Strategic Regional Arterial

Design Concept Report

Operation GreenLight

Illinois Department of Transportation
February, 1994

FOREWORD

The Strategic Regional Arterial Design Concept Report has been prepared for the Illinois Department of Transportation and the Strategic Regional Arterial (SRA) Subcommittee of the Work Program Committee of the Chicago Area Transporation Study by Harland Bartholomew & Associates, Inc.

The revised edition of the Strategic Regional Arterial Design Concept Report was endorsed by the Policy Committee of the Chicago Area Transportation Study on March 11, 1993, for use as a guide but not policy in the planning of the SRA system.

TABLE OF CONTENTS

Page

SECTION 1: GENERAL

CHAPTER 1: INTRODUCTION *1*

1.1 THE STRATEGIC REGIONAL ARTERIAL SYSTEM 1
1.2 PURPOSE OF THE REPORT 5
1.3 ORGANIZATION OF THE REPORT 5
1.4 PREPARATION OF THE REPORT 6

CHAPTER 2: THE SRA SYSTEM AND OPERATION GREEN LIGHT *7*

2.1 OPERATION GREEN LIGHT 7
2.2 OBJECTIVES FOR THE SRA SYSTEM 7
2.3 THE SRA SYSTEM AND REGIONAL MOBILITY 8

CHAPTER 3: PLANNING THE SRA SYSTEM *10*

3.1 SRA PLANNING OBJECTIVES 10
3.2 SRA ROUTE TYPES 10
3.3 THE SRA PLANNING AND IMPLEMENTATION PROCESS 14
3.4 BICYCLE ACCOMMODATION ON SRAS 16
3.5 HOW TO USE THE REPORT 16

SECTION 2: RECOMMENDED DESIGNS AND FEATURES

CHAPTER 4: URBAN SRA ROUTES *19*

4.1 INTRODUCTION 19
4.2 RECOMMENDED DESIGNS AND FEATURES 23
4.3 CRITERION AND CONDITIONS FOR REMOVAL OF ON-STREET PARKING 28

TABLE OF CONTENTS (cont.)

Page

4.4 CRITERIA AND CONDITIONS FOR IMPLEMENTATION OF HOV LANES 29
4.5 BICYCLES AND PEDESTRIANS 30
4.6 TYPICAL ENVIRONMENTAL CONSIDERATIONS 30

CHAPTER 5: SUBURBAN SRA ROUTES *32*

5.1 INTRODUCTION 32
5.2 RECOMMENDED DESIGNS AND FEATURES 35
5.3 CRITERION AND CONDITIONS FOR REMOVAL OF ON-STREET PARKING 41
5.4 CRITERIA AND CONDITIONS FOR IMPLEMENTATION OF HOV LANES 41
5.5 BICYCLES AND PEDESTRIANS 42
5.6 TYPICAL ENVIRONMENTAL CONSIDERATIONS 43

CHAPTER 6: RURAL SRA ROUTES *44*

6.1 INTRODUCTION 44
6.2 RECOMMENDED DESIGNS AND FEATURES 48
6.3 CRITERIA AND CONDITIONS FOR IMPLEMENTATION OF FRONTAGE ROADS 53
6.4 TYPICAL ENVIRONMENTAL CONSIDERATIONS 53

SECTION 3: TECHNIQUES FOR SPECIAL CONDITIONS
CHAPTER 7: URBAN SRA ROUTES *55*

7.1 TRANSIT 55
7.2 ROADWAY OPERATIONS 58
7.3 ROADWAY DESIGN FEATURES 61
7.4 ACCESS AND RIGHT-OF-WAY 64
7.5 FREIGHT 67

CHAPTER 8: SUBURBAN SRA ROUTES *69*

8.1 TRANSIT 69
8.2 ROADWAY OPERATIONS 70
8.3 ROADWAY DESIGN FEATURES 73
8.4 ACCESS AND RIGHT-OF-WAY 76
8.5 FREIGHT 77

INDEX TO FIGURES (cont.)

