INVITATION FOR BIDS (IFB) NO. 271

Speed Data Project

The Chicago Metropolitan Agency for Planning (CMAP) invites data providers to submit data descriptions and costs for its Speed Data Project, as described in this scope of work. Please read each section carefully for information regarding the data requirements and submittal instructions.

SECTION 1: INTRODUCTION

About CMAP

The Chicago Metropolitan Agency for Planning (CMAP) is the region's metropolitan planning organization. The agency and its partners have developed ON TO 2050, a comprehensive plan that builds upon its predecessor GO TO 2040, to help the seven counties and 284 communities of northeastern Illinois implement strategies that address community, prosperity, the environment, governance, transportation and mobility. CMAP has adopted core values, which are: lead with excellence, pursue equity, passion for public service, drive innovation and foster collaboration. These values guide all of the decisions taken by the agency and the CMAP team. See www.cmap.illinois.gov for more information.

Guided by our ON TO 2050 Plan principles of Inclusive Growth, Resilience and Prioritized Investment, CMAP is inviting bids for a waypoint dataset, or a set of link/intersection speed metrics, for the CMAP region. CMAP is interested in using this dataset to analyze spot speeds of individual vehicle trips on all road facility types in CMAP's seven (7) county planning area (Cook, DuPage, Kane, Kendall, Lake, McHenry and Will) and to identify the tendencies of vehicle speeds. These derived metrics will be applied to road segments in a Geographic Information System (GIS) environment. The ultimate use of this data is to further the understanding of speed patterns and elevated crash frequencies.

General Information

As a result of responses to this IFB, CMAP plans to review submissions and may conduct interviews with selected firms that CMAP determine can best meet the requirements outlined below. Negotiations will be held on both the data characteristics and the cost to select the firm that CMAP believes can best satisfy its requirements at rates it perceives are reasonable for the product provided. Subject to "Reservation of Rights" below, it is anticipated that a purchase order will be issued for the data described below.

SECTION 2: Scope of Work and Procurement Details

CMAP is undertaking a "Speed Data Project" that will look to improve traffic safety through analysis of speed patterns, crash location, crash data, land use, road configurations, traffic volumes, and weather events. This invitation for bids is specifically for the acquisition of waypoint data or speed metrics derived from waypoint data that will be used to generate speed patterns in the "Speed Data Project".

The waypoint data will be used to form speed metrics supporting the comparison of speed patterns on road segments and through intersections.

The comparisons will include the variations across times of day, across days of week, and between segments with similar characteristics, but different crash rates. The outcome of this analysis will lead to suggestions for improving traffic safety through a variety of methods such as speed abatement, speed limit changes, driver information, traffic calming, road design, signal timing, access restriction and congestion management.

The desired time range for the waypoint data is within the past few years (2019 through 2021, excluding the start of the Covid pandemic beginning in March 2020 through February 2021). The exact time period of the data should not include a major winter storm, Thanksgiving or the last week of the year. The other “Speed Data Project” datasets which will be analyzed are consistent throughout the identified time range.

The exact number of weeks of data that we will acquire will depend on the quality of the data, the quantity of information included, and the cost. The time frame for the data will need to be long enough to establish hour to hour, day to day, and week to week trends. A dataset with a higher sampling ratio might be of a shorter duration, whereas lower representation may require longer time frames to effectively estimate trends. It has been suggested that four weeks of data would be sufficient, but longer and shorter periods can be used if the reasoning is sound. In the submission of the proposed data set, please identify the quantity of data, and the reason that you believe that it is sufficient for our task. A few different time period options would allow us to understand how additional data will improve our future analysis and what the increase in cost would be.

If the proposed dataset is compiled from different sources or types of data, and the characteristics of the data vary, then note the differences for each version of the data. For the waypoint data being considered, please identify if the following attributes are available and relevant descriptions of the waypoint data attributes.

Data fields

Time frequency of the waypoint data	Seconds :1,2,3,4,5, 6-10, 11-30, 31-45,46-60, 61-120, 121-300, 301 or greater)
Longitude and latitude of waypoint	Specify the geographic precision and accuracy of waypoint data
Vehicle type	General types: Auto, truck types; or more specific types: (Passenger, SUV, pickup, light truck, medium truck, heavy truck). No specific model information is requested.
Origin and destination zone of trip	Identify presence of trip origin zone and destination zone information. (CMAP will provide its ZONE17 for use). Is this data altered for privacy reasons?
Hard acceleration and braking	Are hard braking and/or hard acceleration events identified? What are the criteria for being flagged?
Vehicle identification	Is a unique vehicle identification code used? How often is it changed throughout the trip or day?
Trip identification	Are origin-destination (O-D) trips identified with a unique code? How often are the trips codes altered within the same trip?

