's three□state metropolitan region to dream big and plan boldly. This 100th anniversary of the Plan of Chicago is once again stirring a diverse community to action on a grand scale –building the best possible quality of life for all. Visit www.burnhamplan100.org to see what you can do. And aim high!

Go To 2040

GO TO 2040 is the official comprehensive planning campaign for metropolitan Chicago.

Our future depends on transportation, housing, water, education, jobs, air quality, and many other quality-of-life issues.

Through GO TO 2040, you can help us "Invent the Future" and have your say in decisions that will help shape the region for years to come.

Invent the future with Go To 2040

To coincide with the Burnham Centennial, the Chicago Metropolitan Agency for Planning's *GO TO 2040* campaign is making it easy for you to have your say about regional investments and policies. In this new "Invent the Future" public-input phase, you can:

- Use CMAP's MetroQuest *GO TO 2040* web tools to create your own growth scenarios and compare them to CMAP's.
- Attend one of 50 *GO TO 2040* "Invent the Future" workshops that CMAP will hold with partners across the seven counties.
- Visit one of the interactive *GO TO 2040* kiosks at dozens of locations, including Millennium Park, Metra stations, libraries, festivals, and other sites around the region.

The population of metropolitan Chicago is expected to reach 11 million by 2040. To accommodate these 2.8 million new residents, our seven-county region needs to make some critical decisions over the next several years. We can't solve everything at once, so it's all about trade-offs.

Should rapid growth outward continue? Or should we consolidate housing and jobs where infrastructure already exists? Should we emphasize roads or transit — or invest in both? How can we reduce energy use while also strengthening our region's economy?

Click here to Have Your Say as part of the important new "**Invent the Future**" phase of the *GO TO 2040* comprehensive planning process.
