

Manufacturing Perspectives

Bill Testa

Federal Reserve Bank of Chicago

September 28, 2015

National and Global Perspective

Manufacturing employment has been declining

Midwest manufacturing employment has been declining

The Midwest continues to increase its share of national manufacturing employment

Manufacturing shrinking as nominal share of economies

GDP share of manufacturing

Percent

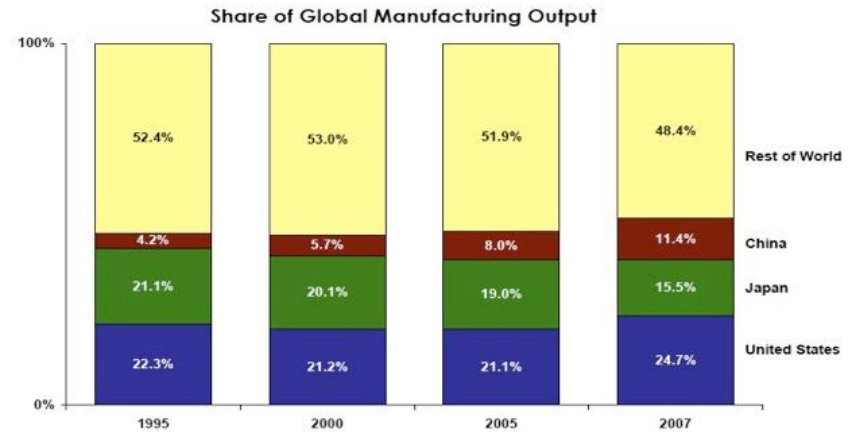

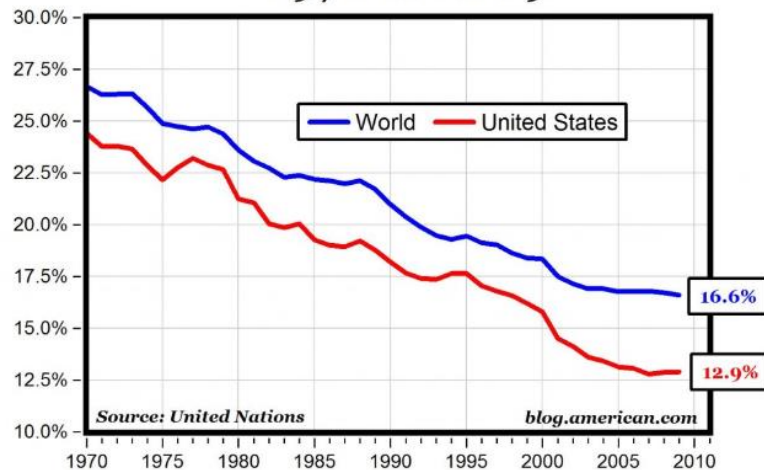

Manufacturing share of total employment

Manufacturing's decline is world-wide

Surprise: U.S. holds its *share* (China rises!)

**Manufacturing Share of GDP:
World vs. United States
1970 to 2009**

The United States is maintaining its share of global manufacturing; China is taking share from Japan.

Why Manufacturing Employment Declines

U.S. and regional *real* output growing: Labor needed constant to falling

Manufacturing

Productivity: What took 1,000 workers to produce in 1950 takes less than 200 workers today

Trade

Shifting production overseas—much of it labor intensive mfg. activity

International Trade of Manufactured Goods (Monthly, \$Bil)

A. United States

B. Seventh District

Goods trade growing with globalization and Logistics IT: paradigm of “vertical specialization”

- Falling transport costs, open markets, lower communications costs allow disintegration of the “assembly line”
- Corollary: upheaval even within nations as assembly line stretches around the world

World merchandise trade and production by major product group, 1950-05
(Average annual percentage change in volume terms)

Source: World Trade Organization

Structural changes within the industry have also taken place of note

“Manufacturers” buy more of their services (i.e. outsource, “sell the mailroom!”)

