2.0 Agenda Changes and Announcements

3.0 CMAQ Process Update

CMAP is reviewing how it evaluates proposed projects and develops a recommended CMAQ program to the CMAQ Project Selection Committee. In the past few months, staff has developed a method to evaluate proposed projects based on a point system, which will guide the CMAQ Project Selection Committee to develop a CMAQ program based on performance measures. The evaluation method is still under review and will be finalized in the coming months. CMAP would like input from the RTOC on the evaluation criteria and scoring of CMAQ highway projects.

ACTION REQUESTED: Information & Discussion

4.0 CMAP Status Update

4.1 Regional Transportation Data Archive

Data collection is running smoothly on the servers in Phoenix. The consultants transferred the archive to a new upgraded server in Phoenix and are performing the same task for the local installation. Once this task is complete data collection will be running on both a local and off premise install of the data archive.

4.2 ITS Architecture Update

CMAP will provide an update on the progress of the Regional ITS Architecture update.
