

Climate Focus Area: Multi-year Work Planning

September 3, 2020

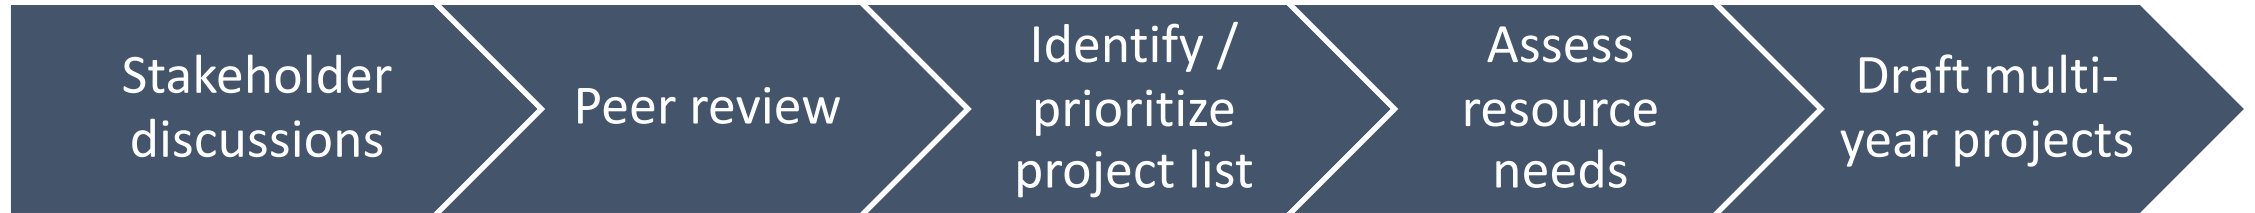

Project Purpose

Develop a multi-year climate workplan of projects to advance implementation of select ON TO 2050 recommendations.

- Identify climate mitigation and adaptation strategies for the region
- Define boundaries of CMAP's land use and transportation work within climate space
- Explore equity, inclusive growth, and environmental justice aspects of the climate challenge

Scope

Looking for your input

- Major stakeholders
- Peer regions, states, multi-jurisdictional areas
- Climate pathways and projects CMAP should focus on
- Transportation mitigation pathways to explore further

Climate updates

- What activities are you aware of?