&

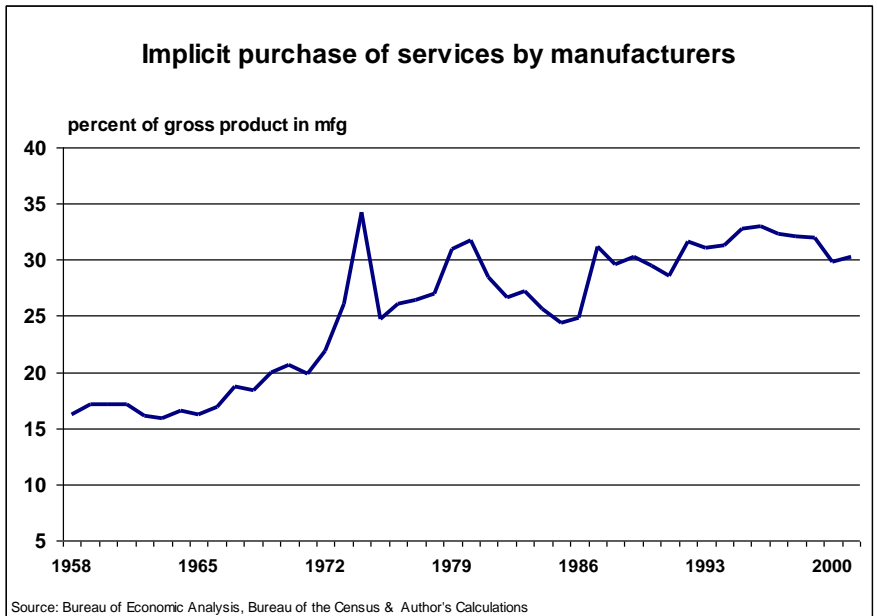

Their own activities are more service-like as well

-- Implications for labor:

1. need for production workers shrinks more than related service workers;
2. Also, some former mfg. can be found/defined as now in the “service sector”

Selected Services

Direct requirement coefficient

Consumption spending shifts to
services by U.S. households

As household incomes increased, demand for some goods such as clothing does not keep pace

Spending as a Percentage of American's Total Household Budget

| | 2007 | 1997 | 1984 | 1977 | 1967 | 1950s |
|--------------------------------------|------|------|------|------|------|-------|
| Food | 15% | 17% | 18% | 25% | 30% | 32% |
| Housing | 43% | 41% | 42% | 33% | 33% | 22% |
| Clothing | 4% | 5% | 7% | 10% | 11% | 12% |
| Transportation | 18% | 17% | 18% | 13% | 15% | 15% |
| Medical Care | 6% | 7% | 5% | 8% | 6% | 5% |
| Recreation | 6% | 4% | 4% | 5% | 3% | 2% |
| Education & Communication | 6% | 4% | 3% | 2% | n/a | n/a |

Geographic trends: do they favor
mfg. in the Chicago area?

