

A.1 CPPW Transportation Steering Committee Purpose Statement:

The CPPW Transportation Steering Committee will provide guidance and technical assistance in addressing the targeted transportation outcomes identified by the Communities Putting Prevention to Work project. The scope of this committee will address regional transportation deliverables, policy implementation, and funding mechanisms. The Committee will meet through the duration of the CPPW project and form sub-committees when tasks require detailed review or technical input. The Committee will seek to engage other agencies regarding decisions or recommendations with regional impact.

A.2 CPPW Objectives:

Complete Streets Implementation

By March 2012, achieve full implementation and operation of the Cook County Complete Streets Policy on the Cook County roadway network, in alignment with action steps identified by the National Complete Streets Coalition.

Non-motorized Program

By March 2012, Cook County Board will pass a resolution that establishes non-motorized transportation planning as a routine and prioritized activity with dedicated resources and goals within a specified Cook County governmental agency.

Regional Transportation Funding

By March 2012, change the criteria of at least one (1) sub-regionally administered transportation funding program, such as Congestion Mitigation and Air Quality (CMAQ) or Surface Transportation Program (STP), to include health/physical activity impacts.

Sub-Region Bike/Multi-Modal Plan Updates

By March 2012, create or update at least 1 of the 6 sub-regional Cook County Council of Government bicycle plans to coordinate with local comprehensive plans in order to prioritize sub-regional transportation spending for bicycling and achieve a more seamless regional bicycle network.

B CPPW Regional Transportation Deliverables:

- ☐ Cook County Complete Streets Policy (Board Adopted) – March 2011
- ☐ Non-Motorized Planning Staffing Analysis – June 2011
