Nongovernmental applicants are strongly encouraged to contact CMAP or the RTA prior to submitting their application to discuss their project and the demonstration of local support.
4. Project Type (please check any that apply):
Please check all statements below that describe characteristics of your project. (This will help us determine whether your project is best handled by CMAP or RTA.)

- [X] My project involves preparation of a plan.
- [X] My project helps to implement a past plan.
- [X] My project links land use, transportation, and housing.
- [ ] My project has direct relevance to public transit and supports the use of the existing transit system.
- [X] My project is not directly related to transportation or land use, but implements GO TO 2040 in other ways.

5. Project Location:
Please provide a brief description of the location of your project. You may include a map if that helps to describe location, but this is not required. If your project helps to implement a past plan, please include a link to that plan.

The Village of Old Mill Creek, Lake County, IL

6. Project Description:
Please tell us what you would like to do in your community, and what assistance is needed. If you have more than one idea, please submit a separate application for each project. Please be specific, but also brief (less than two pages per project idea)—we simply want to have a basic understanding of what you want to do. CMAP and RTA staff will follow-up with you if we need any additional information to fully understand your proposed project.

(Please include any additional information that is relevant, preferably by providing links to online documents.)

Our Village of approximately 200 residents in excess of 8000 acres in Northern Lake County. We have issues and concerns with basic infrastructure to maintain the health and wellbeing of our current inhabitants and desires to grow as a sustainable community. An existing regional sewer line is located to the East & on the other side of a stream from the area of our Village with the largest existing population. Our Village needs a plan where it is financially feasible for this existing population area of less than 200 residents to connect to this existing sewer line. We perceive our future and economic viability as dependent on future potable water planning, and access, sanitary waste water planning, and development of the supporting infrastructure.