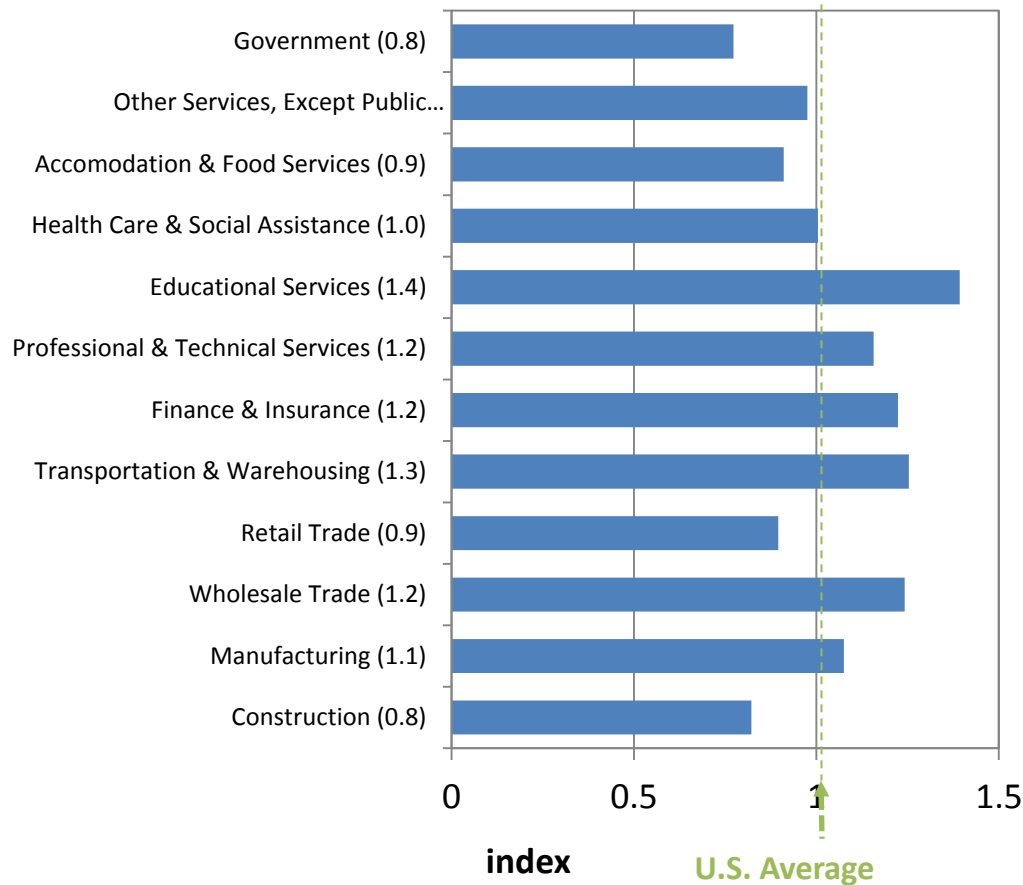

The Region's Structure Has Changed Rapidly

- Chicago MSA among Great Lakes region is almost unique in shedding its manufacturing specialization over the past 3-4 decades

The Region's Structure is Highly Specialized

Index of Concentration: Chicago MSA vs US

Though it has been said that the metro area economy is “diversified,” it is specialized

- **Skills complexity (“global” services)**
 - Hog butcher no more!
- A Midwest business capitol, and MW “gateway to the world”
 - Business services
 - Foreign consular offices etc.
- **A national center to bi- or tri-coastal commerce**
 - Freight transportation
 - Regional offices
 - Meetings and conventions
- CMA has global specialties/hallmarks
 - Risk Exchange
 - Global Universities

But manufacturing jobs have been a dismal destiny for Midwest cities

“MSA declines correlated with historic dependence on manufacturing”

U.S. Manufacturing geography: They love farm country (if near roadways/rail)

Manufacturing Location Quotient in the 7th District:
Nonmetro Portion 1969-2003

Ratio of Nonmetro Manufacturing Earnings per Job to Metro

....and production has abandoned central cities for suburbs,
small towns, and rural areas....

| City | 1977 | 2002 | Change | % Change |
|------------------------|----------|----------|----------|----------|
| New York City | 609.7 | 143.2 | -466.5 | -76.5 |
| Chicago | 366.0 | 97.6 | -268.4 | -73.3 |
| Los Angeles | 315.6 | 162.2 | -153.4 | -48.6 |
| Philadelphia | 157.5 | 42.9 | -114.6 | -72.8 |
| Houston | 147.4 | 88.2 | -59.2 | -40.2 |
| Detroit | 153.3 | 38.0 | -115.3 | -75.2 |
| Dallas | 112.7 | 66.9 | -45.8 | -40.6 |
| San Diego | 53.3 | 56.8 | 3.5 | 6.6 |
| Phoenix | 58.2 | 55.7 | -2.5 | -4.3 |
| Baltimore | 72.9 | 21.0 | -51.9 | -71.2 |
| Total of the 10 cities | 2,046.6 | 772.5 | -1,274.1 | -62.3 |
| U.S. | 19,590.1 | 13,866.0 | -5,724.1 | -29.2 |

U.S. manufacturers are “upskilling” their workforces (but may not be able to pay adequately)

