ANNOUNCEMENT:

Important Note: Please RSVP to me by 10AM on Wednesday, March 4th. You must RSVP so that your name will be registered at Sears Tower in order to get into CMAP. Thank you for your cooperation.

TOPIC:

Transport Modeling and GIS Integration - Citilabs initiatives to work closer with the geospatial community for tighter integration of Modeling and GIS

PRESENTER: **Keith Hangland (Citilabs - Regional Director)**

ABSTRCT:

This presentation will explore the relationship between the GIS and transportation planning communities. It will be a chance to learn about what GIS professionals and transportation modelers bring to the table and how Citilabs is working to bridge the gap between these communities.

TIME: 12 noon – 1:00 PM, Wednesday, March 4th, 2009

PLACE:
CMAP (Chicago Metropolitan Agency for Planning)
Sears Tower
233 South Wacker Drive, Suite 800
Chicago, IL 60606.

FYI:
The Chicago Area Transportation Modeling Users Group, affectionately known as CATMUG, normally meets at the offices of CMAP at noon on the first Wednesday of each month. You need to bring your ID to enter Sears Tower and have your name registered in advance.

Presenters who will need projectors or other equipment are requested to get confirmation of availability at least three business days in advance from Kermit Wies (KWies@cmap.illinois.gov).

Please feel free to forward this notice to those who might be interested in the topic. If you are planning to bring your colleague(s) who is not on our distribution list please make sure their names are registered as well.

See you all at the meeting!
