- Grand Illinois and Route 66 Trails
- - - Other Regional Trails
- Existing
- - - Proposed
- Open Space (Conservation/Recreation)
- Waterways
- Expressways
- Major Roads
- County Boundaries
- City of Chicago

ABOUT THIS MAP:

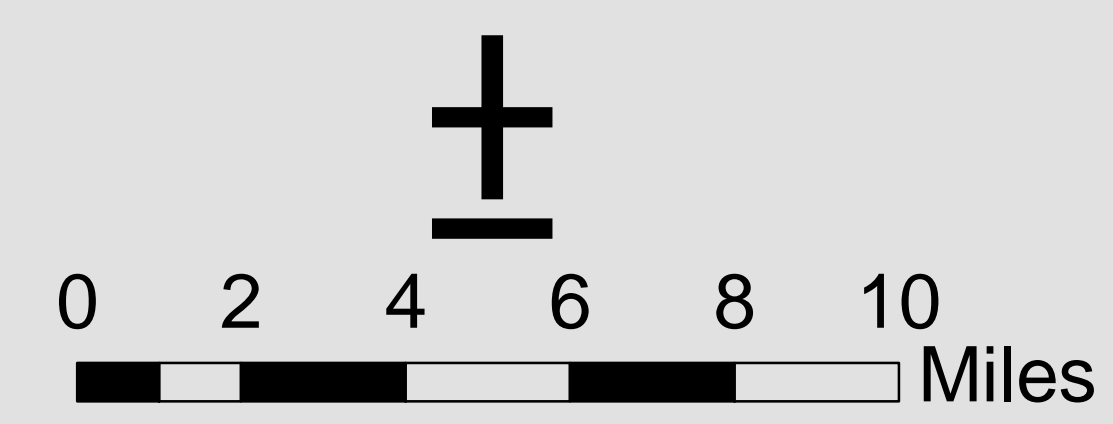

The Northeastern Illinois Regional Greenways and Trails Plan is a conceptual, long-range, multi-jurisdictional plan which envisions a network of trails and greenways across northeastern Illinois.

This map shows conceptual alignments along with existing trails. The map represents an update of the Trails Element of the 1997 Greenways and Trails Plan. The updated Trails Element was approved by the CMAP Bicycle and Pedestrian Task Force in May, 2008 as suitable for planning purposes and is expected to be incorporated in a larger update of the Greenways and Trails Plan expected to be adopted by the Board of the Chicago Metropolitan Agency for Planning in 2009.

The Trails Element presents a vision with an anticipated horizon year of 2040. The proposed system has about 2,700 miles of trails, about 700 miles more than in 1997.

Approximately 1000 miles of the trail system is completed, 500 miles more than in 1997.
