

CMAP Health Services Access Data Analysis Project

DRAFT

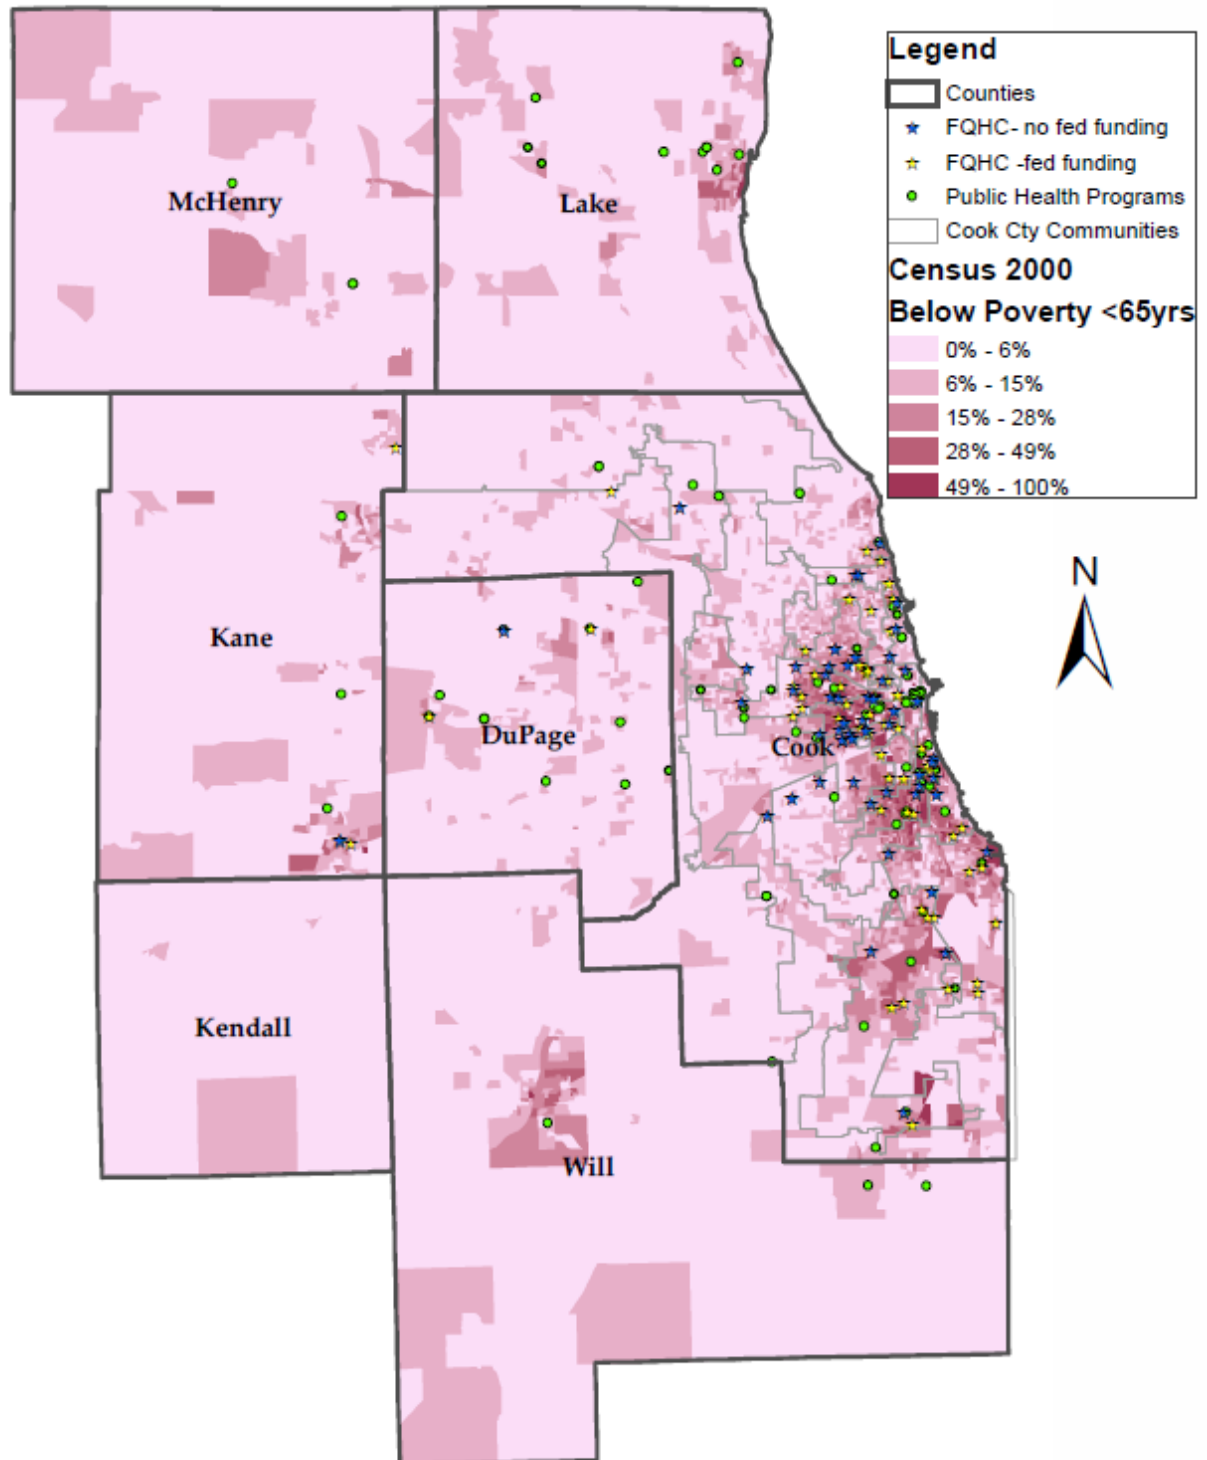

5/11/09

Progress Update: Health Service Access in the Region

The following data has been reviewed and summarized.

- Spatial Mapping of Federally Qualified Health Centers and Public Health Programs
- Health Services Ranking in the region by employee count (> 10,000 employees)
- Summary of 2008 US DHHS Health Resources and Services Administration Grant Allocations
- Update on missing health centers in D&B database (*previous meeting*)
 - *Findings:* Many of the organizations listed by County sources were found within the D&B database, however they were under a different services category (still reviewing)
 - *Example:* Family counseling centers that offer several mental health services were repeatedly found under the category of “Individual Family and Other services” rather than explicitly under mental health. Overall, some facilities that offer multiple services are put into an “other” category.
- **Identification of larger health service employer areas by county**
- *Pending: Spatial analysis of health access by subzone*