Characteristics of the dataset

Time period covered by the dataset	The suggested time frame of supplied data or alternative time periods
Share of vehicle travel included in dataset	Estimate of the share of all vehicle trips in the region that the waypoint data trips represent

Distribution of trips by model year	Share of trips by vehicle model year (use 3 to 5-year bins) and the percentage of trips with this model year information provided
Share of trips from cell phone/mobile devices	Share of trips derived from cell phone source or other mobile devices
Data modification privacy issues	Details of data modification due to privacy concerns

Frequency of vehicle ID changes	Frequency of vehicle ID changes. If an origin or destination of a vehicle trip is not the origin or destination of the complete vehicle trip, are these artificial non-tripends identified.
Data delivery and format	How is the data provided? Format-location of servers-within the US??
Estimate data size	Estimate of data set size
Average daily OD trips	The average number of daily origin-destination trips initially in the dataset before data was modified for appropriate privacy concerns,

Delivery of data	Specific requirements and steps to obtain data
Cost of data and alternatives	Identify the cost of suggested data and alternative time periods

Alternative to waypoint data: Processed speed metrics and location information

If internal policies prevent waypoint data from being shared, there is an option for the processed metrics derived from waypoint data to be provided instead of the actual waypoint data. The included measures to be provided would characterize the interaction of vehicles with different speed patterns on segments, intersection approaches, and through intersections. The supplied measures would be used in the forthcoming “Speed Data Project” to identify speed patterns that co-vary with the occurrence of various crash types.

The data processes that are used to create these measure will need to be fully documented and shared so that similar evaluations could be used with future datasets, ensuring that the effects of safety improvements could be identified in future analysis. For applicants that provide metrics as opposed to waypoint data, the specific metrics offered should be described. The list of suggested metrics to be included (below) is an initial estimation of the measures that we anticipate to create with the raw waypoint data for the “Speed Data Project”. If there are useful metrics that are missing from the list, please suggest them as well in the IFB submission. If a new metric is suggested, please include any supporting documentation that identifies the specific measures’ association with increased crash frequency

To submit processed location data, the attributes will be applied to GIS segments and intersections. This GIS file will be provided by CMAP. The segmentation will break at intersections with a buffer of about 250 feet. In between the buffered intersections, the segments will be one-tenth of a mile where possible. The following information are elements that CMAP expects to calculate for each segment for use in the analysis in the “Speed Data Project” and the processed metrics will need to provide the same information.

All of the vehicles that are identified on segment will have metrics identified.

For each segment or intersection, there will be metrics for the evaluation of vehicles on the facility and a set of metrics for each individual vehicle on the facility. Vehicle data metrics for entire trip can be provided in a separate table and linked to the vehicle as opposed to being listed for each segment.

Processed information

Number of unique vehicles on segment in period	Number of unique vehicles observed for the segment or intersection in the 15-minute time frame
Minimum and maximum speed for each vehicle on each segment in period	Minimum and maximum speed for each vehicle identified within each segment
For each vehicle on segment the number of speed readings in period	The number of speed readings for each vehicle on each segment
Average sampling for each vehicle on segment in time period	Sampling rate for each vehicle on segment
Average speed of each vehicle	Average speed of each vehicle on segment (distance/time)
Method of point speed calculation	Method of individual vehicle speed calculation: Are the speeds calculated between points or is it generated a different way
Turning event at end of segment	For each vehicle on each segment, will the vehicle turn left, right or go straight
Turning event at end of next segment	For the next segment or intersection, will the vehicle turn left, right or go straight (also is the element a segment or an intersection?)
Maximum acceleration/deceleration on segment.	For each vehicle, identify the greatest acceleration/deceleration identified on the segment
Count of vehicle lane changes	Number of identified lane changes for each vehicle for segment
Intersection speed	Speed through intersection or when turning for each vehicle
Segment queuing	Identification of queuing and length of queue. In the 15-minute time period what was the length of the lane queue at maximum and did it clear.
Speed profile when approaching end of queue	Speed distribution bins 100 ft and 50 ft before-approaching end of queue.
Identify the total length of current vehicle trip	Distance of O-D vehicle trip apply to each segment of trip
Coefficient of variation speed	Coefficient of variation (standard deviation/mean) of all vehicle speeds (average for segment) for the segment. There will be issues with highly congested time periods.
Identify the total duration of current vehicle trip	Duration in seconds of O-D vehicle trip apply to each segment of trip

