## **REQUEST FOR QUALIFICATIONS (RFQ) NO. 235 ADVISORY PLANNING SERVICES**

*The Chicago Metropolitan Agency for Planning (CMAP) invites appropriate contractors to submit qualifications for this project to provide planning and related assistance to support certain projects and initiatives within CMAP as described in this scope of work. Please read each section carefully for information regarding the proposal and submittal instructions.*

### **SECTION 1: Background and General Information**

#### **About CMAP**

The Chicago Metropolitan Agency for Planning (CMAP) is our region's official comprehensive planning organization. The agency and its partners have developed ON TO 2050, a comprehensive plan that builds upon its predecessor GO TO 2040, to help the seven counties and 284 communities of northeastern Illinois implement strategies that address community, prosperity, the environment, governance and mobility. See [www.cmap.illinois.gov](http://www.cmap.illinois.gov) for more information.

#### **General Information**

As a result of responses to this RFQ, CMAP plans to review submissions and, potentially, to conduct interviews with selected consultants it determines can best meet the requirements outlined below. Negotiations will be held on both the scope and the cost to select the consultant that CMAP believes can best satisfy its requirements at validated competitive market rates for the services provided. Subject to "Reservation of Rights" below, it is anticipated that more than one contract will be awarded in each of the 22 categories. Each contract will be written for three years, with two one-year options for renewal. Each contract will be reimbursed on a project order (PAO) basis. CMAP anticipates six (6) or more PAO's will be issued per year as a result of this RFQ. The estimated expenditures by CMAP pursuant to the RFQ are anticipated to be approximately \$4 million dollars over a five (5) year period.

### **SECTION 2: Scope of Services and Procurement Details**

#### **Scope of Services**

This RFQ seeks services related to a wide variety of planning tasks and related issues for multiple CMAP planning projects. For each project, the contractor will work directly for CMAP, although interaction with the local project sponsor (typically a municipality) will often be needed as well.

Projects may consist of a single community, a subarea, or a multijurisdictional project. The specific communities where the work will be conducted will be determined by CMAP as projects advance. At times, multiple services may be necessary for a single project, and may be requested from multiple contractors, in which case this will be set forth in the PAO. For example, a project may require a subarea plan, a comprehensive plan, and planning-level illustrations/renderings. If this is the case the selected firms will be notified of the expected relationships prior to finalizing the PAO.

Each year projects will be identified to determine how much work will occur within each activity area. CMAP shall prepare a written description of the scope services for each project and, dependent upon competition within each category, CMAP will request bids from at least three firms. PAO compensation is anticipated to be either: time and materials with a fixed ceiling price; or a fixed fee. Vendor selection for each PAO will be based solely upon cost.

CMAF envisions that after the initial scoring and selection or the prequalified vendors has concluded, the scores will be retired. Each selected contractor, in each category, will be randomly selected to formulate the bid offer list (List). As projects progress and the bid offer packs are compiled, CMAF will transmit bid offer requests to the next three firms on the list. Contractor selection for each PAO will be based solely upon cost. After the PAO award has been finalized, the three firms presented with offers will move down the list to allow for future assignments to be offered to the next three firms. CMAF's goal is to offer as much work to as many contractors as possible.

This RFQ seeks firms to submit qualifications for at least one of the services being requested in Attachment 4, but firms may submit qualifications for multiple service areas. This RFQ seeks individual firms to qualify for the requested service areas. No teams or subcontractors to a prime contractor should be proposed as part of this RFQ. CMAF may qualify firms for one or more of the services proposed. CMAF will qualify as many firms as it deems necessary, but is under no obligation to qualify any of the responding firms.

### **Anticipated Selection Process and Schedule**

February 20, 2020	Publication Date
February 26, 2020 at 10:00am	Pre-bid information session
March 9, 2020:	Proposals due
April or May 2020:	Decision and execution of contract

### **Evaluation Criteria**

All responses will be analyzed for completeness and qualifications. The following criteria will be used in evaluating submissions:

1. The demonstrated record of experience of the contractor in providing the professional services identified at a similar level for scope size and complexity. Contractors should identify which of the types of services (see Attachment 4: Checklist of Services) they have experience in and provide a demonstrated record for those areas. Contractors are not expected to demonstrate a record of experience for all service areas.
2. The quality and relevance of the examples of similar work for the types of services listed for Criteria number 1.
3. Prior performance of previous CMAF contracts will be considered. Consultants who are or have been seriously deficient in current or recent contract performance in the absence of evidence to the contrary or circumstances properly beyond the control of the Consultant shall be presumed to be unable to meet these requirements. Past unsatisfactory performance will ordinarily be sufficient to justify a finding of non-responsibility.
4. The contractor's approach to the professional services described in the scope of services.
5. The contractor's acknowledgement and integration of the principles of ON TO 2050 into its response.

