

2021 Safety Performance Targets

Todd Schmidt
September 16, 2020

Background

Transportation performance management

Background

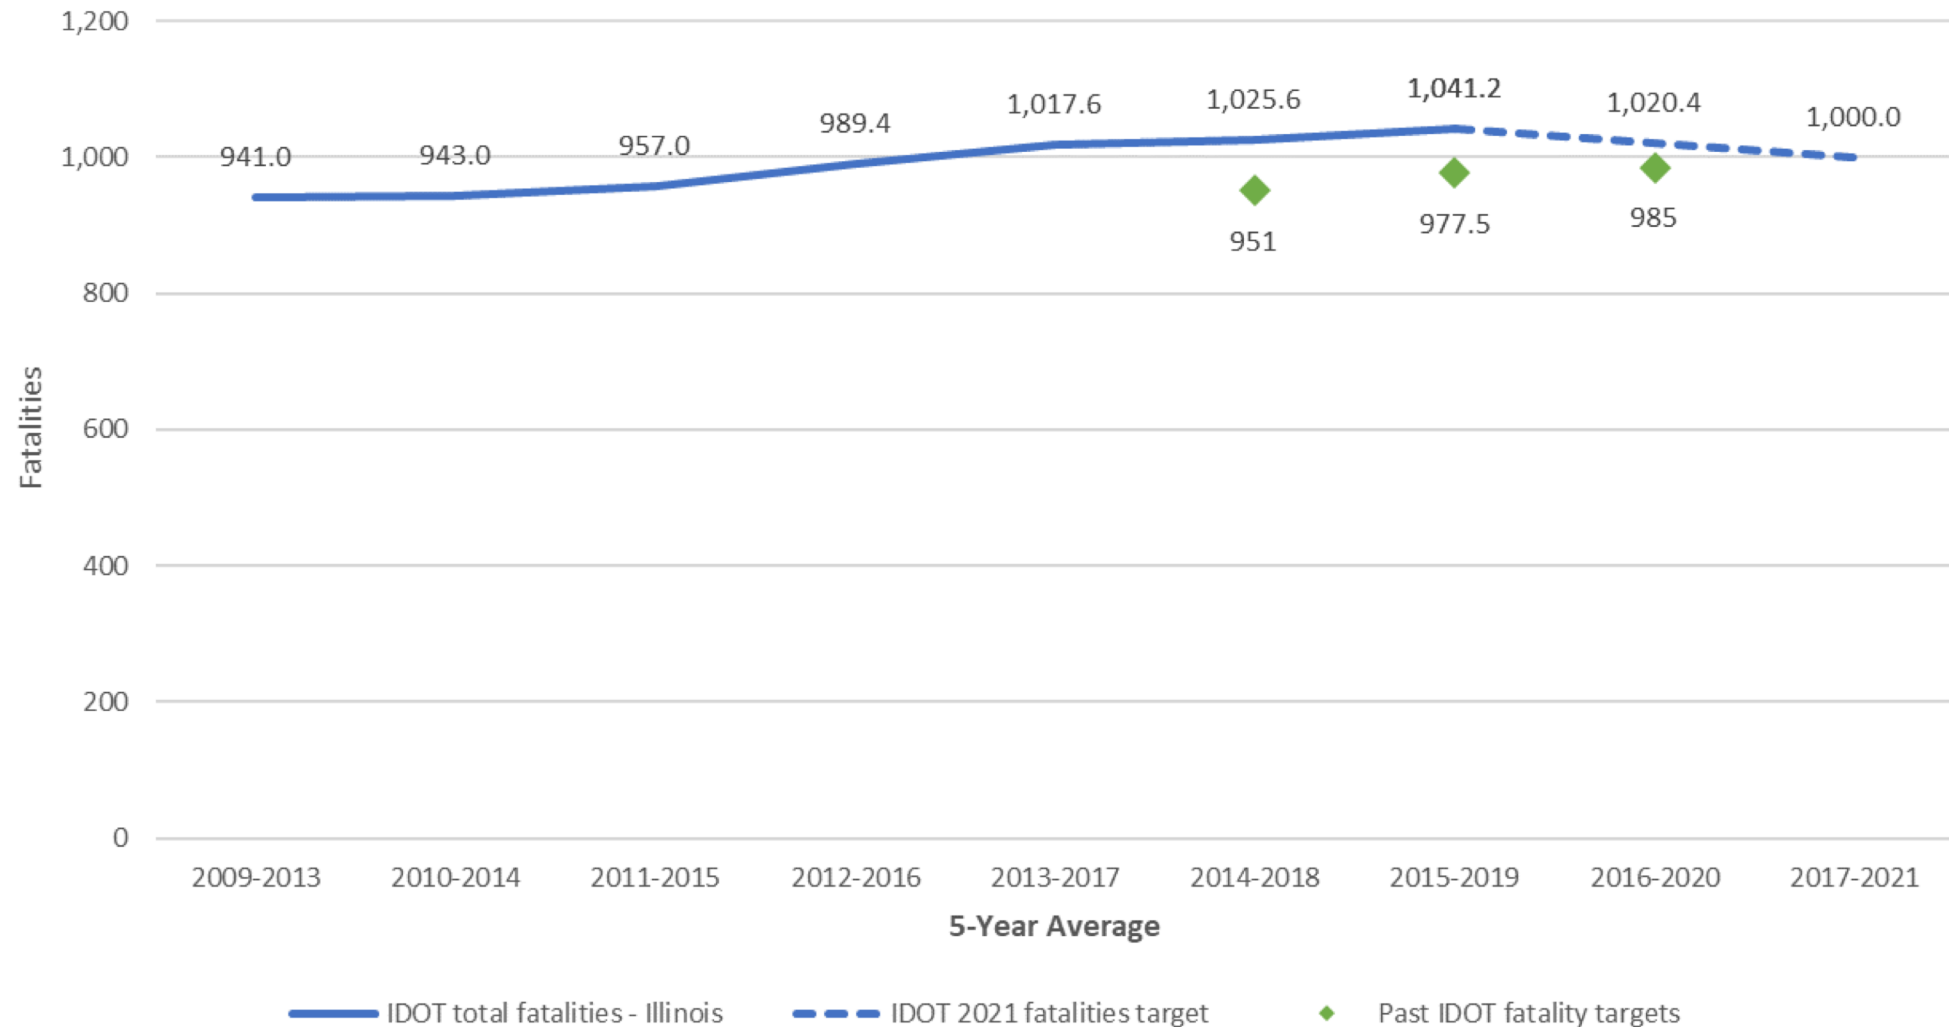

Safety performance measures – 5 year rolling average

1. Number of fatalities
2. Rate of fatalities per 100 million vehicle miles traveled (VMT)
3. Number of serious injuries
4. Rate of serious injuries 100 million VMT
5. Number of non-motorized fatalities and serious injuries