Identify the generalized OD zones of current vehicle trip	Trip origin and destination by zones if privacy agreements allow
Vehicle trip speed standard deviation. All speed readings and higher speed readings	Standard deviation (identify sample vs population) of all speed readings associated with the vehicle trip. Same calculation excluding speeds below 5 mph.
Speeding distribution of vehicle on segment	Percentage of total distance of trip traveling above speed limit on segment, above 2.5 mph higher than speed limit, above 5.0 mph higher than speed, above 7.5 mph higher than speed, above 10.0 mph higher than speed,

Bicyclist activity from mobile devices	Measure of bicycle use if present in data
Was a hard acceleration or deceleration identified on segment	Vehicle identifications of hard stops and acceleration within segment
Total acceleration and deceleration index	Sum of all acceleration and sum of all decelerations (if a vehicle attained the speed limit and maintains a constant speed, this would be a smaller total accumulation of acceleration and separate sum of decelerations compared to a vehicle changing speeds often- pertains to waypoint data collected at 5 seconds or less frequency)
Identification of vehicle automation	Level of automation in vehicle
Passing other vehicles in data set	Did the vehicle pass a different vehicle which is also in the dataset. How frequent, at what speed differential, rate of passing other vehicles in the data per mile.
Additional data availability	Any additional measures that would add value for this analysis.

The data should be aggregated to 15-minute periods and 60 minute periods. If the metrics for the 60-minute periods can be derived directly from the 15- minute periods then they do not need to be processed separately.

For IFB on the processed waypoint data metrics: The proposed dataset should include the following:

Time period covered by the processed dataset	Identify the time period of the preferred data supplied
Cost of data and alternatives	Identify the cost of suggested data and alternative time periods
Daily full OD trips in complete original trip file	The average number of daily trips with an origin and destination initially in the dataset before data was modified for appropriate privacy concerns,
Average number of daily waypoints used for metrics	The average number of daily data waypoints used in the development of the supplied metrics
Cost of additional data	The price structure for additional/less data
Cost of data subset	The price structure for a subset of the data based on frequency of waypoint data such as only trips of waypoint frequency or 5 seconds or less.

SECTION 4: Contractual Agreement and Rights

Contractual Agreement

The contract CMAP anticipates awarding as a result of this solicitation and subsequent rate submissions and negotiations, if any, will indicate the service requirements, time periods involved and applicable hourly rates. In addition, it will include the General Provisions, Section 5 hereto, and Special Provisions, Section 6 hereto, which will apply to the contract.

Reservation of Rights

CMAP reserves the following rights if using them will be more advantageous to CMAP:

- 1) Withdraw this solicitation at any time without prior notice
- 2) Accept or reject any and all submissions, or any item or part thereof
- 3) Postpone qualifications due date
- 4) Not award a contract to any submitter responding to this solicitation
- 5) Award a contract without negotiations or discussions

SECTION 5: General Provisions

The following provisions apply to the solicitation to which this section is attached and to any contract that results from the solicitation. Signatories of this Agreement certify that these conditions and procedures and terms and the conditions and procedures specific to this project will be adhered to unless amended in writing.

1) Complete Agreement.