All timely responses received to this scope of work will be reviewed. Interviews may be conducted with selected submitters that CMAF determines can best meet the above requirements. A committee including representatives from CMAF will make the selection decision.

Titles, names, and resumes of personnel the submitter proposes to use shall be provided and will be evaluated to select the consultant that CMAF believes can best satisfy its requirements.

### **SECTION 3: Submittal Requirements**

**Proposals must be received at CMAP on or before 3:00 p.m. March 9, 2020**

Contractors should demonstrate their qualifications to assist in each of the types of activities described below. Please note that contractors are not expected, as part of this RFQ, to propose a total cost for each activity described below. Actual scope, budget and timeline for any activity will be developed on a task order (PAO) basis. CMAP requests that contractors provide several (but no more than 3) examples of past work that is similar to each activity described below that the contractor is submitting qualifications for, including an estimate of the cost of each.

A description of each service type being requested is included in Attachment 4. In some projects, the contractor will prepare a full plan including all necessary processes and interim products. In other projects, the contractor will be preparing memos summarizing an analysis or review of CMAP's or others' work. In still other projects, CMAP will simply consult with the firm and seek expert advice and counsel on specific planning issues.

#### **Submissions should be submitted in the order presented:**

1. Provide a description of your firm's structure, experience and services.
2. Complete Attachment 4: Checklist of Services, indicating which of the service areas and subareas that your firm is proposing to be qualified for.
3. For each service area checked in Attachment 4, provide a description of the firm's qualifications to provide services as described in Section 2 the Scope of Services.
4. Include a narrative describing the general approach that the firm would take to complete the types of activities they are seeking qualifications for in Attachment 4. The firm should also provide a general description of its work process with clients related to work of this type. In this section, contractors should describe their experience working on a task order basis with public sector clients.

Each activity will require a separate narrative describing the contractor's approach, as each should use a distinct process. Each narrative should:

- Describe approximate estimates of the length of time involved to complete the activity and identify the relevant staff to be involved. The expectations for the type of information that CMAP will provide to the contractor. Be clear about when and how coordination with CMAP staff will occur within each process.
- Provide at least two to three examples of the consultant's experience in each type of activity the Consultant is requesting to be pre-qualified for. Describe the consultant's contributions clearly, and specify the client for each, the date prepared, and the overall project that the consultant's work supported. The cost for each example that is supplied, should focus on the cost of the consultant's contributions, not the overall cost of the larger project. Please note that estimation of cost for each example is very important, and must be included. While cost may be difficult to calculate for some complex multi-part projects, CMAP requests that a rough estimate be included. Please note that this request is for two to three examples for each of the categories the Consultant is requesting pre-qualification for.

- Identify any fixed costs that are likely to occur as part of any activity related to this contract.
- 5. Provide at least three references, including individual contact name, name of company, and phone number, that CMAP staff may contact regarding the contractor's qualifications to undertake this project.
- 6. Sign and submit the "Certificate Regarding Workers' Compensation Insurance," Attachment 1, the "Bidder Information," Attachment 2, and "FTA Certification Regarding Lobbying" Attachment 3.

### **Submission of Qualifications**

Qualifications must be submitted to CMAP no later than 3:00 p.m. on **March 9, 2020**. The submittal should consist of one (1) electronic version in PDF format on a thumb drive. Submittals must be in a sealed package or envelope. The applicant's organization name and address shall appear in the upper left corner of the package.

Submission of RFQ by fax or e-mail is not acceptable. Submissions may be delivered to CMAP in person or sent (by U.S. Postal Service or other reliable means) to the following address:

Chicago Metropolitan Agency for Planning  
Attn: Procurement Officer  
Response to RFQ No. 235  
233 S. Wacker Drive, Suite 800  
Chicago, IL 60606

There will be no public opening for this RFQ. Late submissions will be rejected and returned unopened. Questions may be referred to Penny DuBernat, (312) 386-8756 or Email: [pdubernat@cmap.illinois.gov](mailto:pdubernat@cmap.illinois.gov).

## **SECTION 4: Contractual Agreement and Rights**

### **Contractual Agreement**

The contract CMAP anticipates awarding as a result of this RFP and subsequent rate submissions and negotiations, if any, will indicate the service requirements, time periods involved and applicable hourly rates. In addition, it will include the General Provisions, Section 5 hereto, and Special Provisions, Section 6 hereto, which will apply to the contract.

### **Reservation of Rights**

CMAP reserves the following rights if using them will be more advantageous to CMAP:

- 1) Withdraw this RFP at any time without prior notice
- 2) Accept or reject any and all submissions, or any item or part thereof
- 3) Postpone qualifications due date
- 4) Not award a contract to any submitter responding to this RFP
- 5) Award a contract without negotiations or discussions

## **SECTION 5: General Provisions**

**The following provisions apply to the solicitation to which this section is attached and to any contract that results from the solicitation.** Signatories of this Agreement certify that these conditions and procedures and terms and the conditions and procedures specific to this project will be adhered to unless amended in writing.

1) Complete Agreement.

- a) This Agreement (which also may be herein referred to as "Contract"), including all exhibits and other documents incorporated or referenced in the agreement, constitutes the complete and exclusive statement of the terms and conditions of the agreement between CMAP and Contractor and it supersedes all prior representations, understandings and communications. The invalidity in whole or in part of any term or condition of this Agreement shall not affect the validity of other terms or conditions.
- b) Order of Precedence: Conflicting provisions hereof, if any, shall prevail in the following descending order of precedence: (1) the provisions of the executed contract, including its exhibits; (2) the provisions of the RFP on which the contract is based including any and all Addendums; (3) the proposal submitted to CMAP by the Contractor in response to said RFP; and (4) any other documents cited or incorporated herein by reference.
- c) CMAP's failure to insist in any one or more instances upon the performance of any terms or conditions of this Agreement shall not be construed as a waiver or relinquishment of CMAP's right to such performance by the Contractor or to future performance of such terms or conditions and Contractor's obligation in respect thereto shall continue in full force and effect. Contractor shall be responsible for having taken steps reasonably necessary to ascertain the nature and location of the work, and the general and local conditions that can affect the work or the cost thereof. Any failure by the Contractor to do so will not relieve it from responsibility for successfully performing the work without additional expense to CMAP.
- d) CMAP assumes no responsibility for any understanding or representations made by any of its officers, employees or agents prior to the execution of this Agreement, unless such understanding or representations by CMAP are expressly stated in this Agreement.
- e) Changes: CMAP may from time to time order work suspension or make any change in the general scope of this Agreement including, but not limited to changes, as applicable, in the drawings, specifications, delivery schedules or any other particulars of the description, statement of work or provisions of this Agreement. If any such change causes an increase or decrease in the cost or time required for performance of any part of the work under this Agreement, the Contractor shall promptly notify CMAP thereof and assert its claim for adjustment within thirty (30) days after the change is ordered. A written amendment will be prepared for agreement between CMAP and the Contractor for changes in scope, time and/or costs. No amendments are effective until there is a written agreement that has been signed by both parties. No claim by the Contractor for equitable adjustment hereunder shall be allowed if asserted after final payment under this Agreement.
- f) Changes to any portion of this Agreement shall not be binding upon CMAP except when specifically confirmed in writing by an authorized representative of CMAP.
- g) Only the Executive Director of CMAP, or designee, shall have the authority to act for and exercise any of the rights of CMAP as set forth in this Agreement, subsequent to and in accordance with the authority granted by CMAP's Board of Directors
- h) For its convenience, CMAP reserves the right to extend the Term of this agreement. Any changes to the Term of this Agreement shall not be binding until specifically confirmed in writing by authorized representatives of both parties.

2) Independent Contractor. Contractor's relationship to CMAP in the performance of this Agreement is that of an independent contractor. Contractor's personnel performing work under this Agreement shall at all times be under Contractor's exclusive direction and control and shall be employees of Contractor and not employees of CMAP. Contractor shall pay all wages, salaries and other amounts due its employees in connection with this Agreement and shall be responsible for all reports and obligations

respecting them, including, but not limited to, social security, income tax withholding, and unemployment compensation, workers' compensation insurance and similar matters.

3) Assignment.

- a. This agreement shall be binding upon, and inure to the benefit of, the respective successors, assigns, heirs, and personal representatives of CMAP and Contractor. Any successor to the Contractor's rights under this Agreement must be approved by CMAP unless the transaction is specifically authorized under federal law. Any successor will be required to accede to all the terms, conditions and requirements of the Agreement as a condition precedent to such succession.
- b. The Contractor shall not assign any interest in this Agreement and shall not transfer any interest in the same (whether by assignment or novation), without the prior written consent of CMAP hereto, provided, however, that claims for money due or to become due to the Contractor from CMAP under this Agreement may be assigned to a bank, trust company or other financial institution without such approval. Notice of any such assignment or transfer shall be furnished to CMAP.

