

COMMUNITY DATA SNAPSHOT  
NEW CITY, CHICAGO COMMUNITY AREA  
JUNE 2019 RELEASE

## About The Community Data Snapshot

The Community Data Snapshots are a series of County, Municipal, and Chicago Community Area data profiles that primarily feature data from the 2013-2017 American Community Survey (ACS) 5-Year Estimates. As noted in each profile, the data comes from multiple sources in addition to the ACS, which include U.S. Census Bureau, Illinois Environmental Protection Agency (EPA), Illinois Department of Employment Security (IDES), Illinois Department of Revenue (IDR), and the Chicago Metropolitan Agency for Planning (CMAP).

## User Notes

### Margin of error

ACS is a sample-based data product. Exercise caution when using data from low-population municipalities, as the margins of error are often large compared to the estimate. For more details please refer to the [ACS Sample Size and Data Quality Methodology](#).

### Regional values

Regional values are estimated by aggregating 2013-2017 ACS county level data of the seven counties that make up the CMAP region. These counties are Cook, DuPage, Kane, Kendall, Lake, McHenry, and Will.

### Chicago Community Area (CCA) values

CCA values are estimated by aggregating 2013-2017 ACS census tract and blockgroup level data.

### Median values

The Census Bureau encourages users to aggregate small levels of geographies into larger areas and recalculate median values for those aggregated areas. Median values are recalculated using grouped frequency distributions for aggregated areas such as the CMAP region and CCAs.

### Employment values

The Private Sector Employment table features data from the IDES Where Workers Work report. This report includes private sector employment totals for six counties within the seven-county CMAP region, excluding Kendall County.

## POPULATION AND HOUSEHOLD

The population and household tables include general demographic, social, and economic characteristics summarized for New City.

## Community Data Snapshot ON TO 2050 Indicators: New City

### ON TO 2050 INDICATORS

ON TO 2050 is the region's long-range comprehensive plan, adopted by CMAP in 2018. The plan includes a set of indicators for quantifying its goals and measuring implementation progress. While many of these indicators can only be measured at a regional level, several can also be tracked at a local level. These have been laid out in the table below, with comparisons to the region's current measure as well as the targets that the plan is aiming to reach by 2050. Visit [cmap.illinois.gov/2050/indicators](http://cmap.illinois.gov/2050/indicators) to learn more.
