Suspended Project Work

Future Water 2050 Forums – July and October
And more ...

Learned at the January Forum ...

Is growing desaturation of the deep-bedrock aquifer purely a local problem or one that calls for a regional and/or state solution?

- a. The matter is of local concern only – 0%
 - b. The matter calls for more of a regional response – 6%
 - c. The matter calls for a state response – 4%
 - d. The matter calls for a coordinated local, regional, and state response – 89%
