Bike & Pedestrian Path Connectivity Plan

Participating Communities: Winthrop Harbor, Zion, Beach Park, Waukegan, North Chicago, Evanston

The bike & pedestrian path connectivity plan will be a unified document that will identify current paths and planned paths within all of the communities, as well as connections that can be made to link the communities together. The result of the analysis and community input campaign would be a unified map and plan detailing a network of bike and pedestrian paths throughout the region. Developing these linked paths for both recreational and alternative transportation purposes will promote a healthier and more environmentally friendly culture throughout each individual community and the wider region.
