MEMORANDUM

To: CMAP Committees

Date: August 4, 2010

From: Erin Aleman, Senior Planner

Re: Preliminary *GO TO 2040* Public Comment Period Summary

On June 11, 2010 the draft *GO TO 2040* plan was released for public comment; this period was the final opportunity for residents of the region to provide feedback on the draft *GO TO 2040* plan. This memo provides an overview of CMAP's engagement effort over the summer and provides some preliminary results of the feedback received.

Between June 11 and August 6, 2010, CMAP staff engaged in a comprehensive effort to reach stakeholders for input on the draft plan. In order to reach a broad base of stakeholders, CMAP undertook a variety of approaches. On June 11, CMAP placed an ad in the Chicago Tribune to notify residents of the public comment period and to detail the dates and locations of the public open houses being held across the region. CMAP staff also sent press releases in advance of every open house to local papers and community calendars. CMAP also communicated this information through our mailing list of over 7,000 individuals. Contact information as well as details on how to participate was available in all email communications and on both CMAP websites www.GOTO2040.org and www.cmap.illinois.gov.

To further solicit feedback on the draft plan, CMAP staff met with members of the Board, the MPO Policy Committee, Councils of Government, counties, the Governor's office, various state agencies, and a number of key stakeholders involved in the plan's development. The forum of these meetings varied from individual meetings to more formal presentations to various committees or groups. In total, approximately 50 meetings of this type were held throughout the public comment period.

In addition, this summer staff engaged in a community outreach effort calling nearly 500 organizations to let them know about the draft plan and offer an opportunity to have CMAP staff to come out and give a presentation at each organization. Through this process CMAP held nearly 150 meetings with stakeholders from close to 200 organizations of all types, from municipal to civic and non-for-profit organizations, to major employers and for profit institutions.

Finally, CMAP held an open house in every Council of Mayors region, ten in total. Over 200 individuals participated in these open houses.

Although staff is in the midst of compiling all public comments received, generally speaking comments have been very supportive of the plan. Staff anticipates that there will be no major policy changes to the *GO TO 2040* plan, however there will be a number of minor changes based on the public comments as well as clarifications of the plan's recommendations.

At almost all of the open houses participants noted the broad scope of the plan and were impressed with the programs and policies discussed. Some common points from the open houses include:

- **Economic development and jobs.** The Education and Workforce Development recommendations of *GO TO 2040* received very strong support, with the hopes that efforts in this arena can strengthen and sustain the region's economy.
- **Transportation access.** The connection between the region's residents and jobs is crucial and should be addressed across the region. Support for better access to jobs through increased transit and reduced congestion was at the heart of many comments received.
- **Coordination.** A desire for increased coordination of government and greater transparency of data were woven throughout feedback.
- **Implementation.** Feedback from residents included many questions as to how *GO TO 2040* will be implemented. As suggestions, many noted the importance of private sector involvement and the availability of incentives.

CMAP also received many letters concerning major capital projects. These letters tended to correlate closely to the part of the region the respondent resided and related to various projects including: Route 53, Illiana Expressway, STAR line, Prairie Parkway, I-290, CTA Red Line, CTA Blue Line, and new Metra extensions.

It is important to note that this memo is not a full analysis of the comments received to date. As we receive formal comments, we will make them available on our website. Staff will be continuing to consider and address comments between now and September when the Board will review the final draft of the *GO TO 2040* plan. Staff will present a more thorough summary of the comments we received and how they were addressed at your September meeting. As a reminder, the following is the remainder of the schedule for the plan adoption:

- The final plan and a summary of comments received will be discussed by the CMAP Board and MPO Policy Committee on September 8 and 9, though no action will be requested at that time. Instead, the groups will be asked for final comments on the plan.
- The Transportation Committee will meet on September 17 and the Planning Coordinating Committee will meet on September 29 to consider recommending plan for adoption to the CMAP Board and the MPO Policy Committee.
- The CMAP Board and MPO Policy Committee will hold a joint meeting on October 13 and will be asked to consider plan adoption at this meeting.

The following provides detail on CMAP open houses, web statistics, *GO TO 2040* Partnership program, and "community days" outreach.

GO TO 2040 Open Houses

CMAP hosted ten open houses across the region to present the draft *GO TO 2040* plan. Each open house featured a short plan overview presentation by CMAP staff, followed by a question-and-answer period. Total attendance for all meetings was 228. Below are the details, including attendance information, for each open house.

DuPage County

June 15, 2010

DuPage County Government Center
Auditorium (421 N. County Farm Rd.,
Wheaton, IL 60187)

Attendance: 20

West Central Cook

July 20, 2010

Cicero Community Center (2250 South 49th
Avenue, Cicero, IL 60804)

Woodstock, IL 60098)

Attendance: 15

Chicago/Cook

August 3, 2010

CMAP Office (233 S. Wacker Drive, Suite 800,
Chicago, IL 60606)

Attendance: 33

GO TO 2040 Web Statistics

From the start of the public comment period (June 11, 2010) through July 29, 2010, there have been a total of 10,175 visits to the *GO TO 2040* website. Seventy percent of these visits were “new visitors” to the website. In total, there were almost 24,000 pageviews from these users. The most popular pages were the homepage, the draft *GO TO 2040* plan page (where the full plan was made available along with individual downloadable chapters), and the page that lists

open house meetings. In comparison with website traffic from last year, there have been twice as many visitors to www.GOTO2040.org this summer.

GO TO 2040 Partnership Program

As part of our outreach CMAP staff also promoted the GO TO 2040 Partnership program. To date, we have over 200 organizations, businesses and groups signed on as GO TO 2040 Partners. A current list of existing partners can be found at <http://www.goto2040.org/Partners.aspx>. Our hope is to continue to increase partner numbers as we head toward the implementation phase. Individuals and organizations can still sign on to be a GO TO 2040 Partner by completing a partnership form online www.goto2040.org/partnership.aspx. Our partners will be key to the implementation of the GO TO 2040 recommendations. A significant proportion of current partners have committed to share information about CMAP and GO TO 2040 to their members.

GO TO 2040 Community Days

The goal of all of our summer engagement including the “Community Days” effort was to gain buy-in on GO TO 2040. The following is a breakout of the nearly 500 organizations CMAP reached out to and the 150 plus organizations that CMAP staff met with between June 11 and August 6, 2010.

June 14th – June 16th McHenry County Community Days

Met with 13:

Fox Waterway Agency
Habitat for Humanity of McHenry County
Imagine McHenry County
League of Women's Voters of McHenry County
McHenry County College