Figure		Page
7.6	One-Way Arterial Pairs	60
7.7	Ridge Avenue Reversible Lanes	61
7.8	Single Point (Urban) Diamond Interchange	62
7.9	Compressed Diamond Interchange	62
7.10	Underpass U-Turn	63
7.11	Surface Rights Easement	65
7.12	Alley Development	66
7.13	Out-Holdings	66
7.14	Typical Treatments for On-Street Truck Loading Zones	67
7.15	On-Street Truck Loading Bays	68
7.16	Central Loading Area	68
8.1	Channelization Islands	71
8.2	Telegraph Road in Detroit, Michigan	72
8.3	Two-Way Left Turn Lanes	72
8.4	Right-of-Way Requirements for Single Point and Compressed Diamond Interchanges	74
8.5	Public Access Easements	76

INDEX TO FIGURES

Figure		Page
1.1	The Strategic Regional Arterial System	3
3.1	Route Types on the Strategic Regional Arterial System	12
3.2	The SRA Route Studies Work Program	14
3.3	The SRA Implementation Process for Routes Under IDOT Jurisdiction	15
4.1A	Desirable Urban SRA Cross-Section With HOV Lanes	19
4.1B	Desirable Urban SRA Cross-Section Without HOV Lanes	20
4.2	Urban Strategic Regional Arterial-Typical Design Configuration for Two Block Segment	22
4.3	Signal Networking	23
4.4	Driveway Channelization	26
4.5	Increased Storage Capacity	26
4.6	Cross-Access Easements	27
5.1	Desirable Suburban SRA Cross-Section	32
5.2	Suburban Strategic Regional Arterial-Typical Design Configuration for Two Block Segment	34
5.3	Consolidated Access	38
5.4	Internal Circulation	38
5.5	Land Available for Development	40
6.1	Desirable Rural SRA Cross-Section	44
6.2A	Rural Strategic Regional Arterial-Typical Design Configuration for One Mile Segment (Without Frontage Roads)	46
6.2B	Rural Strategic Regional Arterial-Typical Design Configuration for One-Half Mile Segment (With Frontage Roads)	47
6.3	Desirable Rural SRA Cross-Section with Frontage Road	48
6.4	One-Way Frontage Roads	50
7.1	HOV Lane Application	56
7.2	Center Bus Lane Treatment	56
7.3	Typical Transit Contra-Flow Lane	57
7.4	Channelization Islands	58
7.5	Driver Information Systems	59

TABLE OF CONTENTS (cont.)

Page

CHAPTER 9: RURAL SRA ROUTES *78*

9.1 TRANSIT 78
9.2 ROADWAY OPERATIONS 78
9.3 ROADWAY DESIGN FEATURES 79
9.4 ACCESS AND RIGHT-OF-WAY 81
9.5 FREIGHT 81
9.6 BICYCLES AND PEDESTRIANS 82

SECTION 4: POLICY ISSUES

CHAPTER 10: GENERAL POLICY AND PROGRAM RECOMMENDATIONS *83*

10.1 RIGHT-OF-WAY ISSUES 83
10.2 ACCESS POLICIES 84
10.3 EXTRA-JURISDICTIONAL PROJECT PARTICIPATION 85
10.4 TRAFFIC MANAGEMENT POLICIES 86
10.5 ROADWAY MAINTENANCE 87
10.6 ENFORCEMENT 88
10.7 DEMAND MANAGEMENT 88

BIBLIOGRAPHY *90*

GLOSSARY *93*

INDEX TO TABLES

Table		Page
1.1	Strategic Regional Arterial Routes	1
3.1	Typical Existing Route Conditions	13
4.1	2010 Desirable Route Characteristics- Urban Strategic Regional Arterials	21
4.2	Urban SRA Roadway Design Criteria	24
5.1	2010 Desirable Route Characteristics- Suburban Strategic Regional Arterials	33
5.2	Suburban SRA Roadway Design Criteria	36
6.1	2010 Desirable Route Characteristics- Rural Strategic Regional Arterials	45
6.2	Rural SRA Roadway Design Criteria	49
