FY 2017 PROJECTS

South Halsted Corridor Enhanced Bus Feasibility and Planning Study

Purpose: In Chicago’s Far South Side communities, bus routes provide critical connections to the region’s rail network. The purpose of this project is to assess alternatives and feasibility for enhanced bus infrastructure improvements along the South Halsted Corridor, which is a major north-south arterial transit corridor on the far South Side that CTA and Pace have identified as a high priority for improved transit service. Improvements along this corridor could achieve significant travel time savings for the more than 98,000 residents within a half-mile of the corridor and the nearly 13,000 daily transit customers who travel on CTA or Pace buses along the corridor.

While long-term planning work on the transformational Red Line Extension project continues, investing in relatively low-cost, high-impact bus improvements along this corridor will enhance livability and support economic development in existing communities by reducing travel times and reinforcing links to regional employment and educational opportunities. Additionally, Pace has identified the South Halsted Corridor between the 95th Street Red Line Station and Harvey Transportation Center, as a priority corridor in the agency’s Pulse Arterial Rapid Transit (ART) Program.

The South Halsted Corridor is defined by the Harvey Transportation Center to the south and CTA’s 79th Street Red Line station to the north. Current CTA bus service along the corridor provides connections to the Red Line stations at 95th and 79th street while Pace services provide connections to the 95th Street Red Line Station, Metra Electric Line West Pullman and Harvey stations and the Pace Harvey Transportation Center.

This project will provide a comprehensive assessment of service patterns for the shared use of the corridor by CTA and Pace, and an evaluation of various infrastructure and transit service improvements that can be applied along the entire corridor. Analyses will include an initial feasibility assessment, potential travel time reductions, operating cost savings, and ridership impacts from a range of bus infrastructure improvements along the corridor. Improvements include, but are not limited to, dedicated bus lanes, transit signal prioritization (TSP)/queue jumps, bus stop spacing optimization, and pedestrian improvements where feasible. This project will also support further conceptual planning necessary to apply for a South Halsted Small Starts project.

Project Manager: Emily Drexler

Progress: In Q4, CTA worked with Pace and consultants to finalize the parking impacts memo. CTA also began project close out tasks, including overhead reconciliation.

Products: Parking Impacts Memo
Objectives for the Next Three Months: Project close out tasks.

FY 2019 PROJECTS

Next Phases of the Red and Purple Modernization (RPM) Core Capacity Expansion Program

Purpose: The purpose of this project is to support conceptual planning and National Environmental Policy Act (NEPA) activities for the next phases of the Red and Purple Modernization (RPM) Core Capacity Expansion Program. The RPM Program is being delivered in phases to bring improvements sooner to the people who rely on the CTA Red and Purple lines. On January 9th 2017, RPM Phase One became the first Core Capacity project to receive a Full Funding Grant Agreement through the FTA’s Capital Investment Grant Program. This project to identify the next phases of RPM will build upon the success of RPM Phase One.

The RPM Program, which includes the Red and Purple Lines from approximately Belmont station in Chicago to Linden station in Wilmette, is one part of CTA’s efforts to enhance the entire Red Line and is identified in ON TO 2050 as a regionally significant project. This project is necessary to evaluate potential future project elements, including RPM Phase Two. It will include the capacity analysis, conceptual engineering, and early environmental review that are required to identify the next phases of RPM, stakeholder/outreach activities, and prepare materials to needed for the Project Development phase of the FTA’s Capital Investment Grant Program as a Core Capacity project. The project is ready to begin and scalable.

Project Manager: Christina Bader

Progress: Existing conditions and data analysis began. Interviews with CTA stakeholders began. Public Outreach Plan drafted.

Products: See progress notes.

