Major Roads

County Boundaries

City of Chicago

#### ABOUT THIS MAP:

The Greenways and Trails Plan is a conceptual, long-range, multi-jurisdictional plan which envisions a network of trails and greenways across northeastern Illinois.

This map shows conceptual alignments along with existing trails. The map represents an initial stage in updating the Trails Element of the 1997 Greenways and Trails Plan. New additions to the plan were focused on Kendall County (not in the 1997 Plan) and on the City of Chicago.

The draft trails element presents a vision with an anticipated horizon year of 2040. The proposed system has about 2,500 miles of trails, or about 500 miles more than in 1997.

Approximately 1000 miles of the trail system is completed, or 500 miles more than in 1997.

Note: Open Space and Greenways information is displayed for illustrative purposes only, and has not been updated for trails display purposes. This information will be updated when this trails update is integrated into the Greenways and Trails Plan.

Proposed: May, 2008