4) Availability of Appropriation (30 ILCS 500/20-60). This Agreement is contingent upon and subject to the availability of funds. CMAP, at its sole option, may terminate or suspend this Agreement, in whole or in part, without penalty or further payment being required, if the Illinois General Assembly, the state funding source, or the federal funding source fails to make an appropriation sufficient to pay such obligation, or if funds needed are insufficient for any reason. The contractor will be notified in writing of the failure of appropriation or of a reduction or decrease.

5) Allowable Charges. No expenditures or charges shall be included in the cost of the Project and no part of the money paid to the Contractor shall be used by the Contractor for expenditures or charges that are: (i) contrary to provisions of this Agreement or the latest budget approved by a duly-authorized official of CMAP; (ii) not directly for carrying out the Project; (iii) of a regular and continuing nature, except that of salaries and wages of appointed principal executives of the Contractor who have not been appointed specifically for the purposes of directing the Project, who devote official time directly to the Project under specific assignments, and respecting whom adequate records of the time devoted to and services performed for the Project are maintained by the Contractor may be considered as proper costs of the Project to the extent of the time thus devoted and recorded if they are otherwise in accordance with the provisions hereof; or (iv) incurred without the consent of CMAP after written notice of the suspension or termination of any or all of CMAP's obligations under this Agreement.

6) Method of Payment.

Project expenditures are paid directly from federal and/or state funds. Because CMAP is responsible for obtaining federal reimbursement for project expenditures, it is necessary that CMAP monitor all procedures and documents which will be used to claim and support project-related expenditures. The following procedures should be observed to secure payment:

- b) Based on services performed, CONTRACTOR may submit invoices as frequently as once a month, but is required to submit invoices no later than fifteen (15) days after the end of each quarter. Failure to submit such payment request timely will render the amounts billed an unallowable cost for which the CONTRACTOR cannot be reimbursed. CMAP is committed to reducing paper use and has established an electronic invoicing system. All invoices are to be submitted through email to:

[accounting@cmap.illinois.gov](mailto:accounting@cmap.illinois.gov)

All invoices shall be signed by an authorized representative of the CONTRACTOR

- c) Subject to the conditions of this Agreement, CMAP will honor invoices in amounts deemed by it to be proper to insure the carrying out of the approved scope of services and shall be obligated to pay the Contractor such amounts as may be approved by CMAP. Invoices shall detail expenses and amount of time spent on CMAP assignments. If an invoice is not acceptable, CMAP shall promptly provide the Contractor a written statement regarding its ineligibility or deficiencies to be eliminated prior to its acceptance and processing. All invoices for services performed and expenses incurred by CONTRACTOR for the services of this Agreement must be presented to CMAP no later than fifteen (15) days after the end of this Agreement. Notwithstanding any other provision of this Agreement, CMAP shall not be obligated to make payment to CONTRACTOR on invoices presented after said date. No payments will be made for services performed prior to the effective date of this Agreement. All payments will be transferred electronically to Contractor's business bank account. The successful Contractor will be requested to provide transfer numbers for the business bank account when the contract is finalized, in addition to a copy of its IRS W-9 (Request for Taxpayer Identification Number and Certification).
- d) Each invoice and report submitted must contain: the contract number, a unique vendor invoice number, a description of the services performed, the hourly rates and number of hours worked for each contractor, an itemization of travel and other costs which are chargeable to the contract and the following certification by an official authorized to legally bind the CONTRACTOR:
- By signing this payment request, I certify that to the best of my knowledge and belief that the payment request is true, complete, and accurate, and the expenditures, disbursements and cash receipts are for the purposes and objectives set forth in the terms and conditions of this contract. I am aware that any false, fictitious, or fraudulent information, or the omission of any material fact, may subject me to criminal, civil or administrative penalties for fraud, false statements, false claims or otherwise. (U.S. Code Title 18, Section 1001 and Title 31, Sections 3729-3730 and 3801-3812).
- e) The Contractor is required to pay all subcontractors within thirty days of receiving payment for that portion of the work from CMAP. Failure to pay subcontractors within thirty days may jeopardize future CMAP contract awards.
- 7) Conflict of Interest. In order to avoid any potential conflict of interest, the Contractor agrees during the term of this Agreement not to undertake any activities which could conflict directly or indirectly with the interest of CMAP. Contractor shall immediately advise CMAP of any such conflict of interest. CMAP shall make the ultimate determination as to whether a conflict of interest exists.
- 8) Audits. The records and supportive documentation for all completed projects are subject to an on-site audit by CMAP. CMAP reserves the right to inspect and review, during normal working hours, the work papers of the CONTRACTOR in support of their invoices.
- 9) Access to Records.
- a. The Contractor and its Subcontractor, under this Agreement shall preserve and produce upon request of the authorized representatives of CMAP all data, records, reports, correspondence and memoranda of every description of the CONTRACTOR and its Subcontractors, if any, under this Agreement relating to carrying out this Agreement for the purposes of an audit, inspection or work review for a period of three (3) years after completion of the project, except that:
- i. If any litigation, claim or audit is started before the expiration of three-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved.
- ii. Records for nonexpendable property acquired with federal funds shall be retained for three (3) years after its final disposition.