2001-2007 Average Employment Growth Rate
by Education Level

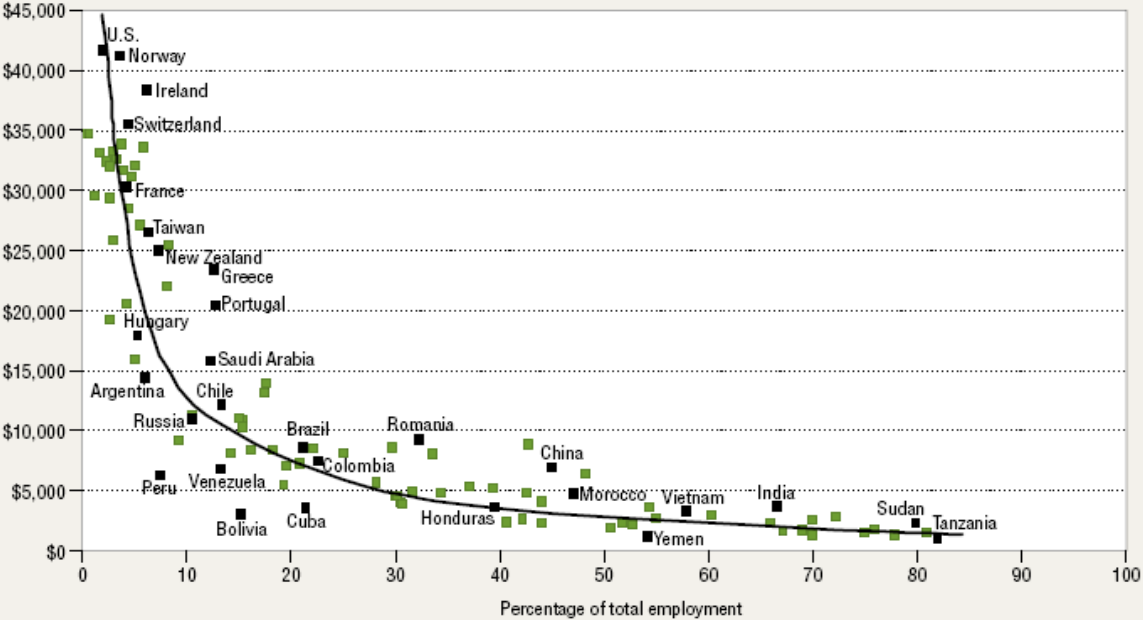

Source: ACS 2000-2007

The future manufacturing workforce....a tough sell on average (wages)

GDP per capita (U.S. dollars)

Agriculture

Production
agriculture falls away
as national income
climbs....

Still: Manufacturing
remains an
important part of
highly developed
economies...

GDP per capita (U.S. dollars)

Industry

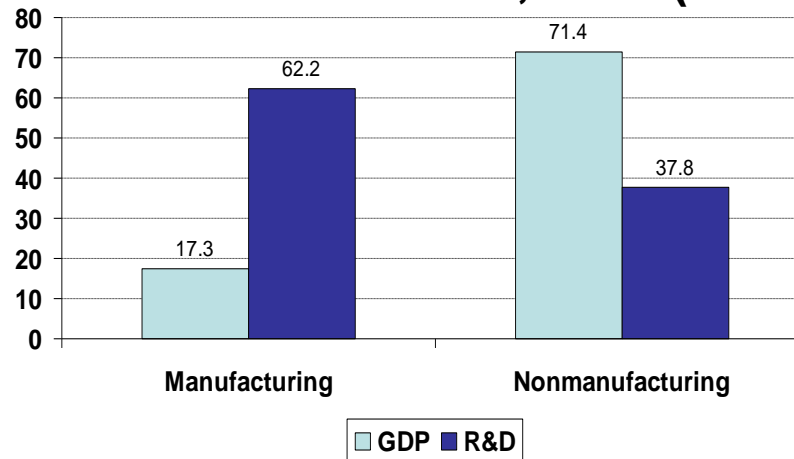

And the Midwest continues to increase its share of national manufacturing employment

Manufacturing remains very innovative....which should be an avenue for urban location

Major Industry Sector Shares of GDP and R&D Performance, 2000 (MAPI)

“Especially important is the fact that the service sector acquires most of its technology from manufacturing firms. . . This fact emphasizes the substantial dependency of services on manufacturing firms for technology and thus the critical role of the myriad communications and market transactions between the two sectors.”

Source: G. Jassey, R&D and Long-Term Competitiveness: Manufacturing's Central Role in a Knowledge-Based Economy (National Institute of Standards and Technology)

Current environment

Midwest mfg. employment outstrips U.S.

