Public Input On Planning Requested

A note from State Representative Mike Tryon:

To accommodate 2.8 million new residents expected by 2040, our region has some urgent decisions to make in the very near future.

Should rapid growth outward continue? Or should we consolidate housing and jobs where infrastructure already exists?

Should we emphasize road or transit--invest in both?

How can we reduce energy use while also strengthening our region's economy?

We can't solve everything at once, so it;s all about trade-offs. The Chicago Metropolitan Agency for Planning (CMAP) invites you to have your say at a GO TO 2040 Invent the Future workshop. With interactive software and keypad polling, attendees will express preferences about real-world choices that will shape the GO TO 2040 plan--and the future of our region.

This Invent the Future Workshop hosted by the Chicago Metropolitan Agency for Planning is taking place this evening from 7 to 9 p.m. at Crystal Lake City Hall, 100 W. Woodstock Street in Crystal Lake. Refreshments will be served.

To register, call 312-386-8814. If you need more information, call Joey-Lin Silberhorn at 312-386-8814 or jsilberhorn@cmap.illinois.gov.
