

2019/2020 Local Technical Assistance and Community Planning Programs

Application Number: 82

Project Title: Batavia Bicycle and Pedestrian Plan

Applicant: City of Batavia

Applicant Type: Local Government

Project Location: This is a City-wide proposal for the entirety of the City of Batavia corporate limits and its extraterritorial planning boundary.

Main Contact: Randy Deicke, Fire Chief: rdeicke@cityofbatavia.net, 630-454-2100

Alternate Contact: Joanne Spitz, Bike Commissioner, (630) 278-6337 Joannespitz1@gmail.com

Additional Strategic Partnerships: We would work with our local Park Districts (Batavia and Geneva) and the Kane County Forest Preserve District as they own and maintain many of the off street pathways. We have been in discussion with these other entities about our desire to update and amend this plan.

Project Description: We are interested in revising our existing Bicycle Plan that was adopted in 2007 and further revised in 2009. This plan is now 10 years old and we want to update this plan to reflect changed conditions in development, path additions and traffic changes. We anticipate this could be a complete rewrite of the existing plan. Our current plan is an element of the City's Comprehensive Plan which can be found at the following link: <http://cityofbatavia.net/DocumentCenter/View/33/Bicycle-Plan-PDF>
