14.1 **Sidewalk Inventory:** One recommendation in the region’s comprehensive plan, ON TO 2050, is to support the development of compact, walkable communities. As part of the existing conditions review for ON TO 2050, CMAP conducted an analysis to estimate the walkability of the region. CMAP received feedback that the inclusion of sidewalk data was necessary and we set out to compile such a dataset. With this data, communities can focus energy and resources where there is the most potential to improve walkability – to connect the most important gaps.
