State and Metropolitan Area Data Book: 2006

The **State and Metropolitan Area Data Book** features more than 1,500 data items for the United States and individual states, counties and metropolitan areas from a variety of sources. The files include data published for 2005 population and housing unit estimates and many items from the 1990 and 2000 Census of Population and Housing.

Information in the State and Metropolitan Data Book covers the following topical areas: age, agriculture, births, business establishments, communications, construction, cost of living, crime, deaths, education, elections, employment, energy, finance, government, health, households, housing, immigration, income, manufactures, marriages and divorces, media, natural resources, population, poverty, race and Hispanic origin, residence, retail sales, science and engineering, social services, tourism, transportation, and veterans.

Files contain a collection of data from the U.S. Census Bureau and other federal statistical bureaus, governmental administrative and regulatory agencies, private research bodies, trade associations, insurance companies, health associations, educational associations, and philanthropic foundations.

The Data Book is also your **Guide to Sources** of other data from the Census Bureau, other Federal Agencies, and private organizations.

The 6th edition of the Data Book is scheduled for release later this year. In the pages that follow, view prepublication data tables in Adobe Acrobat PDF format for the metropolitan divisions and component counties within the Chicago-Naperville-Joliet, IL-IN-WI Metropolitan Area.