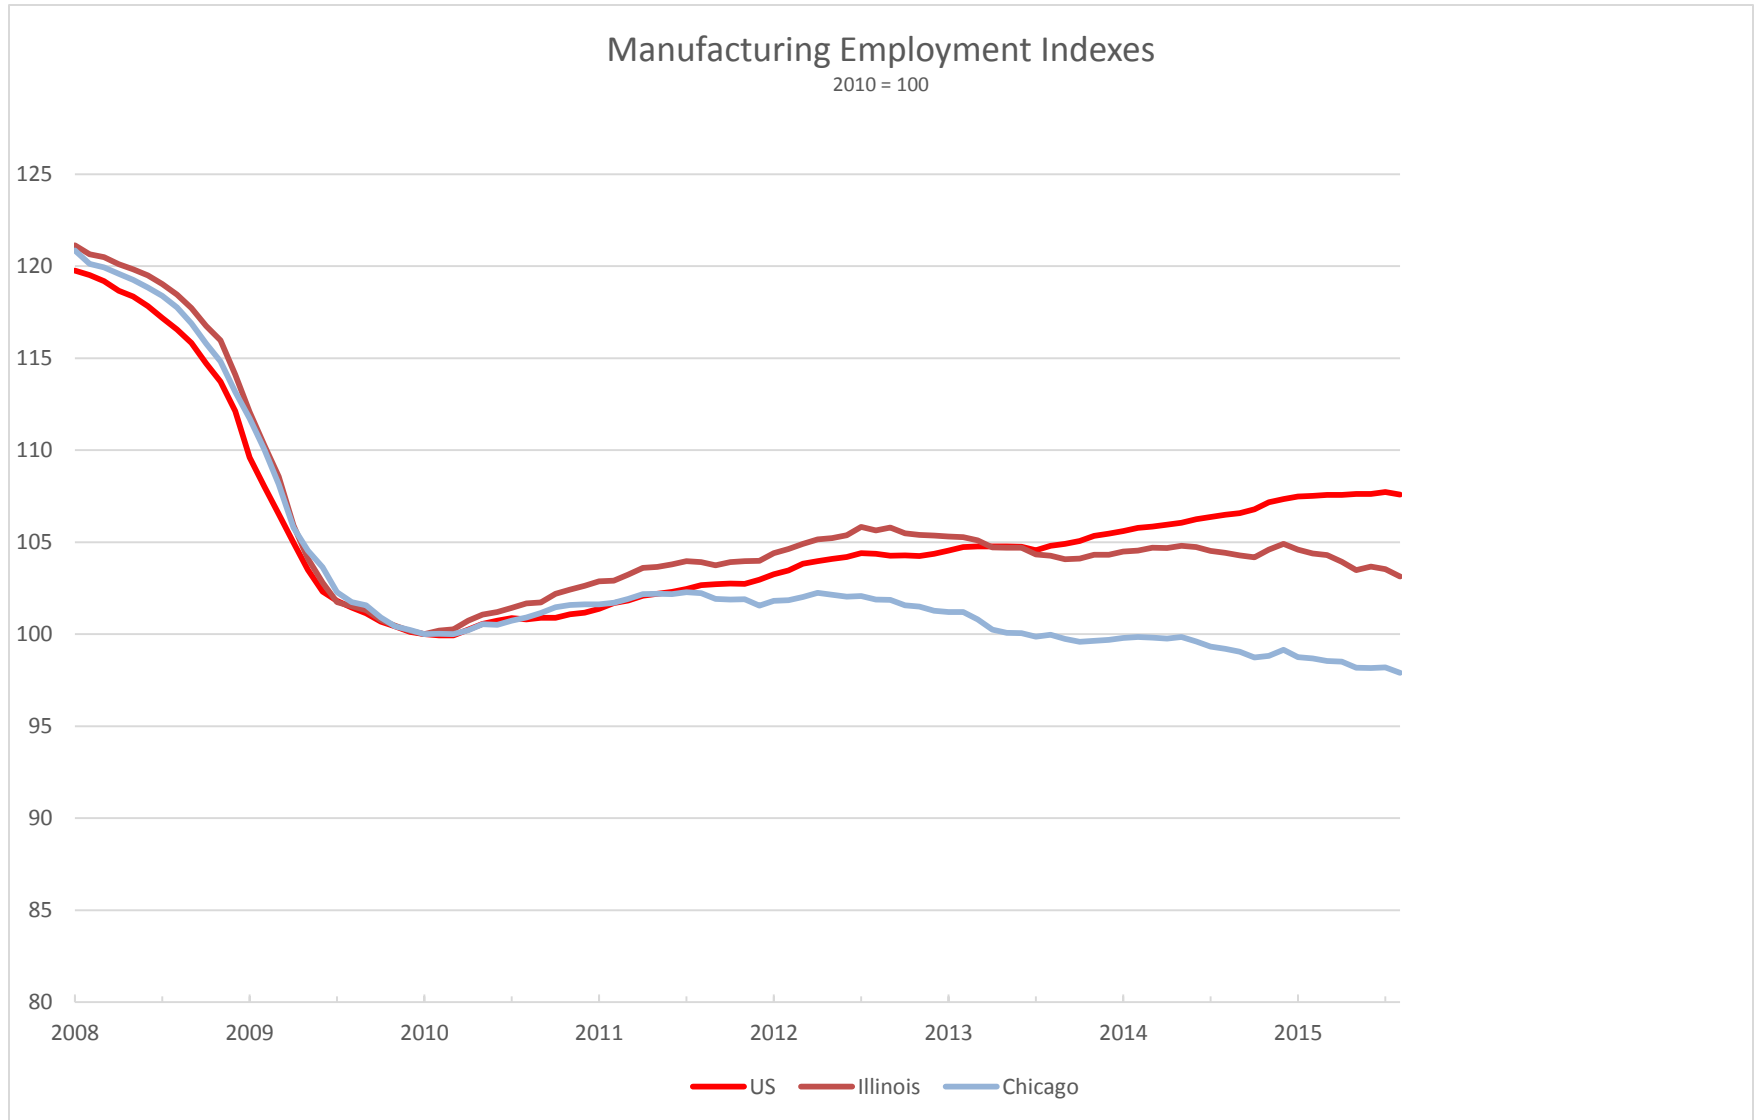

Illinois is losing manufacturing jobs

Manufacturing employment

percent change from a year earlier

Metro Division Chicago

Chicago CMSA & Metro Division

Why does Chicago
underperform?

Is it bad tax climate? Estimated rise in tax rates to fund Chicago and State pensions gaps

Tax Revenues as a Percentage of GDP FY1995-FY2010

Is it industry mix? Manufacturing Structure

Chicago-Joliet-Naperville, IL Metropolitan Division: Cook County DeKalb County DuPage County
Grundys County Kane County Kendall County McHenry County Will County

The east-west schism in mfg. performance: “auto country wins”

Trade and Exports

Chicago MSA is a top exporter, and recent performance has not been unduly poor

**Top MSA Exporters by 2014 Merchandise Export Value
(in billions of US dollars)**

| | Metropolitan Area | 2013 | 2014 | 13-'14 \$ Chg | 13-'14 % Chg |
|----|---|---------|---------|------------------|-----------------|
| 1 | Houston-The Woodlands-Sugar Land, TX | \$115.0 | \$119.0 | \$4.0 | 3.5% |
| 2 | New York-Newark-Jersey City, NY-NJ-PA | \$106.9 | \$105.3 | -\$1.7 | -1.5% |