- a) This Agreement (which also may be herein referred to as "Contract"), including all exhibits and other documents incorporated or referenced in the agreement, constitutes the complete and exclusive statement of the terms and conditions of the agreement between CMAP and Contractor and it supersedes all prior representations, understandings and communications. The invalidity in whole or in part of any term or condition of this Agreement shall not affect the validity of other terms or conditions.
- b) Order of Precedence: Conflicting provisions hereof, if any, shall prevail in the following descending order of precedence: (1) the provisions of the executed contract, including its exhibits; (2) the provisions of the SOLICITATION on which the contract is based including any and all Addendums; (3) the proposal submitted to CMAP by the Contractor in response to said SOLICITATION; and (4) any other documents cited or incorporated herein by reference.
- c) CMAP's failure to insist in any one or more instances upon the performance of any terms or conditions of this Agreement shall not be construed as a waiver or relinquishment of CMAP's right to such performance by the Contractor or to future performance of such terms or conditions and Contractor's obligation in respect thereto shall continue in full force and effect. Contractor shall be responsible for having taken steps reasonably necessary to ascertain the nature and location of the work, and the general and local conditions that can affect the work or the cost thereof. Any failure by the Contractor to do so will not relieve it from responsibility for successfully performing the work without additional expense to CMAP.
- d) CMAP assumes no responsibility for any understanding or representations made by any of its officers, employees or agents prior to the execution of this Agreement, unless such understanding or representations by CMAP are expressly stated in this Agreement.
- e) Changes: CMAP may from time to time order work suspension or make any change in the general scope of this Agreement including, but not limited to changes, as applicable, in the drawings, specifications, delivery schedules or any other particulars of the description, statement of work or provisions of this Agreement. If any such change causes an increase or decrease in the cost or time required for performance of any part of the work under this Agreement, the Contractor shall promptly notify CMAP thereof and assert its claim for adjustment within thirty (30) days after the change is ordered. A written amendment will be prepared for agreement between CMAP and the Contractor for changes in scope, time and/or costs. No amendments are effective until there is a written agreement that has been signed by both parties. No claim by the Contractor for equitable adjustment hereunder shall be allowed if asserted after final payment under this Agreement.
- f) Changes to any portion of this Agreement shall not be binding upon CMAP except when specifically confirmed in writing by an authorized representative of CMAP.

- g) Only the Executive Director of CMAP, or designee, shall have the authority to act for and exercise any of the rights of CMAP as set forth in this Agreement, subsequent to and in accordance with the authority granted by CMAP's Board of Directors
 - h) For its convenience, CMAP reserves the right to extend the Term of this agreement. Any changes to the Term of this Agreement shall not be binding until specifically confirmed in writing by authorized representatives of both parties.
- 2) Independent Contractor. Contractor's relationship to CMAP in the performance of this Agreement is that of an independent contractor. Contractor's personnel performing work under this Agreement shall at all times be under Contractor's exclusive direction and control and shall be employees of Contractor and not employees of CMAP. Contractor shall pay all wages, salaries and other amounts due its employees in connection with this Agreement and shall be responsible for all reports and obligations respecting them, including, but not limited to, social security, income tax withholding, and unemployment compensation, workers' compensation insurance and similar matters.
- 3) Assignment.
- a. This agreement shall be binding upon, and inure to the benefit of, the respective successors, assigns, heirs, and personal representatives of CMAP and Contractor. Any successor to the Contractor's rights under this Agreement must be approved by CMAP unless the transaction is specifically authorized under federal law. Any successor will be required to accede to all the terms, conditions and requirements of the Agreement as a condition precedent to such succession.
 - b. The Contractor shall not assign any interest in this Agreement and shall not transfer any interest in the same (whether by assignment or novation), without the prior written consent of CMAP hereto, provided, however, that claims for money due or to become due to the Contractor from CMAP under this Agreement may be assigned to a bank, trust company or other financial institution without such approval. Notice of any such assignment or transfer shall be furnished to CMAP.
- 4) Availability of Appropriation (30 ILCS 500/20-60). This Agreement is contingent upon and subject to the availability of funds. CMAP, at its sole option, may terminate or suspend this Agreement, in whole or in part, without penalty or further payment being required, if the Illinois General Assembly, the state funding source, or the federal funding source fails to make an appropriation sufficient to pay such obligation, or if funds needed are insufficient for any reason. The contractor will be notified in writing of the failure of appropriation or of a reduction or decrease.
- 5) Allowable Charges. No expenditures or charges shall be included in the cost of the Project and no part of the money paid to the Contractor shall be used by the Contractor for expenditures or charges that are: (i) contrary to provisions of this Agreement or the latest budget approved by a duly-authorized official of CMAP; (ii) not directly for carrying out the Project; (iii) of a regular and continuing nature, except that of salaries and wages of appointed principal executives of the Contractor who have not been appointed specifically for the purposes of directing the Project, who devote official time directly to the Project under specific assignments, and respecting whom adequate records of the time devoted to and services performed for the Project are maintained by the Contractor may be considered as proper costs of the Project to the extent of the time thus devoted and recorded if they are otherwise in accordance with the provisions

hereof; or (iv) incurred without the consent of CMAP after written notice of the suspension or termination of any or all of CMAP's obligations under this Agreement.

6) Method of Payment.