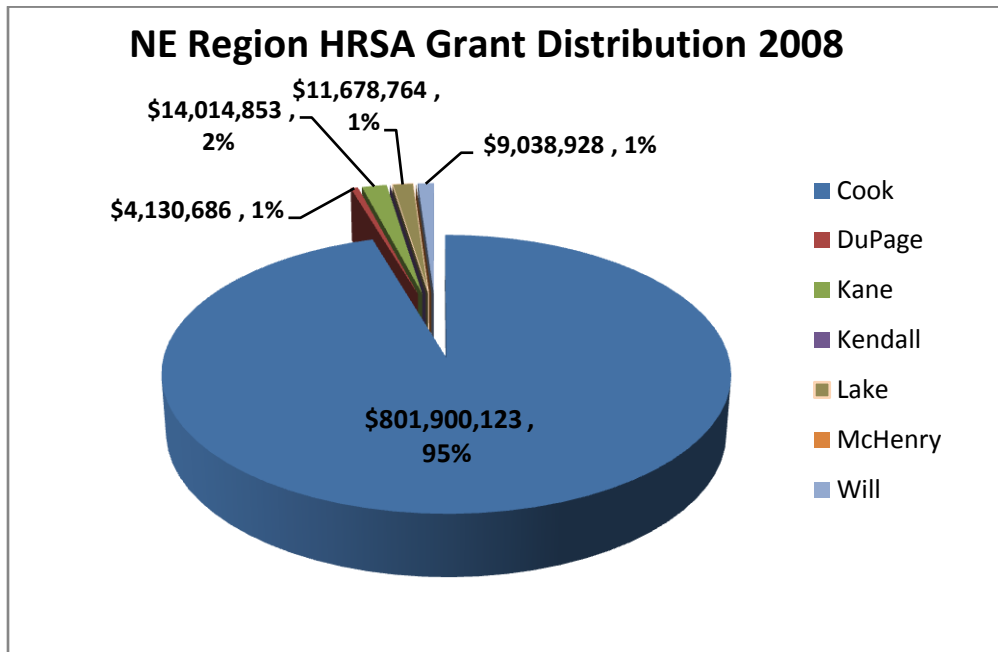

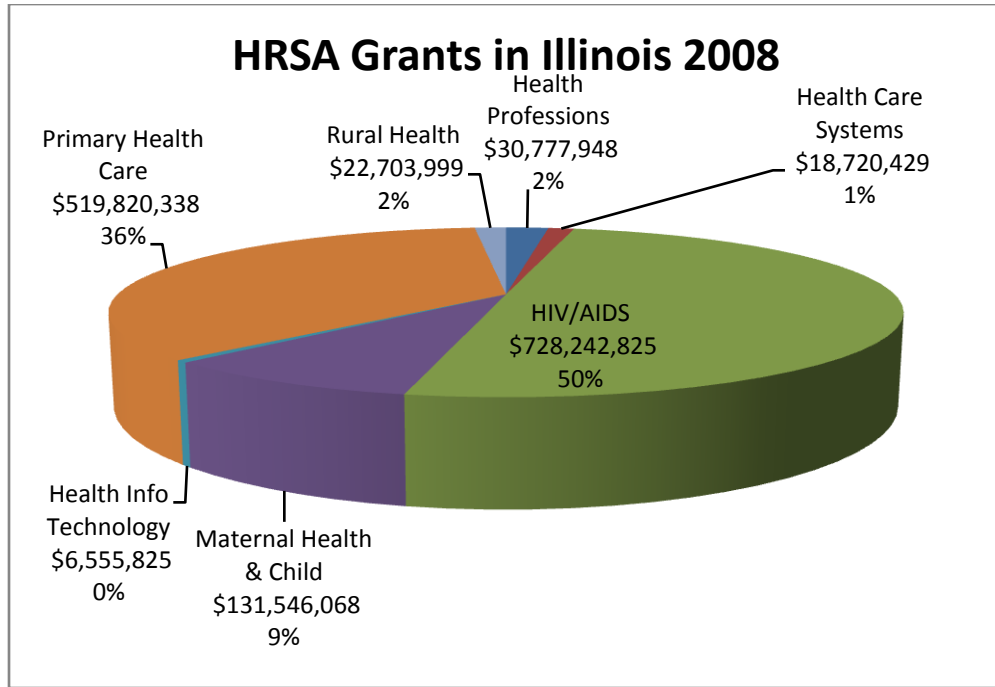

Federally Qualified Health Centers and Public Health Programs in the Region

Source: US DHHS, Health Resources and Services Admin 2008 & Dun and Bradstreet 2008, Census 2000

CMAP Health Services Access Data Analysis Project

Total of \$1.428 Billion was granted to Illinois in 2008 through the Health Resources and Services Administration.

CMAP Health Services Access Data Analysis Project

| Health Services with employees > 10,000 | # of Employees | Facility Count |
|---|-----------------------|-----------------------|
| Admtn of Pub Health Prgms | 11,158 | 107 |
| Gen Mdcl & Surgical Hsptls | 119,362 | 367 |
| Home Health Care Srvc | 16,481 | 798 |
| Nursing Care Facilities | 40,182 | 553 |
| Ofcs of Dentists | 23,504 | 4489 |
| Ofcs of Phys, Mental Hlth Spcl | 16,283 | 481 |
| Otr Indiv & Family Srvc | 25,529 | 3124 |
| Physns (ex Mental Health Spec) | 62,585 | 8904 |
| Total Employees | 315,084 | 18,823 |
| ALL HEALTH SERVICES TOTALS | 407,268 | 27,291 |
| % of HS employees >10k Total | 77.4% | 69.0% |

Ratios were calculated - # of employees/# of facilities

Higher ratios indicate that the health services employers are more likely larger employer centers in terms of # of employers per location. In comparison, smaller ratios indicated a pattern of more specialized practices that are likely employing less employees per location.

| County | Top 3 Health Employer Centers | Ratios |
|---------------|--------------------------------------|---------------|
| Cook | Rsdntl Mntl Retardation Facfts | 456.9 |
| Cook | Gen Mdcl & Surgical Hsptls | 316.7 |
| Cook | Admtn of Pub Health Prgms | 116.4 |