| 3 | Los Angeles-Long Beach-Anaheim, CA | \$76.3 | \$75.5 | -\$0.8 | -1.1% |
| 4 | Seattle-Tacoma-Bellevue, WA | \$56.7 | \$61.9 | \$5.3 | 9.3% |
| 5 | Detroit-Warren-Dearborn, MI | \$53.9 | \$50.3 | -\$3.6 | -6.7% |
| 6 | Chicago-Naperville-Elgin, IL-IN-WI | \$44.9 | \$47.3 | \$2.4 | 5.4% |
| 7 | Miami-Fort Lauderdale-West Palm Beach, FL | \$41.8 | \$38.0 | -\$3.8 | -9.1% |
| 8 | New Orleans-Metairie, LA | \$30.0 | \$34.9 | \$4.9 | 16.2% |
| 9 | Dallas-Fort Worth-Arlington, TX | \$27.6 | \$28.7 | \$1.1 | 3.9% |
| 10 | San Francisco-Oakland-Hayward, CA | \$25.3 | \$26.9 | \$1.6 | 6.2% |
| 11 | Philadelphia-Camden-Wilmington, PA-NJ-DE-MD | \$24.9 | \$26.3 | \$1.4 | 5.6% |
| 12 | San Antonio-New Braunfels, TX | \$19.3 | \$25.8 | \$6.5 | 33.7% |
| 13 | Boston-Cambridge-Newton, MA-NH | \$22.2 | \$23.4 | \$1.2 | 5.2% |

Flat exports (and rising imports) have dampened manufacturing, Canada's recession is a negative for Chicago

Large companies dominate exports: Policy efforts to encourage small-firm exports may be helpful; how about educating supply-chain producers about importance of exports?

Discussion
