

Estimate by CMAP represents the average weekday, excluding switching and equipment moves. Source: National Transportation Database (NTD), 2011. Updated with rail-highway interconnect data, FRA, STB, and ICC dockets and databases, CN EJE Operations Monitoring, Google Earth, field data collection, and personal communications. Missing data was interpolated. Figures include overhead trackage rights for many railroads. Owners are shown, not overhead rights. See <http://www.cmap.illinois.gov/mobility/freight/freight-data-resources>.
