

FFY 2022 CRRSAA Shared Fund Project Manager Designation Form

According to the [Guidance for the Programming and Active Program Management of CRRSAA funds](#), the project sponsor must designate a Technical Project Manager and a Financial Project Manager for each active or contingency project. The project managers are responsible for knowing the project status, and understanding the federally funded project implementation process, and CRRSAA Shared Fund program policies throughout the life of a project. Project managers are also responsible for all communications with CMAP regarding projects and for the timely completion of required quarterly status updates.

Project managers must be members of the sponsor agency's staff. In the event of staff changes, the project sponsor should designate a new manager(s) as soon as possible by completing a new Project Manager Designation Form. The Technical Project Manager and Financial Project Manager generally should not be the same person, unless the Technical Project Manager has a direct role in developing the sponsor's budget and/or securing local funding. For each project phase utilizing consulting services, a Consultant Project Manager must also be designated from the consulting team.

Project Information

TIP ID:		Project Sponsor:	
Project Description:			

Technical Project Manager

The Technical Project Manager is the person responsible for overseeing the implementation of the project, managing any consultants involved in the project, ensuring that all federal, state, and local requirements are met and, in conjunction with the Financial Project Manager, ensuring that the required agreements between the sponsor agency and IDOT are approved and executed in an appropriate and timely manner.

Name:		Title:
