Policy direction

Policy Focus Areas

- 1 Transportation Equity
- 2 Shared Mobility
- 3 Demand Management
- 4 Deploying Technology

Transportation Equity

Emergency Bike Lanes – Paris, FR

Rapid Equity Assessment tool – Los Angeles, CA

Superblock Model Expansion – Barcelona, ES

Distributional Appraisal (Equity Weights in Infrastructure) CBA – UK

CTA Pop-Up Bus Lanes- Chicago, IL

Fare-free Shuttles to COVID Vaccine Sites – Oakland, CA

Shared Mobility

LA Metro’s Mobility-on-Demand Service – Los Angeles, CA

PBOT Micro-Transit Polices – Portland, OR

Go Nightly Rideshare Program – Miami, FL

GoLink On-demand Curb-to-Curb Service- Dallas, TX

PBOT Micro-Transit Policies- Portland, OR

Demand Management

Intelligent Travel Management – Paris, FR

Miami-Dade TPO Telecommute Study – Miami, FL

Road Pricing System – Singapore

Congestion Charge and Ultra Low Emission Zone (ULEZ) Zone – London, UK

Dynamic Pricing on I-55 Managed Lane Project – DuPage & Cook Counties, IL

Deploying Technology

Fare Coordination and Integration Study – Bay Area, CA

AT Mobile App Real-time Bus Capacity – Auckland, NZ

OReGO VMT TAX – Oregon

Parcel Locker Network - Singapore

Financial sustainability

Fully fund the
region's
transportation
system

Sketch Model Approach

How are we evaluating financial sustainability?

- Considers a typical future year
 - Annual operating expenses and revenues
 - Annualized capital cost and revenues
- Reduces analysis to a simple question: How can we reasonably increase revenues across a set of potential sources to support the planned services/investment?

Policy Focus Areas

What kinds of policies and projects could we test with this tool?

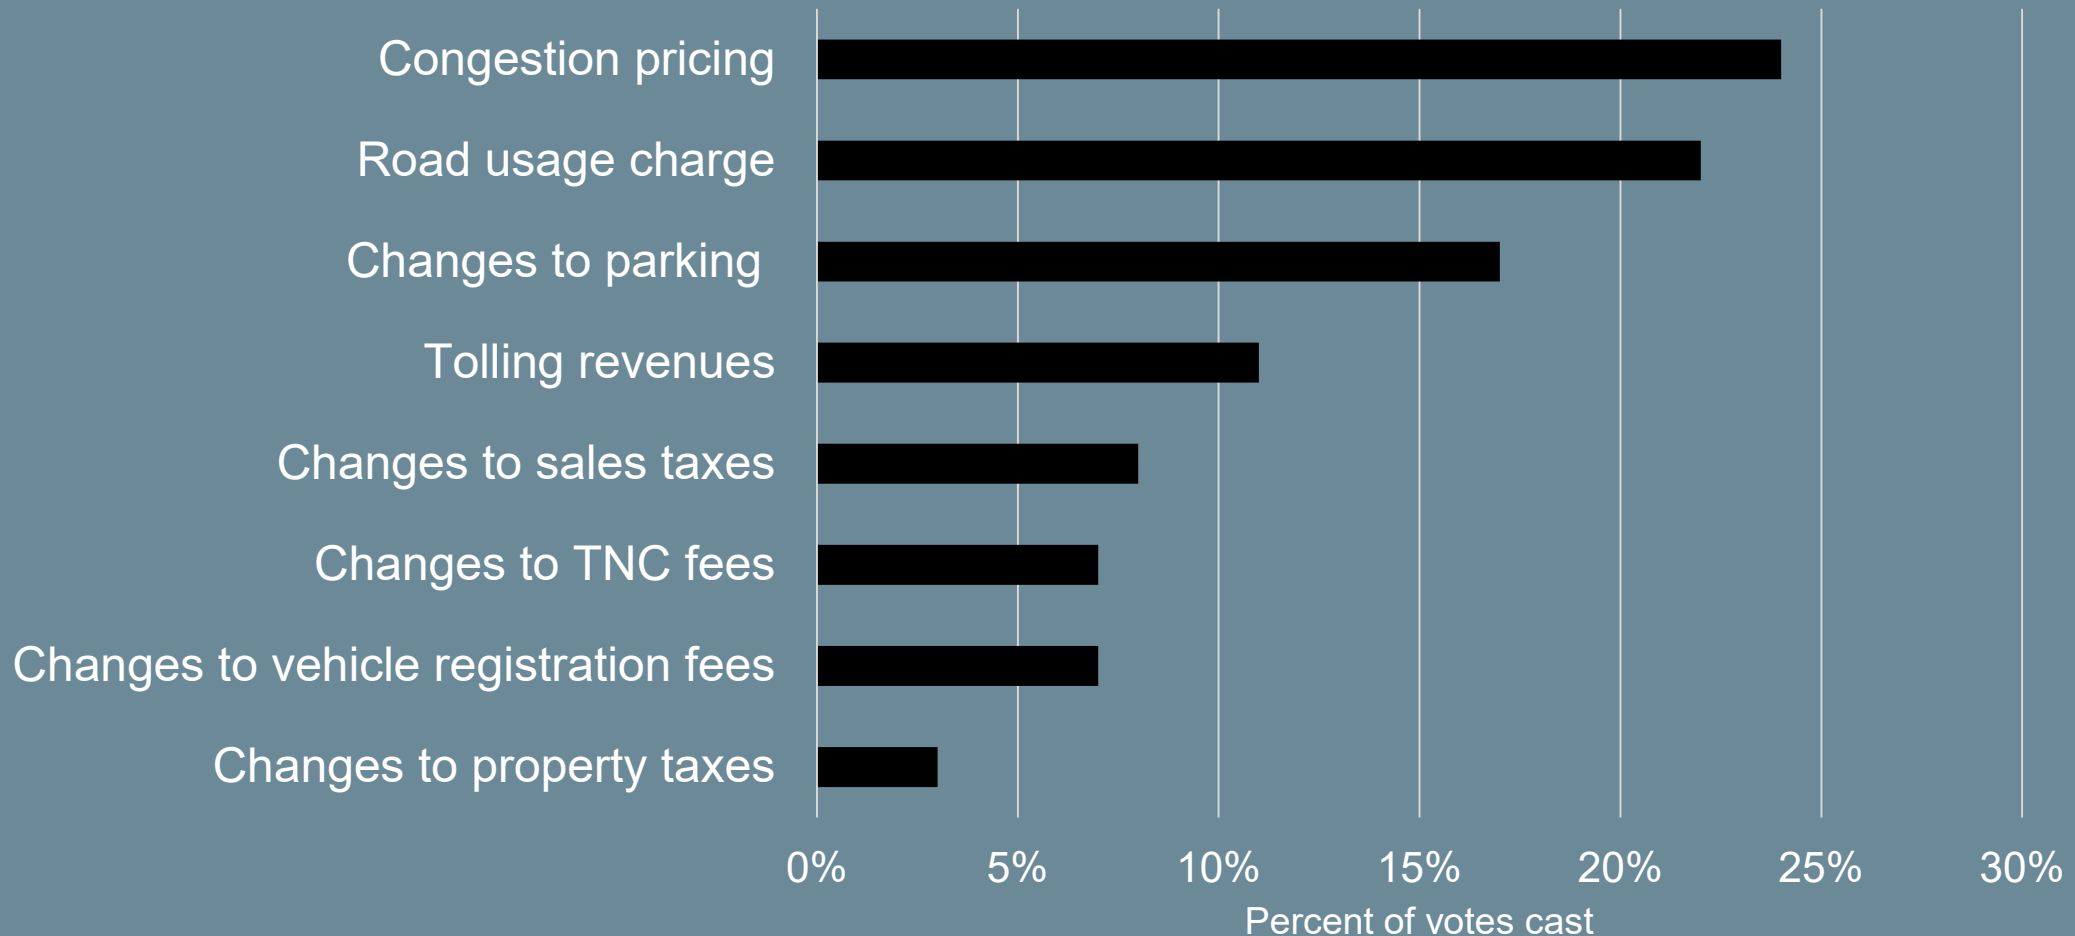

Revenues

- Congestion pricing revenues
- Tolling revenues
- Road usage charges
- Changes to....
 - Sales tax
 - Vehicle registration fee
 - Transportation Network Company trip tax
 - Parking tax

Policy Actions

- Transit service changes
- Capital investments
- Congestion pricing
- Additional tolled facilities, including managed lanes

What funding and revenue sources are most promising?

Next steps

Next Steps

- Conduct real estate professional interviews (developers, landlords, etc.)
- Continue disaggregation of travel trend data
- Synthesize changing travel behaviors with spatial patterns
- Provide input to scenarios for population & employment forecasts, travel demand models
