

## **README: ON TO 2050 Snapshot Report Data**

Data tables in Excel format that accompany the seven Snapshot Reports developed for ON TO 2050. All seven excel files are in this archive and are identified below, along with links to the Snapshot Reports on the CMAP website. Note that the descriptions below were written prior to the release of ON TO 2050.

### Natural Resources

Description: The Natural Resources snapshot report explores current trends in the region's land, water, and air resources, paying special attention to ongoing challenges, and the drivers of these challenges. The findings of the report will inform the environmental recommendations of ON TO 2050.

Excel file: **NaturalResourcesSnapshotData.xlsx**

Link to report: <https://www.cmap.illinois.gov/onto2050/snapshot-reports/natural-resources>

### Transit Trends

Description: The transit trends snapshot report delves into data on transit service and ridership patterns in the region, highlighting the most significant findings that will inform the development of ON TO 2050, the next long range regional plan.

Excel file: **TransitTrendsSnapshotData.xlsx**

Link to report: [https://www.cmap.illinois.gov/documents/10180/814344/FY18-0043+Transit+Trends+Snapshot\\_web\\_FINAL.pdf](https://www.cmap.illinois.gov/documents/10180/814344/FY18-0043+Transit+Trends+Snapshot_web_FINAL.pdf)

### Infill and TOD

Description: The Infill and Transit-Oriented Development snapshot report explores how the potential for infill development and transit-oriented development, or TOD, has changed over the past 15 years in our region. Understanding these trends will help refine the plan's recommendations regarding infill and TOD.

Excel file: **InfillTODSnapshotData.xlsx**

Link to report: <https://www.cmap.illinois.gov/onto2050/snapshot-reports/natural-resources>

### Freight System

Description: The Freight snapshot report explores the major trends and issues facing the region's freight system and includes data on metropolitan Chicago's supply chains, infrastructure needs, and regulatory challenges. Understanding these trends will inform both the upcoming Regional Strategic Freight Direction and ON TO 2050, the next comprehensive regional plan.

Excel file: **FreightSystemTrendsSnapshotData.xlsx**

Link to report: <https://www.cmap.illinois.gov/onto2050/snapshot-reports/freight-system>

## Demographic Shifts

Description: The Demographic Shifts snapshot report analyzes data on population and the changing characteristics of the region's residents. Understanding the shifting demographics of the Chicago region will inform development of ON TO 2050, the next long-range comprehensive plan.

Excel file: **DemographicShiftsSnapshotData.xlsx**

Link to report: <https://www.cmap.illinois.gov/onto2050/snapshot-reports/demographics>

## Regional Economy and Clusters

Description: The Regional Economy and Clusters snapshot report analyzes the region's economic performance, key economic specializations, and industry cluster trends, highlighting the most significant findings that will inform the development of ON TO 2050, the next long range regional plan.

Excel file: **RegionalEconomyClustersSnapshot.xlsx**

Link to report: <https://www.cmap.illinois.gov/onto2050/snapshot-reports/economic-clusters>

## Travel Trends

Description: The Travel Trends snapshot report delves into data on existing and emerging travel behavior patterns in the region regarding mode share, vehicle use, travel time, and commuting patterns, highlighting the most significant findings that will inform the development of ON TO 2050, the next long range regional plan.
