Right Plant, Right Place

Achieving a sustainable landscape starts by choosing the right plant for the right place. Getting to know your yard and planning your landscape design accordingly, will result in less work, fertilizer, water, time, and money.

- ✓ Decide what you want from your yard: play areas, gardens, color, privacy, etc.
- ✓ Determine sun exposure and soil drainage at various points in your landscape.
- ✓ Get to know your soil types.
- ✓ Group plants by their needs.
- ✓ Go for diversity and consider using native plants in your landscape.
- ✓ Pick plants that resist pests and use less water.

TAKE THE LAWN TO LAKE PLEDGE TO
PROTECT YOUR LOCAL WATERWAYS.