Objectives for the Next Three Months: The team will complete CTA interviews, finalize the Public Outreach Plan, and begin drafting the Existing Conditions Report.
**FY 2020 PROJECTS**

**Better Streets for Buses** (formerly Bus Priority Network Plan)

**Purpose:** The purpose of the project is to support CTA and CDOT’s collaborative effort to develop a citywide Better Streets for Buses plan for Chicago that will identify corridors where bus enhancements are most appropriate based on high ridership, slow bus travel times, and other relevant factors. Better Streets for Buses will also include a toolbox of bus priority street treatments for the City of Chicago that would be considered for application in these corridors, ranging from small adjustments to pavement markings and curbside uses, to sophisticated signal changes and bus-only lanes. Better Streets for Buses will complete the CDOT suite of Complete Streets guiding documents that currently includes the Chicago Pedestrian Plan and the Streets for Cycling Plan 2020.

**Project Manager:** Jen Henry

**Progress:** In Q4 2021, CTA continued work with consultants to finalize public-facing materials presenting toolkit of treatments and maps of proposed corridors, set up a project website, produce a draft Plan document, and finalize posters to publicize the project for posting on buses, trains, and at community locations such as aldermanic offices and libraries. Concurrently, CTA and CDOT engaged the Transportation Equity Network to advise on incorporation and presentation of equity-related factors, and made several refinements based on their input.

**Products:** Final corridor map, final posters (no additional public materials were finalized, although work to refine them took place), presentations for and notes from Transportation Equity Network.

**Objectives for the Next Three Months:** Finalize all materials, finalize pre-launch and launch schedule; begin briefing additional stakeholders, potentially including transportation advocates, other agencies, and aldermen, finalize schedule for virtual public meetings.

**FY 2021 PROJECTS**

**Program Development**

**Purpose:** The purpose of this project is to support regional objectives by providing for the strategic participation of CTA in the region’s transportation planning process including the development of the Regional Transportation Program (RTP) and the Transportation Improvement Program (TIP). It will facilitate CTA’s efforts to coordinate the provision of capital projects for customers in its service area with regional programs and plans.
Project Manager: Michael Fitzsimons

Progress:

- Presented FY 2021-2025 CIP Board Amendment to CTA and RTA Boards (May). Amendment approved which reflected the following: (1) FTA Formula program of projects based on final FY 2021 Federal Budget appropriations; (2) State Transportation Bond and PayGo program of projects for FY 2021 grant submittal; and (3) Reprogramming of granted funds - State, RTA, and CTA.
- FY 2021 State grants including Transportation Bond and PayGo submitted to RTA/State for their review.
- FY 2020 State PayGo grant amendment reallocating project funds to key priority projects and based on timing of project need.
- Completed and submitted TIP amendment for inclusion of the FY 2021-25 CTA Amended CIP.
- Submitted grant application for FTA CRRSSA COVID19 Emergency funds.
- Submitted FY 2020 5339 FTA Low or No Emission Vehicle Program grant application to provide funding for CTA’s electric bus program.
- FY 2022-2026 Capital Program Solicitation (Call for Projects) sent out agency wide to department heads.

Products: See progress notes.

Objectives for the Next Three Months:

- Complete project descriptions and budgets for FY 2021 FTA Section 5307 Urbanization, 5337 SOGR, and 5339 Bus & Bus Facilities formula funds submit grant application. CTA expects to receive executed grant award in September.
- Executed grant agreement for the FY 2021 State Transportation Bond and State PayGo programs.
- Review and evaluate FY 2022-2026 Project Requests. Identify candidate projects for possible inclusion into Preliminary FY 2022-26 CIP.
- Develop Preliminary FY 2022-26 CIP and planning scenarios for review by management.
- Prepare final draft of FY 2022-26 CIP
- Complete final draft of FY 2022 Budget Book.
- Prepare grant application for FTA ARPA COVID19 Emergency funds.
City of Chicago, Department of Transportation
FY 2018 PROJECTS

CREATE Program Planning Support – Passenger & Commuter Rail

**Purpose:** Chicago will prepare technical, planning, policy and strategy support services to ensure that the remaining CREATE investments maximizes public benefit. The City will facilitate communications with affected communities, businesses, and related stakeholders.