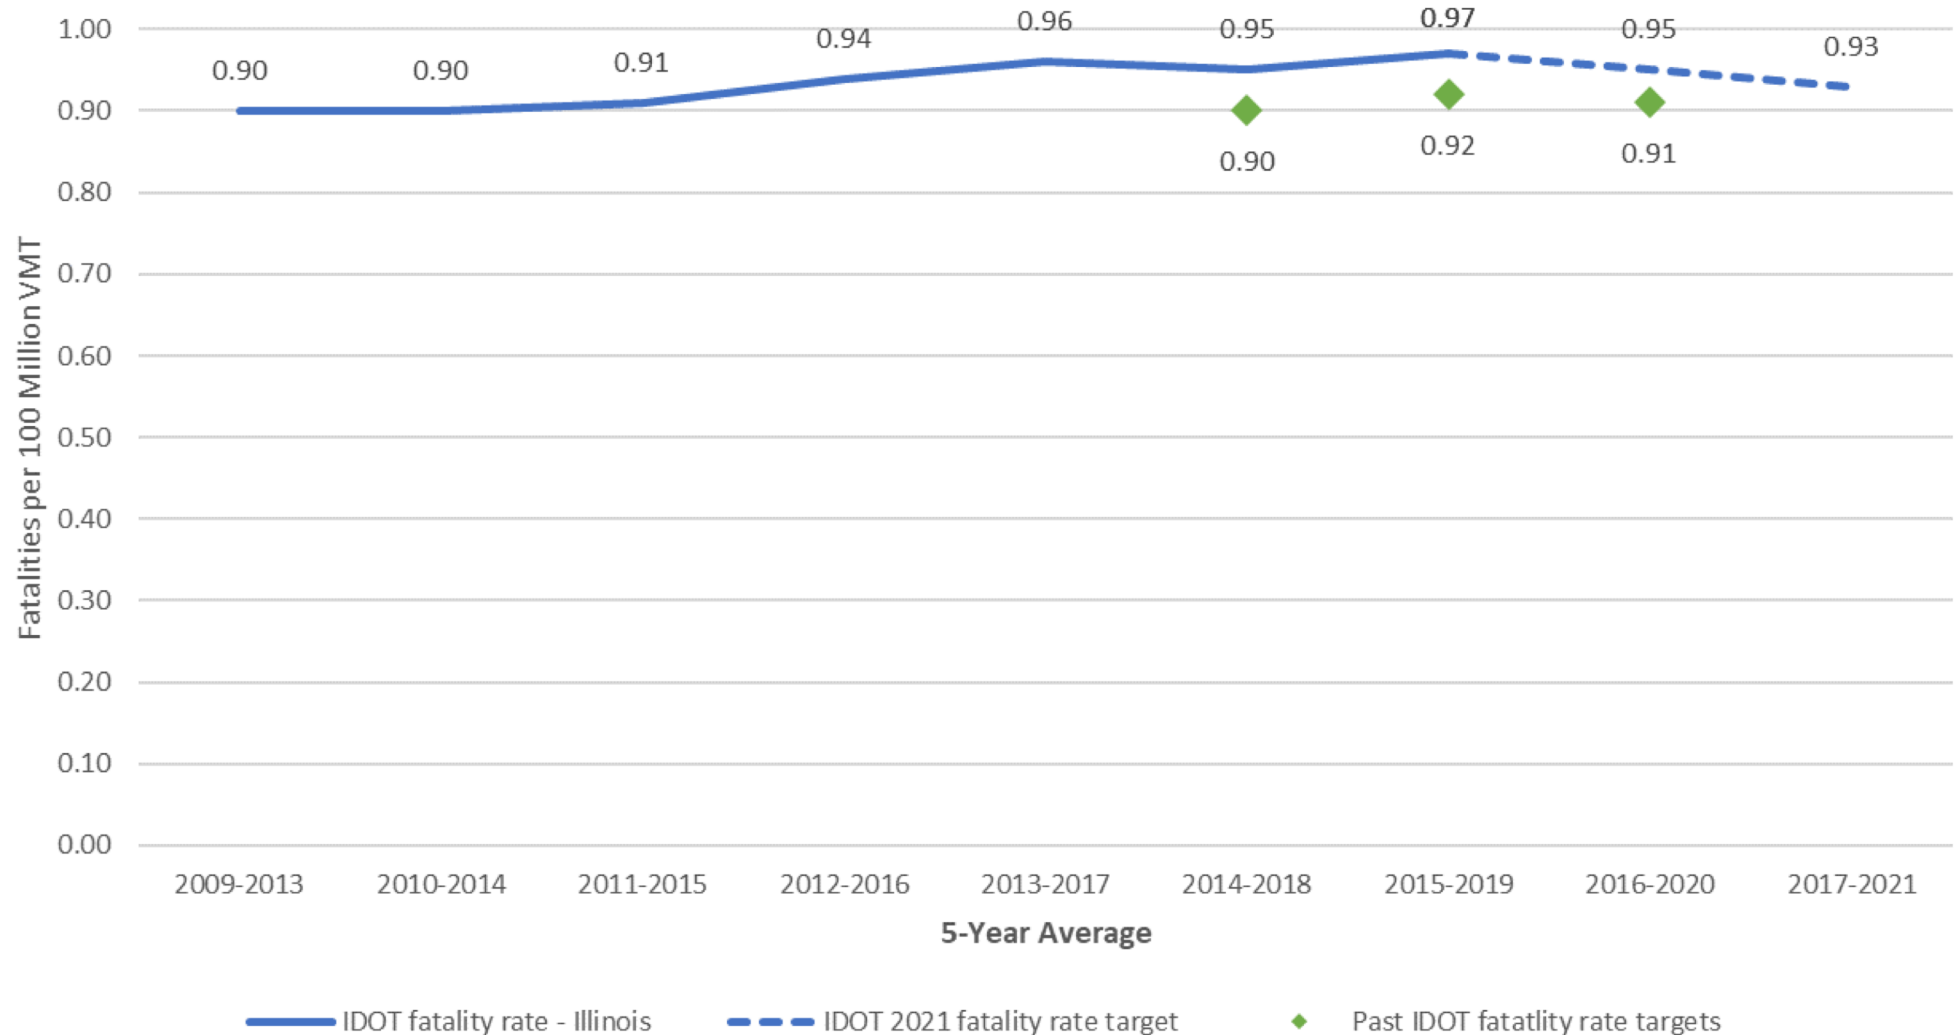

State DOT penalties

Integration with TIP and long-range plan

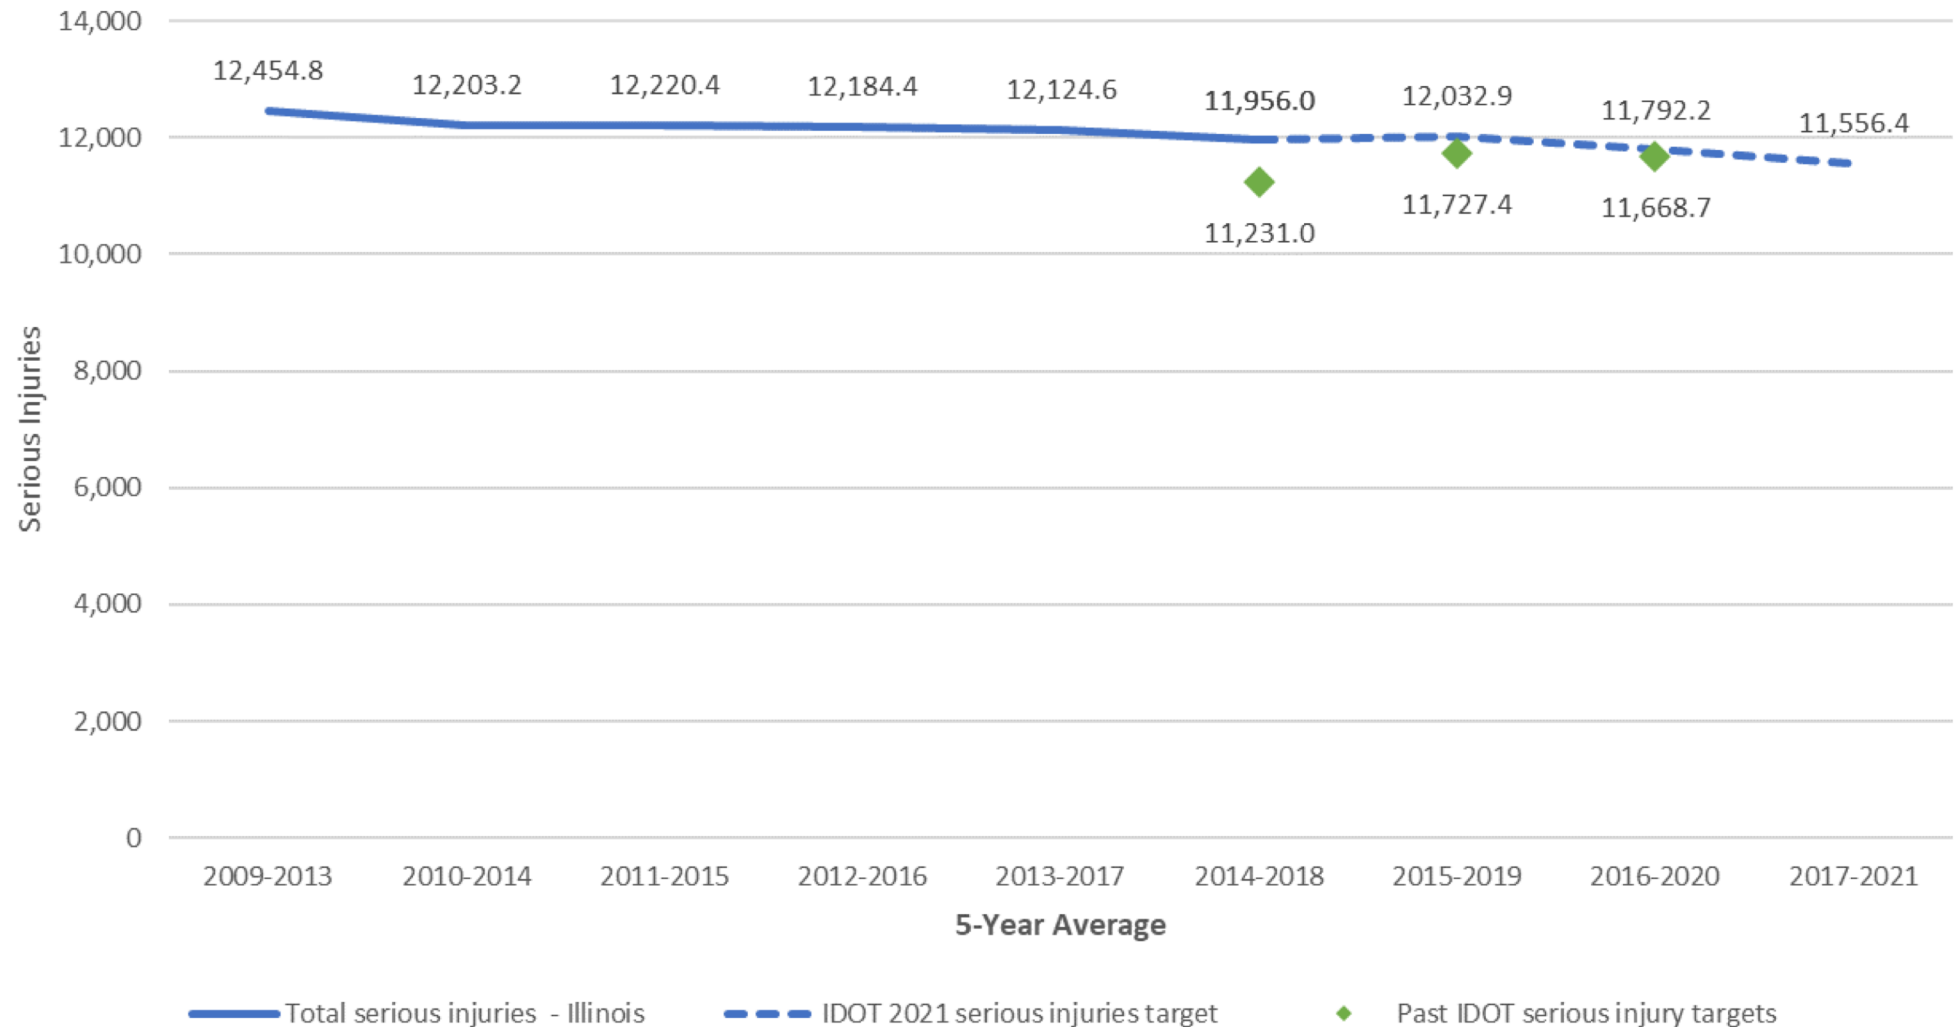

