

**Still waters run deep,
but they're not bottomless.**

Help use our resource efficiently.

Did you know...

The U.S. Supreme Court **limits the Illinois diversion** of Lake Michigan water?
This amount will not increase but our population will. Currently Lake Michigan provides water to **over half** of Illinois' population, **around 7 million people.**

You can help by...

installing a WaterSense high efficiency toilet, costing the same as a conventional toilet and reducing water use by 20%.

Thanks for doing your part to help ensure that our community and region have a clean and reliable water source now and for our future generations.

For more information, visit www.epa.gov/WaterSense.