**Project Manager:** Jeff Sriver

**Progress:** UWP-funded work has ended.

**Products:** Continuing analysis of STB Waybill data to understand recent trends in commodity flows and trends and how that affects CREATE projects and regional infrastructure usage and needs. Coordination with railroads regarding updates to RTC model. Website transition coordination. Development of 2020 Advocacy Plan. Preparation of various outreach presentations.

**Objectives for the Next Three Months:** UWP-funded work has ended.

FY 2019 PROJECTS

**Vision Zero South Side**

**Purpose:** Vision Zero is Chicago’s initiative to eliminate fatalities and serious injuries from traffic crashes by the year 2026. A multi-departmental Vision Zero Steering Committee led by the Mayor’s Office and four Working Groups have identified goals and strategies to increase traffic safety. A three-year Vision Zero Chicago Action Plan was released in June 2017 and implementation and tracking are underway. This data-driven process established City priorities and identified the resources – and gaps in resources – to meet benchmark reduction goals for fatalities and serious injuries by 2020.

Through data analysis for the plan, City staff identified communities with above average rates of severe crashes (crashes causing death or serious, incapacitating injury). While these High Crash Areas comprise just 20% of Chicago’s geographic area and 25% of Chicago’s population, a disproportionate 36% of severe injury crashes occur within their boundaries. More aggressive severe crash reduction goals are set for these High Crash Areas, where City investment will hold a greater impact.

Equity is a major component of Vision Zero Chicago. The Economic Hardship Index is an index score developed by the Chicago Department of Public Health that compares six data points to determine the level of economic hardship community members face compared with other Chicagoans. These include crowded housing, poverty rates, unemployment, education, dependency, and per-capita income. Chicagoans living in areas of high economic hardship have a traffic crash fatality rate (deaths per 100,000 residents) twice as high as those living in areas of low economic hardship, and seven of the eight High Crash Areas are also areas of high
Traditional models and proven countermeasures for traffic enforcement and public communication typically do focus on using data, but the role of community input and accountability are largely unaddressed. An innovative, public-facing process would improve several of these countermeasures, including public information support, high visibility enforcement, unstaffed speed displays, and laser speed measuring equipment.

Vision Zero Chicago provides the opportunity to work with multiple City departments and the public to construct a model for successful, equitable community engagement that builds upon these countermeasures.

**Project Manager:** Sean Wiedel

**Progress:** Data collection and analysis preparation; initial engagement

**Products:** N/A

**Objectives for the Next Three Months:** Data analysis; engagement strategy

## FY 2020 PROJECTS

### North Grant Park – Streeterville Transportation Demand Management Plan

**Purpose:** Understand the complex multimodal dynamics that create gridlock for the crossroads of Illinois’s densest concentration of residents, employers, educational institutions, medical services and cultural attractions within the North Grant Park and Streeterville neighborhoods of Chicago. Generate actionable solutions and recommendations through a transportation demand management (TDM) plan.

The proliferation of special-use modes such as TNPs, taxis, tour group and school trip buses, commuter shuttles, and tourist trolleys all compete for the same road space, whether it be within roadway lanes or loading zones that become de facto pick up/drop off points. These modes can also impact the efficient flow of traffic through behaviors such as, but not limited to, double parking and queuing in roadway lanes. This often negatively affects other modes, specifically CTA bus service, bicyclists and pedestrians. Patchwork accommodations for special-use modes are not enough as density increases and more visitors flock to Illinois’s top destinations. A coordinated TDM plan will re-imagine existing infrastructure to meet future special-use mode demand, incentivize efficiencies, leverage public-private partnerships to address mobility needs, and develop policies that proactively manage special-use mode travel behavior.