IDOT 2021 fatality target

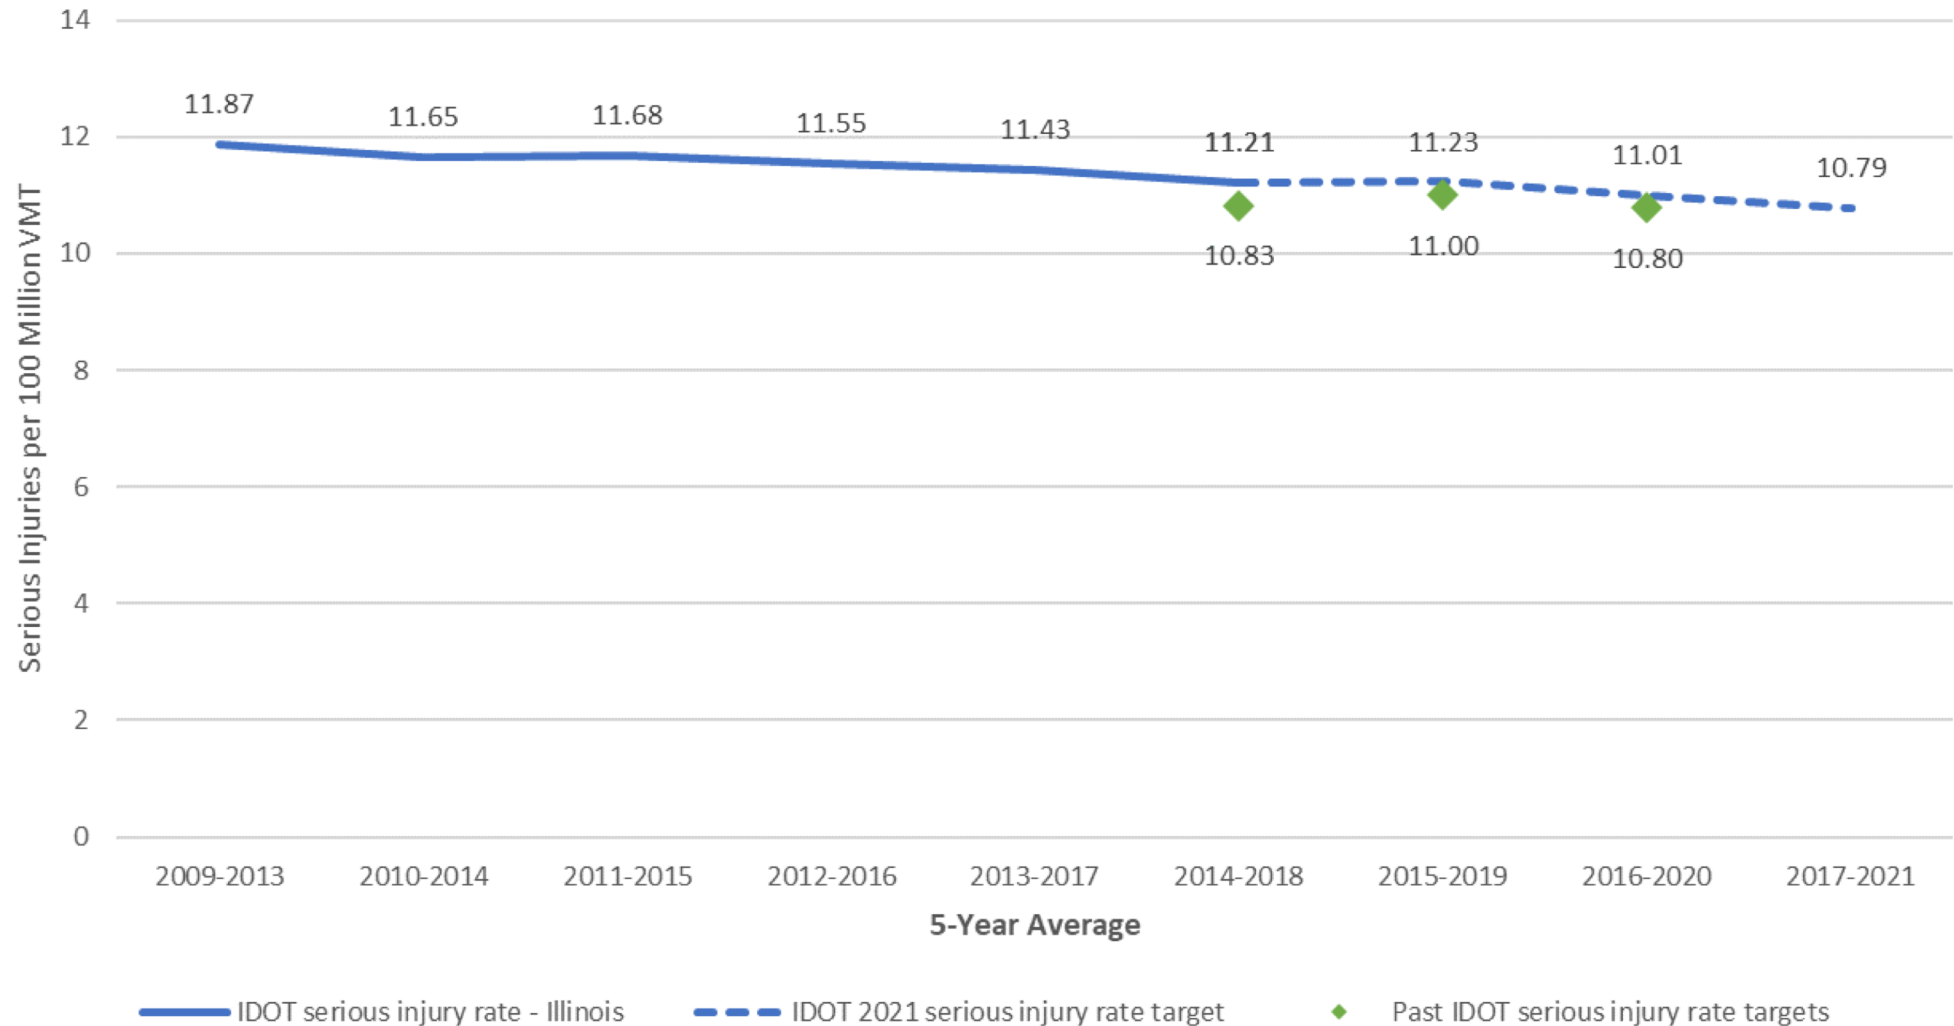

IDOT 2021 fatality rate target

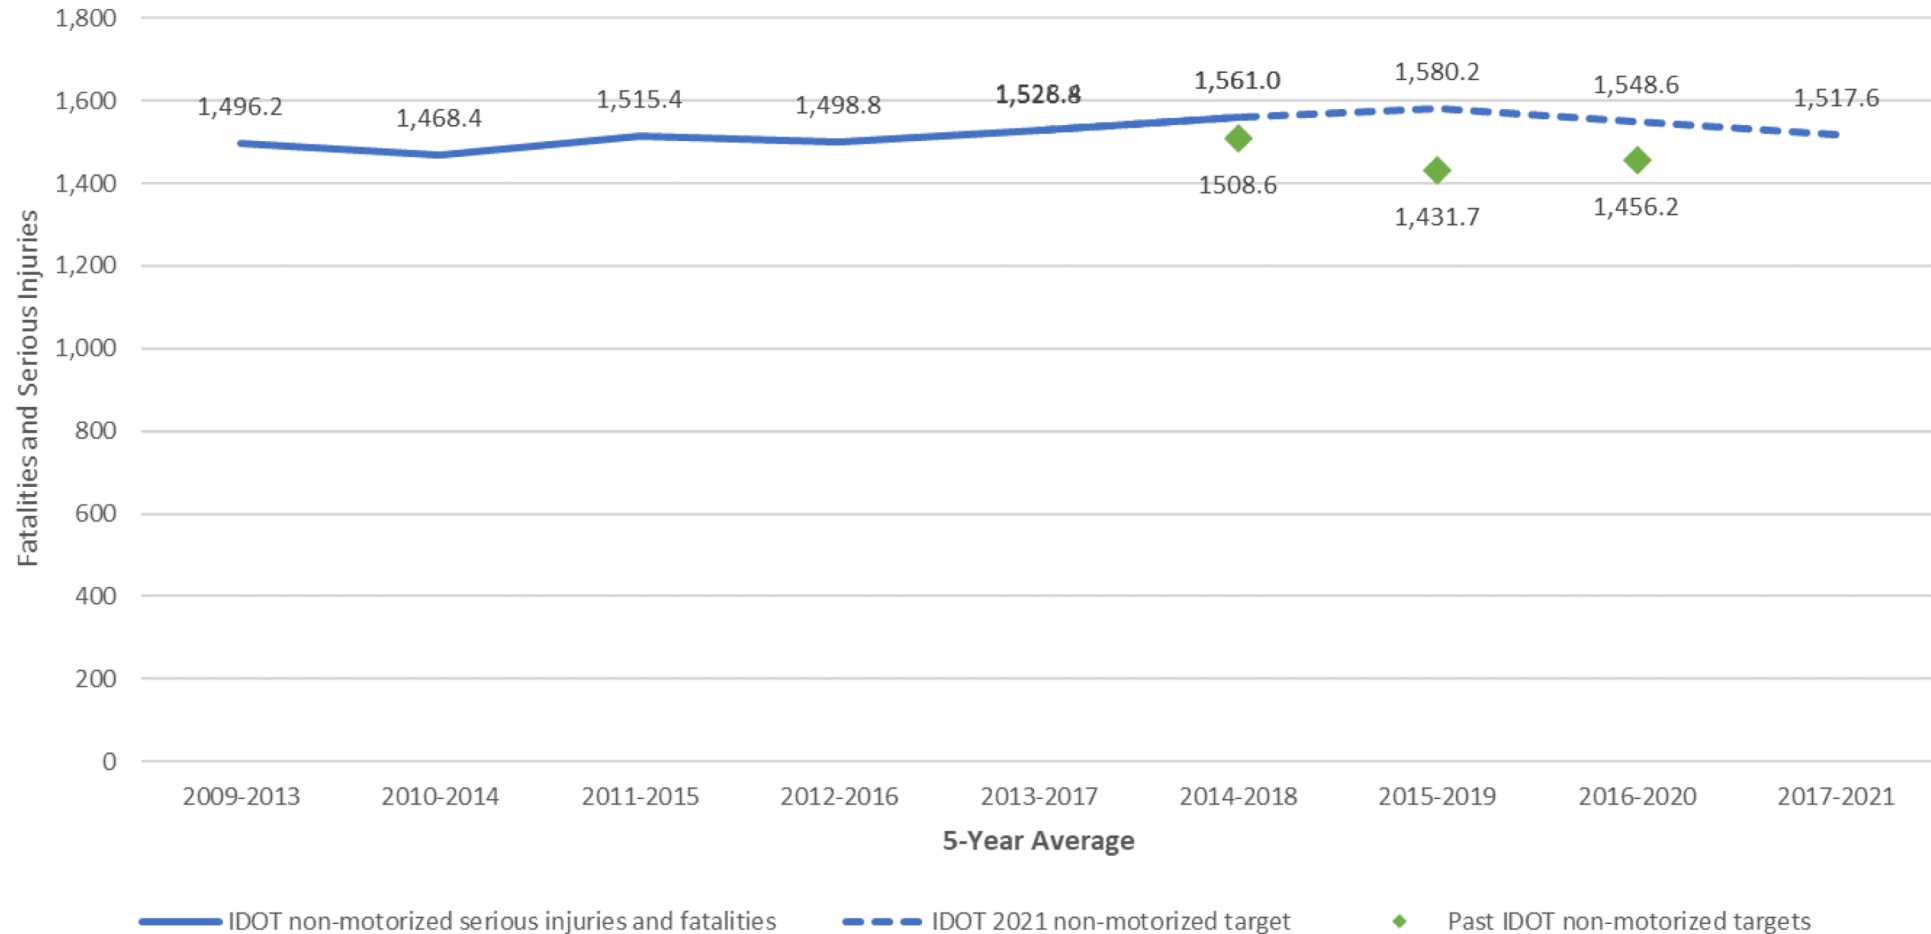

IDOT 2021 serious injury target

IDOT 2021 serious injury rate target

IDOT 2021 non-motorized fatalities and serious injuries target

Safety target setting timeline

CMAP staff recommendation October

Regional Transportation Operations Coalition discussion in November

Transportation Committee approval in December

Board & MPO Policy Committee approval in January

Safety target setting discussion

Should the region support IDOT's targets or set its own targets?

How can CMAP and its partners help achieve the safety goals/targets for the region/state?
