

ENERGY STRATEGY PAPER

Process & Findings

April 6, 2017

Process

STEERING COMMITTEE

Overarching Questions

- 1. How is the regional energy system evolving?**
- 2. What are the major opportunities to make it more clean, efficient, and affordable?**
- 3. What is the role for CMAP in pursuing these opportunities?**

Process

STEERING COMMITTEE

WORKING GROUP
**BUILDING
ENERGY USE**

Discussion Topics

- 1. Accomplishments**
- 2. Desired Outcomes**
- 3. Implementation Strategies**

Process

ELECTRICITY
INFR.**

Findings

Findings

- 1. Market Factors & Prices**
- 2. Consumer Demand**
- 3. Public Policy**

Findings

1. Renewable Energy
2. Transportation Electrification
3. Battery Technology
4. Grid Modernization
5. Energy Management
6. Microgrids
7. Fuel Shifts
8. Stakeholder Realignment

Findings

1. Clean
2. Reliable & Resilient
3. Affordable & Cost-Effective
4. Equitable
5. Accessible
6. Flexible

Findings

- 1. Stakeholder Forum**
- 2. Data Integration**
- 3. Community Assistance**
- 4. Innovation Pilots**