**Project Manager:** Philip Banea

**Progress:**

**Existing Conditions**
Initiated data collection outreach to City departments and sister agencies
Identified points of contact within City departments and sister agencies for project coordination and scheduled meetings
Developed Study Area map focused on transportation assets
Reviewed Study Area map with CDOT project team and revised based on feedback
Finalized preliminary Study Area map with CDOT project team and revised based on feedback
Facilitated initial data request meeting with CTA
Facilitated initial data request meeting with Chicago BACP

Stakeholder Engagement
- Facilitated introductory meeting with Alderman Hopkins’s office on Monday 5/17
- Facilitated introductory meeting with Alderman Reilly’s office on Tuesday 6/1
- Debriefed on the meetings with the Aldermen
- Discussed initial stakeholder engagement activities for summer 2021
- Initiated draft Curbside Management Plan Messaging strategy document

Research Best Practices
- Continued best practice scan
- Continued to update best practice matrix
- Initiated discussion of pilot programs for curbside management technology and/or policy
- Reviewed NYC DOT Freight Management Plan

Products: Internal memos and presentation materials for meetings

Objectives for the Next Three Months:
- Follow up with CDOT Bike/Ped and Vision Zero teams on available data
- Prepare additional Study Area maps
- Follow up with CTA and Chicago BACP on data requests
- Review received data and identify areas (blocks, intersections, corridors) for further analysis
- Refine schedule for standing technical working group and community advisory group meetings (starting Fall 2021)
- Continue stakeholder outreach schedule and activity planning
- Continue to manage Stakeholder Engagement Plan
- Continue to update data framework for Asset Inventory
- Continue review of industry scan documents

FY 2021 PROJECTS

Chicago Transportation Planning and Programming

Purpose: Support the CMAP regional objectives as an MPO by ensuring the City of Chicago’s participation in CMAP’s transportation planning and programming processes including the UWP Progress Report
development of the RTP and the TIP. In addition, CDOT will conduct technical/policy studies and analyses, which will lead to transportation projects and policies, as well as information for various audiences (including other government agencies, elected officials, stakeholder organizations, and the general public). Work on these tasks facilitates the full and effective participation of the City of Chicago in the regional planning process.

Project Manager: Philip Banea

Staff attended meetings, prepared or reviewed graphics/memos/reports, and coordinated with other agency staff regarding the following projects or initiatives:

- The following projects were completed during this fiscal year:
  - North Branch Industrial Corridor Transportation Improvement Support Services
  - Chicago – Oak Park Traffic Safety and Mobility Improvement Study
  - Metra Fulton Market In-fill Station Feasibility Study
- Citywide Complex Intersections Study/Framework Plan
  - The consultant team is working on concepts/recommendations on several intersections, determined by the intersection priority levels that were finalized the previous quarter.
- Chicago River Planning
  - The CDOT project manager is working with the consultant team to finalize the procurement process for the River Edge Access Study, in order to receive the Notice to Proceed.
  - The CDOT project manager is working with the consultant team to finalize the scope/cost proposal for the Access Plan to South Branch Parks Study.
- The following activities occurred for the Southwest Industrial Corridor Transportation Planning Support Services (SWICTS) and the Little Village 31st Street Corridor Study:
  - Alderperson outreach
  - Internal coordination with City departments and regional agencies
  - Data collection
- Grant coordination and quarterly reporting for Cook County Invest in Cook, CMAP UWP, and IDOT SPR funded projects.
- General coordination with CTA over strategies to plan, design, and implement Bus Priority Zones.
- Coordination with CMAP and RTA regarding various LTA/Community Planning studies within the City of Chicago.

