ON TO 2050 recommends fully funding the region’s transportation system. The plan also recommends that new user fees be implemented carefully to avoid undue burdens on residents with low income, who in metropolitan Chicago are disproportionately people of color. To advance strategies to achieve alignment of transportation revenue and equity objectives, CMAP conducted its first comprehensive analysis on the impacts of transportation fees, fines, and fares on residents and households with low income. Staff will present the analysis, findings, and recommendations of CMAP’s Equity in Transportation Fees, Fines, and Fares project.

6.0 Community Data Snapshot Improvements
CMAP produces annual Community Data Snapshots: data profiles for municipalities and counties in northeastern Illinois, as well as Chicago Community Areas. These snapshots summarize demographics, housing, employment, transportation habits, retail sales, property values, and land use.