The CONTRACTOR shall include a provision in all of its subcontracts, if any, such provisions.

10) Subcontracts.

- a. Any subcontractors or outside associates or contractors required by the Contractor in connection with the services covered by this Agreement will be limited to such individuals or firms as were specifically identified and agreed to during negotiations. Any substitutions in or additions to such subcontractors, associates or contractors will be subject to the prior approval of CMAP.
- b. All subcontracts for work under this Agreement shall contain those applicable provisions which are required in this Agreement.
- c. The Contractor may not subcontract services agreed to under this Agreement without prior written approval of CMAP.

11) Equipment Inventory. An inventory of non-expendable personal property having a useful life of more than two years and an acquisition cost of \$500 or more is subject to periodic inspection by CMAP.

12) Suspension. If the CONTRACTOR fails to comply with the special conditions and/or the general terms and conditions of this Agreement, CMAP may, after written notice to the CONTRACTOR, suspend the Agreement and withhold further payments or prohibit the CONTRACTOR from incurring additional obligations of funds pending corrective action by the CONTRACTOR. If corrective action has not been completed within sixty (60) calendar days after service of written notice of suspension, CMAP shall notify the CONTRACTOR in writing that the Agreement has been terminated by reason of default in accordance with paragraph 14 hereof. CMAP may determine to allow such necessary and proper costs which the CONTRACTOR could not reasonably avoid during the period of suspension provided such costs meet the provisions of the U.S. Office Management and Budget 2 CFR 200 in effect on the date first above written.

13) Termination.

- a. This Agreement may be terminated in whole or in part in writing by either party in the event of substantial failure (hereinafter termed "Termination by Default") by the other party to fulfill its obligations under this Agreement through no fault of the terminating party, provided that no such termination may be affected unless the other party is given (i) not less than seven (7) calendar days written notice (delivered by certified mail, return receipt requested) of intent to Termination by Default, and (ii) an opportunity for consultation with the terminating party prior to Termination by Default.
- b. This Agreement may be terminated in whole or in part in writing by CMAP for its convenience (hereinafter termed "Termination for Convenience"), provided that the CONTRACTOR is given not less than seven (7) calendar days written notice (delivered by certified mail, return receipt requested) of intent to terminate.
- c. If Termination by Default is effected by CMAP, an equitable adjustment in the price provided for in this Agreement shall be made, but (i) no amount shall be allowed for anticipated profit on unperformed services or other work, and (ii) any payment due to the CONTRACTOR at the time of termination may be adjusted to the extent of any additional costs occasioned to CMAP by reason of the CONTRACTOR'S default. If Termination by Default is effected by the CONTRACTOR, or if Termination for Convenience is effected by CMAP, the equitable adjustment shall include a reasonable profit for services or other work performed. The equitable adjustment for any termination shall provide payment to the CONTRACTOR for services rendered and expenses incurred prior to termination, in addition CMAP may include cost reasonably incurred by the CONTRACTOR relating to commitments which had become firm prior to termination.
- d. Upon notice of termination action pursuant to paragraphs (a) or (b) of this clause, the CONTRACTOR shall (i) promptly discontinue all services affected (unless the notice directs otherwise) and (ii) deliver or otherwise make available to CMAP all data, drawings, specifications,

reports, estimates, summaries and such other information and materials as may have been accumulated by the CONTRACTOR in performing this Agreement, whether completed or in process.

- e. Upon termination pursuant to paragraphs (a) or (b) of this clause, CMAP may take over the work and prosecute the same to completion by agreement with another party otherwise.
- f. In the event the CONTRACTOR must terminate this Agreement due to circumstances beyond its control, the termination shall be deemed to have been effected for the convenience of CMAP. In such event, adjustment of the price provided for in this Agreement shall be made as provided in paragraph c of this clause.