Central Business District (CBD) Multi-Modal Demand Assessment

Purpose: Chicago’s CBD is an economic, cultural, and recreational hub for the State of Illinois and is supported by roughly 30,000 residents, 400,000 employees, and 150,000 visitors from around the world per day. People move across the CBD in all modes of transportation at all hours of the day. Understanding existing travel patterns is critical to implement active traffic management, prepare for emerging technologies and new mobility options, develop policies to shape the future of transportation, and to ensure that Chicago’s transportation network is serving all users efficiently and safely. A comprehensive and up to date traffic trends set is critical for coordination and planning across multiple agencies and will greatly benefit the
region. An assessment of traffic will be conducted near Metra, CTA, and Amtrak rail stations to help inform future projects related to service planning, wayfinding signage, and infrastructure improvements. Better understanding traffic patterns, particularly pedestrians, will be critical for the Chicago Department of Planning and Development and business associations to understand opportunities to support economic development and planned development projects in the downtown.

This project will support and inform other UWP studies, including CDOT’s North Grant Park – Streeterville Transportation Demand Management Plan, CTA’s Bus Priority Network Plan, and Metra’s Downtown Connections Study, which will identify strategies for better managing regional and local traffic and curbside demand. A comprehensive set of traffic trends along with the recommendations for Streeterville will help inform strategies for managing traffic in other areas of downtown. Also, CDOT is in the process of building out our traffic management center (Chicago Smart Mobility System) by compiling a variety of inputs that can be used for project planning and real-time interventions. The information from this proposed project can be incorporated into the traffic management center and used by project managers across the department.

CDOT will engage a consultant to assess demand at hundreds of mid-block locations across the CBD to document the number of people walking, biking, and driving throughout the day. CDOT does not currently have an up to date and accurate snapshot of the number of people moving throughout the CBD, particularly on foot and by bike. While CDOT does have access to telematics data from Replica, that data does not provide the level of detail needed to appropriately plan for projects and develop policies for a targeted area like the CBD. This project will include demand assessment (including data processing and analyses), resulting in a collection of detailed data sets and report summarizing travel patterns throughout the area.

**Project Manager:** Brenda McGruder

**Progress:** Continued internal meetings to determine how to incorporate these project tasks into other current projects.

**Products:** N/A

**Objectives for the Next Three Months:** Continue internal discussion and finalize procurement.
Counties

FY 2021 PROJECTS

Cook County Transit Plan

**Purpose:** Cook County is ideally positioned to benefit from changes to the transit system given that it encompasses the entire CTA system (both train stations and bus routes), two-thirds of all Metra stations and more than three-quarters of Pace routes. Within the region, Cook County accounts for more than half the residents and jobs and 77 percent of all revenues collected to support public transportation. Moreover, its built environment is the most transit supportive of any within the Chicago metropolitan region. As noted in its long range transportation plan, Cook County competes with other US and international urban areas for businesses, people, capital and talent. To successfully compete, the County must ensure that its transit system offers residents and businesses realistic, high-quality choices.

The goal of this study is to improve the quality and frequency of transit service and increase ridership by identifying how existing resources can be better used, developing new capacity, making modifications to the existing public transit system, ensuring better integration between transit providers and various modes of transportation, evaluating the relative impact of planned improvements to the system, assessing fare structures, and supporting new development on vacant or underutilized land with high levels of transit availability.

**Project Manager:** Benet Haller, Cook County Department of Transportation and Highways

**Progress:** Finalizing screening criteria, completing first phase of outreach

**Products:** Screening criteria, tentative project list

**Objectives for the Next Three Months:** Finalize project list, develop draft plan document.

Countywide ITS Study

FY 2020 PROJECTS

**Purpose:** The Counties’ Core Long-Range Transportation Planning (LRTP) Program provides for the ongoing development and maintenance of multi-jurisdictional plans needed to manage future growth and travel demand. These Plans are tools that guide the programming and planning of infrastructure improvements, services and the allocation of financial resources. A rotating planning cycle among the Counties insures that policies, strategies and projects are reviewed and updated on a periodic basis. *Will Connects* 2040 LRTP identified the need for the
county to develop a Countywide ITS plan. It noted that we cannot build our way out of congestion and other ways of moving traffic need to be investigated. The outcome of this study will provide the WCDOT with a blueprint of how to deploy ITS throughout the county.

**Project Manager:** Christina Kupkowski, PE – Phase I Project Manager, Transportation Planner Will County DOT (WCDOT)

**Objectives for the Next Three Months:** Draft Implementation Plan submitted for internal and Steering Committee review, hold 2nd Stakeholder Workshop, Approval of the Concept of Operations document.
PROGRAM DEVELOPMENT

**Purpose:** Program development of capital transit planning and development

**Project Manager(s):** Dustin J. Clark, Tina Ignat, David J. Kralik, Margarita Yamin, Daniel Thomas, Holly Waters (retired 12.31.2020)

Note: Metra does not draw down until the grant agreement is signed.

**Progress:**

- **Capital Program:**
  - Initiated Metra’s Call for Capital Projects 2022-2026:
    - Internal solicitation for capital project requests from departments within the agency.
    - The Program Development department is supporting the agency’s departments in completing new capital project request forms that provide data and information about potential capital projects.
    - Drafting an “Unconstrained” 2022-2026 Capital Program that includes all capital project requests.

- **Asset Management / TAM:** continued with improvement/implementation from 2018-2022 horizon period, kicked off update of TAM Plan for 2023-2026 as well as working with RTA Strategic Asset Management (SAM) team on COST model project:
  - Change Order 6 - Update TAM Plan - was issued NTP at April 2021 Board and began working with consultant in May 2021 to develop project plan, mobilize, and review documents. Held Lessons Learned meeting on June 29th. Project end date is December 2022.
  - Change Order 5 with consultant is to implement TAM improvement program from 2018-2022 TAM Plan. It involves eight (8) tasks that kicked off November 2020 and scheduled to end December 2022. Through June 2021, Task 1, Developed Asset Inventory Management (AIM) standards, Task 2 Assess Current Technical Architecture (current state), and Task 3 Design AM solution architecture (future state) are completed. In June 2021, there is ongoing work on Task 4 for Cost Benefit Analysis and Task 5 Data Standardization.
  - Coordinating with Jacobs Engineering to update data in COST model which was completed in Q12021. Now collaborating with RTA SAM team on COST model data updates.

- **NTD:** Participated in review process of RY2020 with NTD Analyst. Continued to work with external auditors for tandem external review of NTD reporting process.
Products:

- **2021-2025 Capital Program:**
  - Completed 2021-2025 Capital Program and held public comments period and hearings (virtual). Approved by Metra Board.
  - 2021-2025 Capital Program presented to RTA Board and CMAP Transportation Committee.
  - Assembled March 2021 Amendment package. Approved by the Metra Board.
    - Subsequently, submitted the RTA Program Amendment package for Q1 2021.
  - Assembled May 2021 Amendment package. Approved by the Metra Board.
    - Subsequently, submitted the RTA Program Amendment package for Q2 2021.

- **2021-2025 Capital Program:**
  - Launched a reworked Call for Capital Projects in late April.
    - Developed a new, partially-automated Capital Project Request Form (CPRF) with the assistance of Metra’s PMO consultant to collect information for ongoing and new capital projects.
    - Created training materials and held two live training sessions to brief Metra project managers and division managers on the reworked, internal Call for Capital Projects.
      - Approximately 60 Metra staff attended the training sessions. 186 forms were submitted.
  - Reviewed 2021 Investment Prioritization criteria and developed additional data to score projects.
    - [Federal TAM Rule 49 U.S.C. Chapter 53, Element 4 requires a ‘Prioritized List of Investments’ to be in the TAM Plan. Metra’s Investment Prioritization is the method to annually score proposed capital projects and generate Element 4].

- **Capital Projects Report:** tracking Basis of Expense (BOE) data for all capital projects to inform the 2022-2026 Capital Program and to identify additional capital funds needed to complete projects.
  - Product discontinued. Metra’s PMO is currently developing a method to track capital project expenses.