Project expenditures are paid directly from federal and/or state funds. Because CMAP is responsible for obtaining federal reimbursement for project expenditures, it is necessary that CMAP monitor all procedures and documents which will be used to claim and support project-related expenditures. The following procedures should be observed to secure payment:

- b) Based on services performed, CONTRACTOR may submit invoices as frequently as once a month, but is required to submit invoices no later than fifteen (15) days after the end of each quarter. Failure to submit such payment request timely will render the amounts billed an unallowable cost for which the CONTRACTOR cannot be reimbursed. CMAP is committed to reducing paper use and has established an electronic invoicing system. All invoices are to be submitted through email to:

accounting@cmmap.illinois.gov

All invoices shall be signed by an authorized representative of the CONTRACTOR

- c) Subject to the conditions of this Agreement, CMAP will honor invoices in amounts deemed by it to be proper to insure the carrying out of the approved scope of services and shall be obligated to pay the Contractor such amounts as may be approved by CMAP. Invoices shall detail expenses and amount of time spent on CMAP assignments. If an invoice is not acceptable, CMAP shall promptly provide the Contractor a written statement regarding its ineligibility or deficiencies to be eliminated prior to its acceptance and processing. All invoices for services performed and expenses incurred by CONTRACTOR for the services of this Agreement must be presented to CMAP no later than fifteen (15) days after the close of the fiscal year for multi-year contracts, or no later than fifteen (15) days after the end of this Agreement for shorter term contracts. Notwithstanding any other provision of this Agreement, CMAP shall not be obligated to make payment to CONTRACTOR on invoices presented after said date. No payments will be made for services performed prior to the effective date of this Agreement. All payments will be transferred electronically to Contractor's business bank account. The successful Contractor will be requested to provide transfer numbers for the business bank account when the contract is finalized, in addition to a copy of its IRS W-9 (Request for Taxpayer Identification Number and Certification).
- d) Each invoice and report submitted must contain: the contract number, a unique vendor invoice number, a description of the services performed, the hourly rates and number of hours worked for each contractor, an itemization of travel and other costs which are chargeable to the contract and the following certification by an official authorized to legally bind the CONTRACTOR:

By signing this payment request, I certify that to the best of my knowledge and belief that the payment request is true, complete, and accurate, and the expenditures, disbursements and cash receipts are for the purposes and objectives set forth in the terms and conditions of this contract. I am aware that any false, fictitious, or fraudulent information, or the omission of any material fact, may subject me to criminal, civil or administrative penalties for fraud, false statements, false claims or otherwise. (U.S. Code Title 18, Section 1001 and Title 31, Sections 3729-3730 and 3801-3812).
- e) The Contractor is required to pay all subcontractors within thirty days of receiving payment for that portion of the work from CMAP. Failure to pay subcontractors within thirty days may jeopardize future CMAP contract awards.

- 7) Conflict of Interest. In order to avoid any potential conflict of interest, the Contractor agrees during the term of this Agreement not to undertake any activities which could conflict directly or indirectly with the interest of CMAP. Contractor shall immediately advise CMAP of any such conflict of interest. CMAP shall make the ultimate determination as to whether a conflict of interest exists.
- 8) Audits. The records and supportive documentation for all completed projects are subject to an on-site audit by CMAP. CMAP reserves the right to inspect and review, during normal working hours, the work papers of the CONTRACTOR in support of their invoices.
- 9) Access to Records.
- a. The Contractor and its Subcontractor, under this Agreement shall preserve and produce upon request of the authorized representatives of CMAP all data, records, reports, correspondence and memoranda of every description of the CONTRACTOR and its Subcontractors, if any, under this Agreement relating to carrying out this Agreement for the purposes of an audit, inspection or work review for a period of three (3) years after completion of the project, except that:
 - i. If any litigation, claim or audit is started before the expiration of three-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved.
 - ii. Records for nonexpendable property acquired with federal funds shall be retained for three (3) years after its final disposition.

The CONTRACTOR shall include a provision in all of its subcontracts, if any.

- 10) Subcontracts.
- a. Any subcontractors or outside associates or contractors required by the Contractor in connection with the services covered by this Agreement will be limited to such individuals or firms as were specifically identified and agreed to during negotiations. Any substitutions in or additions to such subcontractors, associates or contractors will be subject to the prior approval of CMAP.
 - b. All subcontracts for work under this Agreement shall contain those applicable provisions which are required in this Agreement.
 - c. The Contractor may not subcontract services agreed to under this Agreement without prior written approval of CMAP.
- 11) Equipment Inventory. An inventory of non-expendable personal property having a useful life of more than two years and an acquisition cost of \$500 or more is subject to periodic inspection by CMAP.
- 12) Suspension. If the CONTRACTOR fails to comply with the special conditions and/or the general terms and conditions of this Agreement, CMAP may, after written notice to the CONTRACTOR, suspend the Agreement and withhold further payments or prohibit the CONTRACTOR from incurring additional obligations of funds pending corrective action by the CONTRACTOR. If corrective action has not been completed within sixty (60) calendar days after service of written notice of suspension, CMAP shall