#### 14) Patents and Copyright Responsibility.

- a. The Contractor agrees that any material or design specified by the Contractor or supplied by the Contractor pursuant to this Agreement shall not infringe any patent or copyright and the Contractor shall be solely responsible for securing any necessary licenses required for patented or copyrighted material used by the Contractor.
- b. If any claim is brought against CMAP by third parties for alleged infringement of third-party patent and copyright and intellectual rights, which claim is caused by breach of the Contractor's promise as contained in paragraph a of this clause, the Contractor shall save harmless and indemnify CMAP from all loss, damage or expense (including attorney's fees) due to defending CMAP from such claim.
- a. If the principal purpose of this Agreement is to create, develop or improve products, processes or methods; or to explore into fields which directly concern public health, safety or welfare, or if the Project is in a field of science or technology in which there has been little significant experience outside of work funded by federal assistance; and any discovery or invention arises or is developed in the course of or under this Agreement, such invention or discovery shall be subject to the reporting and rights provisions of U.S. Office of Management and Budget Circular No. A-102, and to the pertinent regulations of the grantor agency(ies) in effect on the date of execution of this Agreement. The Contractor shall include provisions appropriate to effectuate the purpose of this condition in all subcontracts under this Agreement involving research, developmental, experimental or demonstration work.
- c. Remedies. Except as may be otherwise provided in this Agreement, all claims, counterclaims, disputes and other matters in question between CMAP and the CONTRACTOR arising out of or relating to this Agreement or the breach thereof will be decided by arbitration. If the parties hereto mutually agree, a request for remedy may be sought from a court of competent jurisdiction within the State of Illinois, County of Cook.
- d. Ownership of Documents/Title of Work. All documents, data and records produced by the Contractor in carrying out the Contractor's obligations and services hereunder, without limitation and whether preliminary or final, shall become and remain the property of CMAP. CMAP shall have the right to use all such documents, data and records without restriction or limitation and without additional compensation to the Contractor. All documents, data and records utilized in performing research shall be available for examination by CMAP upon request. Upon completion of the services hereunder or at the termination of this Agreement, all such documents, data and records shall, at the option of CMAP, be appropriately arranged, indexed and delivered to CMAP by the Contractor.
- e. Software. All software, related computer programs, and source code produced and developed by the Contractor (or authorized contractor or subcontractor thereof) in carrying out the Contractor's obligation hereunder, without limitation and whether preliminary or final, shall become and remain

the property of both CMAP and the Contractor. CMAP shall be free to sell, give, offer or otherwise provide said software and related computer programs to any other agency, department, commission, or board of the State of Illinois, as well as any other agency, department, commission, board, or other governmental entity of any country, state, county, municipality, or any other unit of local government or to any entity consisting of representative of any unit of government, for official use by said entity. Additionally, CMAP shall be free to offer or otherwise provide said software and related computer programs to any current or future contractor.

CMAP agrees that any entity to whom the software and related computer programs will be given, sold or otherwise offered shall be granted only a use license, limited to use for official or authorized purposes, and said entity shall otherwise be prohibited from selling, giving or otherwise offering said software and related computer programs without the written consent of both CMAP and the Contractor.

- 15) Publication. CMAP shall have royalty-free, nonexclusive and irrevocable license to reproduce, publish, disclose, distribute, and otherwise use, in whole or in part, any reports, data or other materials specifically prepared under this Agreement, and to authorize other material to do so. The Contractor shall include provisions appropriate to effectuate the purpose of this clause in all subcontracts for work under this Agreement.
- 16) Confidentiality Clause. Any documents, data, records, or other information given to or prepared by the CONTRACTOR pursuant to this Agreement shall not be made available to any individual or organization without prior written approval by CMAP. All information secured by the Contractor from CMAP in connection with the performance of services pursuant to this Agreement shall be kept confidential unless disclosure of such information is approved in writing by CMAP.
- 17) Reporting/Consultation. The Contractor shall consult with and keep CMAP fully informed as to the progress of all matters covered by this Agreement.
- 18) Identification of Documents. All reports, maps, and other documents completed as part of this Agreement, other than documents exclusively for internal use within the Contractor's offices, shall carry the following notation on the front cover or a title page or, in the case of maps, in the same area which contains the name of CMAP and of the Contractor. "This material was prepared in consultation with CMAP, the Chicago Metropolitan Agency for Planning, (<http://www.cmap.illinois.gov>)."
- 19) Force Majeure. Either party shall be excused from performing its obligations under this Agreement during the time and to the extent that it is prevented from performing by a cause beyond its control including, but not limited to: any incidence of fire, flood; acts of God; commandeering of material, products, plants or facilities by the Federal, state or local government; national fuel shortage; or a material act of omission by the other party; when satisfactory evidence of such cause is presented to the other party, and provided further that such nonperformance is unforeseeable, beyond the control and is not due to the fault or negligence of the party not performing.
- 20) Hold Harmless and Indemnity. Neither Party shall be liable for actions chargeable to the other party under this agreement including but not limited to, the negligent acts and omissions of the Party's agents, employees or subcontractors in performance of their duties as described under this agreement, unless such liability is imposed by law. This agreement shall not be constructed as seeking to enlarge or diminish any obligation of duty owed by one Party against the other or against a third party.