- **UWP FY2022 Core Proposal:**
  - Submitted UWP FY2022 Core Proposal in November.
• Discretionary Grant Applications:
  • FTA COVID Demonstration Research:
    ▪ Applied for grant funds in November: Technology Reassuring You Safe Transit (TRUST).
  • CMAQ 2022-2026:
    ▪ Applied for grant funds in March: Metra Alternative Fuel Locomotives.
  • STP Shared Fund 2022-2026:
    ▪ Applied for grant funds in March: Olympia Fields Station Rehabilitation.
  • Invest in Cook 2021:
    ▪ Applied for grant funds in March: 147th St. Station Rehabilitation in Harvey.
  • US EPA Diesel Emissions Reductions Act (DERA) 2021:
    ▪ Applied for grant funds in March: Electric Switcher Locomotive Procurement.
  • USDOT FY2021 RAISE:
    ▪ Application drafted to submit in July: Metra Union Pacific North Line Bridges - South 11

Asset Management / TAM:
• Completed contracted Facility Condition Assessments in February 2021.
• Completed NTD submission for Reporting Year 2020 in May 2021.
• Continued implementation of the TAM Plan Improvement Program
• In preparation for updating agency TAM Plan for 2023-2026 horizon period, held Lessons Learned workshop in June 2021.
• Updated COST model and continued to work with RTA SAM team and Service Boards.

DOWNTOWN CONNECTIONS STUDY
Purpose: To investigate the role of private shuttles and TNPs as the “last mile” connection from Metra in the Downtown Chicago area.

Project Manager(s): Jason Osborn

Note: Metra does not draw down until the grant agreement is signed.

Progress:
• Metra’s Downtown Connections Study has not yet been initiated due to COVID-19.
• Project status remains unchanged from the previous quarter; Metra will notify the CMAP UWP program staff at the time the study is initiated.
PACE
FY 21 Projects

RIDESHARE SERVICE PROGRAM – Task 5328.93
Purpose: To fund marketing content and labor needed to support the launch of the new software and improve the user experience as well as make this regional TDM tool available for future regional pilot projects. The online matching tool is a critical component of the Pace RideShare program and the new features will trigger changes to the website content, incentives offered, program approach and marketing. In addition, it will allow Pace to better support and grow the existing Pace Vanpool Program and prepare for connecting to a future regional trip planner.

The Pace RideShare Program helps the long-distance workday commuters where public transportation and ride hailing are not an option as they are too expensive, take over an hour of travel or not available.

Project Manager: Kim Koy

Progress:
(1) Pace RideShare collaborated with a marketing firm and web developer to implement recommendations from the website evaluation to enhance the user experience. Recent updates include:
   • Consistently format search results across modes with a fully visible list of options, phone, text and email icons, bold font, instructions with hyperlinks and chevrons
   • Clearly organize the commute details across modes
   • Enhancements to the Pool search results for the user
   • Adding hyperlinks to transit orientation information from the transit search results
   • Update the one-time ride image in the help section
   • Add a carpool registration link to the commute preferences
   • Remove startup form button until updated

(2) Researched compatibility with What’s app and Instagram, enhancements made to the GRH and gamification features and a new feature for carpooling to a transit hub.
(3) Drafted a SOW for a homepage refresh, creating user stories for each visitor type.
(4) Managed the vanpool and user modules and updated the employer, transit stop and park’n’ride modules. Additional administrative work was completed including processing invoices, scheduling, and attending meetings, preparing feedback on platform and marketing updates, testing functionality, and providing customer service.
(5) Rideshare open seats were not marketed and there were no promotions to form new Pace Vanpools or carpools due to safety concerns during the pandemic.
Products:

1. A SEO audit brief that examines keyword strategy, keyword research, keyword mapping, product taxonomy, content quality, metadata optimization, links, user experience, brand affinity, prioritizes areas of highest impact and lowest effort and provides next step recommendations.
2. An online improved Commute Search experience across key modes.