notify the CONTRACTOR in writing that the Agreement has been terminated by reason of default in accordance with paragraph 13 hereof. CMAP may determine to allow such necessary and proper costs which the CONTRACTOR could not reasonably avoid during the period of suspension provided such costs meet the provisions of the U.S. Office Management and Budget 2 CFR 200 in effect on the date first above written.

13) Termination.

- a. This Agreement may be terminated in whole or in part in writing by either party in the event of substantial failure (hereinafter termed "Termination by Default") by the other party to fulfill its obligations under this Agreement through no fault of the terminating party, provided that no such termination may be affected unless the other party is given (i) not less than seven (7) calendar days written notice (delivered by certified mail, return receipt requested) of intent to Termination by Default, and (ii) an opportunity for consultation with the terminating party prior to Termination by Default.
- b. This Agreement may be terminated in whole or in part in writing by CMAP for its convenience (hereinafter termed "Termination for Convenience"), provided that the CONTRACTOR is given not less than seven (7) calendar days written notice (delivered by certified mail, return receipt requested) of intent to terminate.
- c. If Termination by Default is effected by CMAP, an equitable adjustment in the price provided for in this Agreement shall be made, but (i) no amount shall be allowed for anticipated profit on unperformed services or other work, and (ii) any payment due to the CONTRACTOR at the time of termination may be adjusted to the extent of any additional costs occasioned to CMAP by reason of the CONTRACTOR'S default. If Termination by Default is effected by the CONTRACTOR, or if Termination for Convenience is effected by CMAP, the equitable adjustment shall include a reasonable profit for services or other work performed. The equitable adjustment for any termination shall provide payment to the CONTRACTOR for services rendered and expenses incurred prior to termination, in addition CMAP may include cost reasonably incurred by the CONTRACTOR relating to commitments which had become firm prior to termination.
- d. Upon notice of termination action pursuant to paragraphs (a) or (b) of this clause, the CONTRACTOR shall (i) promptly discontinue all services affected (unless the notice directs otherwise) and (ii) deliver or otherwise make available to CMAP all data, drawings, specifications, reports, estimates, summaries and such other information and materials as may have been accumulated by the CONTRACTOR in performing this Agreement, whether completed or in process.
- e. Upon termination pursuant to paragraphs (a) or (b) of this clause, CMAP may take over the work and prosecute the same to completion by agreement with another party otherwise.
- f. In the event the CONTRACTOR must terminate this Agreement due to circumstances beyond its control, the termination shall be deemed to have been effected for the convenience of CMAP. In such event, adjustment of the price provided for in this Agreement shall be made as provided in paragraph c of this clause.

14) Patents and Copyright Responsibility.

- a. The Contractor agrees that any material or design specified by the Contractor or supplied by the Contractor pursuant to this Agreement shall not infringe any patent or copyright and the Contractor shall be solely responsible for securing any necessary licenses required for patented or copyrighted material used by the Contractor.
- b. If any claim is brought against CMAP by third parties for alleged infringement of third-party patent and copyright and intellectual rights, which claim is caused by breach of the Contractor's promise as contained in paragraph a of this clause, the Contractor shall save harmless and indemnify CMAP from all loss, damage, or expense (including attorney's fees) due to defending CMAP from such claim.
- a. If the principal purpose of this Agreement is to create, develop or improve products, processes or methods; or to explore into fields which directly concern public health, safety or welfare, or if the Project is in a field of science or technology in which there has been little significant experience outside of work funded by federal assistance; and any discovery or invention arises or is developed in the course of or under this Agreement, such invention or discovery shall be subject to the reporting and rights provisions of U.S. Office of Management and Budget Circular No. A-102, and to the pertinent regulations of the grantor agency(ies) in effect on the date of execution of this Agreement. The Contractor shall include provisions appropriate to effectuate the purpose of this condition in all subcontracts under this Agreement involving research, developmental, experimental or demonstration work.
- c. Remedies. Except as may be otherwise provided in this Agreement, all claims, counterclaims, disputes and other matters in question between CMAP and the CONTRACTOR arising out of or relating to this Agreement or the breach thereof will be decided by arbitration.