## SECTION 6: Certifications

### Federally Funded Agreements

- 1) Standard Assurances. The Contractor assures that it will comply with all applicable federal statutes, regulations, executive orders, Federal Transit Administration (FTA) circulars, and other federal requirements in carrying out any project supported by federal funds. The Contractor recognizes that federal laws, regulations, policies, and administrative practices may be modified from time to time and those modifications may affect project implementation. ## Attachment 4: Checklist of Services

Please check all that apply.

- ☐ **1. Comprehensive plans**  
Comprehensive plans establish a long-term vision for a community and provide a policy framework intended to help the community achieve its goals. Comprehensive plans generally address land use, housing, environment, and transportation. Comprehensive plans may include other topics relevant to individual communities such as stormwater management, health, historic preservation, sustainability, natural resources, agricultural preservation, water resources, or community character.
- ☐ **2. Downtown, neighborhood, subarea, and site plans**  
These plans typically address specific areas, topics, or challenges rather than the all-inclusive approach used for comprehensive plans. These types of plans may focus on, flooding, capital improvements, housing, retail, industry, or a combination of topics for a discrete area of a community. Site plans identify appropriate land uses for locally controlled redevelopment site based on previous planning work, local zoning regulations, and existing market data and analysis.
- ☐ **3. Transportation plans for downtowns, neighborhoods, corridors, and subareas**  
These plans analyze transportation system deficiencies in an area the size of a neighborhood, business district, or other focus area. These types of plans identify ways to improve access to existing transit bus routes and rail stations for residents and commuters in a targeted neighborhood or station area. Projects could include safety measures, bicycle and pedestrian upgrades, improvements to freight movement, and other operation improvements, such as reconfiguring intersections, adding turn lanes or through lanes, and managing arterial access.
- ☐ **4. Transit-oriented development (TOD) plans**  
TOD plans are based on a mix of land uses, higher residential densities, and pedestrian-friendly environments. TOD plans produce recommendations for an appropriate mix of land uses and transportation improvements to support increased transit ridership near rail stations or major bus stations. TOD plans often address urban design elements, including streetscape improvements, and recommend multi-modal mobility improvements within the station area.
- ☐ **5. Transit corridor plans**  
Transit corridor plans develop recommendations for transit-served areas to enhance local mobility and develop transit-supportive land uses for the study area. These plans often identify ways to improve multi-modal access to existing or planned transit facilities, and assess opportunities to enhance transit-related infrastructure. Transit corridor plans often identify options to address the "last-mile problem" by recommending improved connections among transit services, and by addressing the roles that employers can take to improve transit opportunities.
- ☐ **6. Bicycle and pedestrian-focused transportation plans**  
These plans address non-motorized transportation needs, often with the goal of improving and increasing transit access and use of transportation alternatives. Topics can include route planning and infrastructure, wayfinding, streetscapes and furnishings, and access for people with disabilities.
- ☐ **7. Parking management and pricing plans**  
Priced parking has many benefits in areas with significant demand for parking. These plans assess pricing of publicly owned parking spaces on streets, municipal parking lots and garages to provide revenue for local transportation improvements and facilitate land to be transitioned to revenue-generating uses.

☐ **8. Sustainability plans**

Sustainability plans identify a range of strategies to improve the environment, economy, and equity of a community through plans, policies, regulations, facility management, fleet management, energy efficiency, water conservation, and others. Such plans can address a wide range of potential topics depending on a community's specific issues. These plans often set quantitative targets to ensure that implementation strategies are effective and that the community can make progress toward sustainability.

☐ **9. Climate mitigation and adaptation plans**

Climate action, mitigation, and adaptation/resilience plans are focused on preparing a community for potential challenges due to climate change. These types of plans are likely to focus on stormwater management, flooding, vulnerability, and extreme heat, as well as specific strategies related to land use, transportation, and waste.

☐ **10. Water-related plans**

Water-related plans address water resources, stormwater management, urban flooding, water quality, and water demand. These types of plans also address communities seeking to implement water conservation strategies, and/or incorporate future water demand and supply considerations in decision-making.