Objectives for the Next Three Months: This concludes the grant period as funds expire June 30, 2021. Please note that Pace will continue to incorporate recommendations from both the Website and SEO audits to enhance PaceRideShare.com.

TIP DEVELOPMENT AND MODELING – Task 2351.04

Purpose: To develop a fiscally constrained Pace Bus Capital Improvement Program for the Northeastern Illinois region which is consistent with and supportive of the five-year regional TIP.

Project Manager: Simon Gonzalez, Kris Skogsbakken

Progress: A pair of 2021 capital budget amendment were passed at Pace’s August and September Board meeting to incorporate necessary program changes, including additional lapsing federal funding reallocated by the FTA to Pace. Conducted review and scoring of budget call project requests. Developed the 2022 annual and 2022-2026 draft capital budgets and Board presentations in accordance with the RTA’s preparatory funding marks. Funding year 2021 approved projects were entered into TIP to make Pace current on 4 new applications being filed this year. The 5-year project program will soon be entered into TIP.

Products: Board presentation of draft capital budget and draft capital budget memo and attachments to Board included in Board meeting packet.

Objectives for the Next Three Months: Complete proposed budget book capital sections. Complete capital program submittal to the RTA.
RTA

FY 2017 FUNDING

Community Planning Assistance to Local Governments

Purpose:
The Community Planning Program provides funding and planning assistance for planning projects that benefit the community and the regional transportation system. RTA staff performs program and project management activities in support of the program.

Project Manager: Michael Horsting

Progress:
- Cary Transit Oriented Development Plan: During the quarter a final draft plan was developed and reviewed at final meetings with the public, the project steering committee and the transit agencies. The draft plan was presented to the Cary Village Board which adopted the plan unanimously. Following adoption, the plan was finalized.

Products:
- Cary Transit Oriented Development Plan: Cary Downtown Strategic Plan

Objectives for Next Three Months:
- Cary Transit Oriented Development Plan: None, this is the final quarterly report.

FY 2019 FUNDING

Community Planning Assistance to Local Governments

Purpose:
The Community Planning Program provides funding and planning assistance for planning projects that benefit the community and the regional transportation system. RTA staff performs program and project management activities in support of the program.

Project Manager: Michael Horsting

Progress:
- RTA/Pace I-294 Tri-State Market & Facilities Feasibility Study: Final consultant deliverables were drafted. Service and station concepts were reviewed by local and regional agencies for feedback, including the Tollway, Cook County, and municipal partners. A broader public survey was developed to gain feedback from the public. Project is complete.

Products:
- **RTA/Pace I-294 Tri-State Market & Facilities Feasibility Study**: Final consultant deliverables including the draft final Summary Report as well as supporting and interim memos.

Objectives for Next Three Months:
- **RTA/Pace I-294 Tri-State Market & Facilities Feasibility Study**: Consultant contract is complete; this is the final quarterly report.

**FY 2020 FUNDING**

**Community Planning Assistance to Local Governments**

**Purpose:**
The Community Planning Program provides funding and planning assistance for planning projects that benefit the community and the regional transportation system. RTA staff performs program and project management activities in support of the program.

**Project Manager**: Michael Horsting

**Progress:**
- **Harvey TOD Plan Update**: A project kickoff including a walking tour of the study area was held in the spring. Data collection and initial analysis of the study area is underway. Weekly progress meetings take place, and a community engagement strategy was drafted.
- **University Park TOD Plan Update**: Negotiations with the preferred consultant.

**Products:**
- **Harvey TOD Plan Update**: None
- **University Park TOD Plan Update**: None

Objectives for Next Three Months:
- **Harvey TOD Plan Update**: Finalize the existing conditions analysis along with transportation and market assessment. Conduct the first public engagement events. Second Steering Committee meeting. Initial recommendations development.
- **University Park TOD Plan Update**: Issue a consultant task order and Notice to Proceed. Conduct a project kick-off and initiate data collection.