☐ **11. Housing plans**

CMAQ has developed housing plans for municipalities around the region to address their most pressing housing issues in order to create a balanced mix of housing types, serve the needs of current and future residents and workers, and enhance the livability of participating communities.

☐ **12. Zoning ordinances, subdivision ordinances, and unified development ordinances**

Clearly defined development regulations implement the vision established by local plans and policies. These projects provide a revised zoning ordinance, subdivision ordinance, unified development ordinance (UDO), overlay district, or other appropriate code or regulatory instrument. Zoning updates can be completed for an entire municipality, sub-area, or for a specific section of a code or ordinance.

☐ **13. Special funding districts**

In order to transform ideas from plans into reality, municipalities often establish special funding districts to pursue economic development objectives. This frequently includes creating a Tax Increment Financing (TIF) district, Special Service Area (SSA), or Business Improvement District (BID) within the plan's study area. These tools help finance the implementation of completed plans including transit infrastructure investment. The CMAQ will help municipalities plan for these districts in their community. Contractors will likely assist the municipality with proposing an ordinance to enact the district and with completing the public process required for ordinance adoption.

☐ **14. Economic development plans**

Economic development plans focus on economic and workforce development strategies, policies, and best practices that foster sustainable growth.

☐ **15. Local road safety plans**

A local road safety plan (LRSP) provides a process for identifying and prioritizing potential safety improvements on local roads. The planning process will involve community outreach as well as the engagement of local expertise in engineering, education/enforcement, and emergency medical services (the "4Es"), as appropriate. It will evaluate the most common and riskiest crash types and locations and develop recommendations for countermeasures. The process results in a plan that assesses crash risk, prioritizes the most important actions including capital improvements as well as broader safety programs, and lays out implementation steps. The geographic scope of the project and number of locations evaluated will depend somewhat on resources and extent of safety problems, but it is expected that an LRSP could be developed for a smaller municipality or a section of a larger one.

- ☐ **16. Grant preparation and grant management support**  
Municipalities often lack staff capacity to monitor upcoming grant availability, prepare competitive applications to programs for which they are eligible, and devote necessary time to complete ongoing reporting and ensure successful completion of funded projects. Contractors would assist CMAP in helping municipalities access available resources through preparation of grant and other funding applications and assist with management of awarded funds.
- ☐ **17. Planning visualizations, illustrations, and drawings**  
CMAP often requires assistance with visualizations, illustrations, and drawings to enhance projects by demonstrating the impact of planning or policy directions in specific areas. This work often include oblique aerial views, street-level renderings, and street-level photo simulations, each of which compare current and future conditions.
- ☐ **18. Market analysis**  
CMAP often requires assistance with market analysis to enhance projects during various phases of the planning process. Market analysis may be used to inform existing conditions analysis or plan recommendations based on site-driven analysis, use-driven analysis, or fiscal impact analysis. Market analysis may be used for implementation steps, such as identifying partner organizations, or specific funding mechanisms. In addition, a contractor may be asked to provide assistance to municipalities with limited staff or resources, which may include preparing RFQs, or acting as the community's representative in interactions with potential developers.
- ☐ **19. Public outreach and engagement and community engagement plans**  
Contractors may assist CMAP with doing meaningful and inclusive public outreach and engagement using tools, methodologies, and practices appropriate to the project and the audience.
- ☐ **20. Training and Professional Development**  
Contractors may assist CMAP with trainings and professional development for a variety of audiences, including elected officials, local government staff, appointed officials (e.g. plan commissioners, zoning board members), and other decision makers. Trainings could include topics such as plan implementation (e.g. CIPs, Comprehensive Plans, Subarea Plans), capital improvement planning, budgeting, municipal finance, data management, social media engagement, grant writing and grant management, GIS and other software programs, and any professional development that assists local governments better operationalize resilience, prioritized investment, and equity best practices.
- ☐ **21. Staff augmentation – in-house planning services**  
CMAP cannot anticipate the need for all types of planning services it may need over the next five years and may request contractors provide Staff Augmentation services to CMAP in the form of flexible and well-qualified staffing resources to support CMAP's mission and programs. The Augmented Staff is intended to provide a flexible pool of staff resources that augment CMAP staff across a large variety of skills, experience and subject matter areas and enable project-based and full-time resources based on individual project needs.
- ☐ **22. Assistance with other planning issues**  
CMAP cannot anticipate the need for all types of planning services it may need over the next five years. Assistance with other planning issues may include but not be limited to community needs assessments, policy-related planning topics, and planning research. Other Planning Specialties not specifically outlined in the examples provided that the contractor would like to be considered for please list below:
