REQUEST FOR QUALIFICATIONS (RFQ) NO. 277

PROJECT CONSULTING SERVICES

The Chicago Metropolitan Agency for Planning (CMAP) invites appropriate contractors to submit qualifications for this project to provide planning and related assistance to support certain projects and initiatives within CMAP as described in this scope of work. Please read each section carefully for information regarding the proposal and submittal instructions.

SECTION 1: Background and General Information

About CMAP

The Chicago Metropolitan Agency for Planning (CMAP) is the region's metropolitan planning organization. The agency and its partners developed ON TO 2050, a comprehensive plan that builds upon its predecessor GO TO 2040, to help the seven counties and 284 communities of northeastern Illinois implement strategies that address community, prosperity, the environment, governance, transportation, and mobility. CMAP has adopted core values, which are: lead with excellence, pursue equity, passion for public service, drive innovation and foster collaboration. These values guide the decisions taken by the agency and the CMAP team. See www.cmap.illinois.gov for more information.

General Information

As a result of responses to this RFQ, CMAP plans to review submissions and determine which firms can best meet the requirements outlined below. Subject to "Reservation of Rights" below, it is anticipated that more than one contract will be awarded in each of the 11 service area categories. Each contract will be written for three years, with two one-year options for renewal. Each contract will be reimbursed on a project authorization order (PAO) basis. PAOs come from a variety of sources, including the annual Call for Projects and CMAP's annual work plan. CMAP anticipates ten (10) or more PAOs will be issued per year because of this RFQ, though the number issued will vary across the 11 service area categories.

SECTION 2: Scope of Project and Procurement Details

Project Background

In 2020, CMAP pre-qualified 40 contractors under 18 planning and engineering service areas. The selected consultants were pre-qualified for three years to perform work using a Project Authorization Order (PAO) for each project. For each project, the pre-qualified firms in the project service area submitted staff qualifications and price proposal forms that included personnel, titles, hours, and cost, which were used to select and award projects. In the spring of 2022, CMAP solicited feedback from consultants and staff to improve the procurement process. The 2023 Planning Advisory Services RFQ revises the previous RFQ/PAO process to be more efficient in operation and ensure projects are well-aligned with both anticipated work areas and qualified contractors.

Scope of Services

This RFQ seeks services related to a wide variety of planning tasks and related issues for multiple CMAP planning projects as described in Attachment 4: Checklist of Services. For each project, the contractor will work directly for CMAP, although interaction with the local project sponsor (typically a municipality) will often be needed as well. Projects may consist of a single community, a subarea, or a multijurisdictional

project. The specific communities where the work will be conducted will be determined by CMAP as projects advance.

This RFQ seeks individual firms to qualify for the requested service areas. No teams or subcontractors to a prime contractor should be proposed as part of this RFQ. CMAP may qualify contractors for one or more of the services proposed. CMAP will qualify as many firms as it deems necessary but is under no obligation to qualify any of the responding firms. CMAP anticipates ten (10) or more PAOs will be issued per year as a result of this RFQ but makes no guarantee of a minimum amount or value of work resulting from selection via this RFQ.

This RFQ seeks firms to submit qualifications for at least one of the service areas being requested in Attachment 4. Firms may submit qualifications for no more than six (6) service areas. Individual firms will be pre-qualified in no more than three (3) service areas. CMAP will pre-qualify no less than three (3) firms and no more than six (6) firms in each service area. The total number of prequalified firms may vary by service area.

Each year projects will be identified to determine how much work will occur within each service area. As projects progress and the PAOs are compiled, CMAP will transmit requests to all prequalified contractors listed under the applicable service area. Contractor selection for each PAO will be based upon cost, project understanding, and qualifications submitted as part of this RFQ. Some projects may require areas of expertise in service areas outside of the ones listed on Attachment 4. As such, pre-qualified contractors may choose to form a team of contractors when responding to PAOs to meet project needs. It is not required for subcontractors to be pre-qualified through this RFQ, but CMAP reserves the right to approved of subcontractors upon acceptance of PAO bids.

Evaluation Criteria

All responses to this request for proposals will be analyzed for completeness. The following criteria will be used in evaluating submissions:

- 1) The demonstrated record of experience of the contractor as well as identified staff, verified by references, in providing the professional services as described in Attachment 4: Checklist of Services.
- 2) The contractor's overall philosophy working with diverse and/or marginalized communities to achieve equitable outcomes.
- 3) The contractor's approach to integrating CMAP's [Core Values](#) in their interactions with their employees, stakeholders, and communities in which they work.
- 4) Service Area-specific evaluation criteria:
 - a. **Land Use Plans.** Demonstrated experience developing implementable action items and achievable recommendations for municipal staff and decision-makers; experience engaging and soliciting meaningful feedback and project participation from marginalized and hard-to-reach populations within a community.
 - b. **Bicycle and pedestrian-focused transportation plans.** Demonstrated experience with developing mobility recommendations that center the experiences of vulnerable road users and those outside of a vehicle.
 - c. **Local road safety plans/ Safety action plans.** Demonstrated experience with the Safe System Approach to traffic safety; knowledge and experience creating Safety Action or Vision Zero Plans that consider the safety and mobility needs for all road users including those who walk, bicycle, and access transit; familiarity with the USDOT Safe Streets for All Program or the National Roadway Safety Strategy.

- d. **Planning renderings, illustrations, drawings, and graphic design.** Demonstrated ability to enhance content through graphic design/renderings that demonstrate the visual impact of planning or policy, with visuals that are appealing, easy to understand and accessible to all users.
 - e. **Market and demographic analysis.** Demonstrated experience using both quantitative and qualitative (i.e. asset-based analysis and storytelling) approaches to generate insights and recommendations on local and regional population, employment, housing, tax, and real estate conditions or issues.
 - f. **Capital asset assessment and capital improvement planning.** Demonstrated experience developing CIPs that use public engagement, particularly with marginalized and hard-to-reach populations, and produce deliverables that are implementable and provide guidance for municipal staff on how to update and revise the information.
 - g. **Transportation plans.** A strong history of plans that have been implemented; knowledge of funding opportunities for implementation; demonstrated experience in equitable public engagement to assess transportation needs by different socio-demographic groups.
 - h. **ADA self-evaluation and transition plans.** Demonstrated experience and knowledge of ADA requirements, and the implementation of a planning process that advances and amplifies the voices of people with disabilities.
 - i. **Consensus-based stakeholder engagement strategy development and management.** Demonstrated experience utilizing customized outreach techniques, formats, and/or materials to identify and engage stakeholders, including hard-to-reach populations, building consensus, message mapping, and meeting facilitation.
 - j. **Regional and subregional planning and policy analysis.** Demonstrated experience in advanced analysis skills needed to generate short, medium, and long length research and position papers outlining conditions and opportunities at regional and county-level geographies; quantitative proficiency (e.g., descriptive statistics, GIS); and prudent data management (e.g., the use of margins of error).
 - k. **Water quality.** Demonstrated experience in water quality modeling and level of proficiency with various water quality models and software, and experience using such models for watershed and/or nonpoint source pollution related activities; use of models and software including BASINS, HSPF, L-THIA, STEP-L, SWAT, HAWQS, SWMM, SUSTAIN, AGWA, WASP, CE-QUAL-W2, QUAL2K/Kw, SPARROW, BATHTUB, and WILMS; understanding of compatibility between the different models would be beneficial as well; and experience with and methodologies used, including GIS-based apps and tools, to assess streambank, shoreline, and detention basin conditions as well as BMP selection.
- 5) Prior performance of previous planning and engineering contracts will be considered. Contractors who are or have been seriously deficient in current or recent contract performance in the absence of evidence to the contrary or circumstances properly beyond the control of the Contractor shall be presumed to be unable to meet these requirements. Past unsatisfactory performance will ordinarily be sufficient to justify a finding of non-responsibility.

CMAA will award 1-bonus point overall to those qualified respondents who have been certified as a DBE by the Illinois Unified Certification Program (IL-UCP), the City of Chicago Minority Business Enterprise (MBE) and Women-Owned Business Enterprise (WBE) and the Cook County Illinois MBE/WBE/VBE Certification.

Once pre-qualified, project-specific PAO responses will be evaluated using the following criteria:

- 1) Contractor's understanding of the project;
- 2) Contractor's previous experience with study areas of similar size, demographics, and/or challenges;
- 3) Project cost.

All timely responses received to this scope of work will be reviewed. Interviews may be conducted with selected submitters that CMAP determines can best meet the above requirements.

SECTION 3: Submittal Requirements

Contractors should demonstrate their qualifications to assist in each of the types of activities described in Attachment 4: Checklist of Services. Please note that contractors are not expected, as part of this RFQ, to propose a total cost for each service area. Actual scope, budget, and timeline for any activity will be developed on a task order (PAO) basis. In some projects, the contractor will prepare a full plan including all necessary processes and interim products. In other projects, the contractor will be preparing memos summarizing an analysis or review of CMAP's or others' work. In still other projects, CMAP will simply consult with the firm and seek expert advice and counsel on specific planning issues.

If submitting for multiple service areas, each service area must be provided as a separate submittal.

For each service area checked in Attachment 4: Checklist of Services, provide the following:

- 1) **General Qualifications.** A description of the contractor's qualifications to provide services in the service area as described in Attachment 4.
- 2) **Approach.** A narrative describing the general approach that the contractor would take to complete the types of activities in the service area for which they are seeking qualifications in Attachment 4. Each narrative should:
 - Provide a general description of its work process with clients related to work of this type;
 - Describe approximate estimates of the length of time involved to complete the activity;
 - Identify the relevant staff and pertinent qualifications to be involved (do not include resumes);
 - Set expectations for the type of information that CMAP will provide to the contractor;
 - Outline when and how coordination with CMAP staff will occur within each process; and
 - Address the evaluation criteria listed in Section 2 of this RFQ.
- 3) **Project Examples.** Provide no more than three (3) examples of the contractor's experience in the service area for which the consultant is applying. Each project example should include the following:
 - Project location;
 - Client name;
 - Project dates (start, end, duration);
 - A project description that clearly describes the contractor's contributions;
 - Project tasks that the consultant's work supported; and
 - The project cost, which should focus on the cost of the contractor's contributions, not the overall cost of the larger project. Please note that estimation of cost for each example is very important and must be included. While cost may be difficult to calculate for some complex multi-part projects, CMAP requests that a rough estimate be included.
- 4) **References.** Provide at least three (3) references that CMAP staff may contact regarding the contractor's qualifications to undertake a project in each of the Services Areas. If applying for more than one service area, references should be provided for each service area. Reference information shall include:
 - Individual contact name;

- Name of company;
- Phone number;
- Email
- Relationship to reference

Submittal material for #1-4 above shall be a maximum of six (6) pages.

The Contractor shall also submit the following:

- 5) Sign and submit Attachment 1: Certificate Regarding Workers' Compensation Insurance.
- 6) Sign and submit Attachment 2: Bidder Information. Submit a current copy of SBE/DBE/MBE/WBE certificate, if applicable.
- 7) Sign and submit Attachment 3: FTA Certification Regarding Lobbying.
- 8) Complete and submit Attachment 4: Checklist of Services.

SECTION 4: Contractual Agreement and Rights

Contractual Agreement

The contract CMAP anticipates awarding as a result of this RFP and subsequent rate submissions and negotiations, if any, will indicate the service requirements, time periods involved and applicable hourly rates. In addition, it will include the General Provisions, Section 5 hereto, and Special Provisions, Section 6 hereto, which will apply to the contract.

Reservation of Rights

CMAP reserves the following rights if using them will be more advantageous to CMAP:

- 1) Withdraw this RFP at any time without prior notice
- 2) Accept or reject any and all submissions, or any item or part thereof
- 3) Postpone qualifications due date
- 4) Not award a contract to any submitter responding to this RFP
- 5) Award a contract without negotiations or discussions

SECTION 5: General Provisions

The following provisions apply to the solicitation to which this section is attached and to any contract that results from the solicitation. Signatories of this Agreement certify that these conditions and procedures and terms and the conditions and procedures specific to this project will be adhered to unless amended in writing.

- 1) Complete Agreement.
 - a) This Agreement (which also may be herein referred to as "Contract"), including all exhibits and other documents incorporated or referenced in the agreement, constitutes the complete and exclusive statement of the terms and conditions of the agreement between CMAP and Contractor and it supersedes all prior representations, understandings and communications. The invalidity in whole or in part of any term or condition of this Agreement shall not affect the validity of other terms or conditions.
 - b) Order of Precedence: Conflicting provisions hereof, if any, shall prevail in the following descending order of precedence: (1) the provisions of the executed contract, including its exhibits; (2) the provisions of the RFP on which the contract is based including any and all Addendums; (3) the proposal submitted to CMAP by the Contractor in response to said RFP; and (4) any other documents cited or incorporated herein by reference.
 - c) CMAP's failure to insist in any one or more instances upon the performance of any terms or conditions of this Agreement shall not be construed as a waiver or relinquishment of CMAP's right to such performance by the Contractor or to future performance of such terms or conditions and Contractor's obligation in respect thereto shall continue in full force and effect. Contractor shall be responsible for having taken steps reasonably necessary to ascertain the nature and location of the work, and the general and local conditions that can affect the work or the cost thereof. Any failure by the Contractor to do so will not relieve it from responsibility for successfully performing the work without additional expense to CMAP.

- d) CMAP assumes no responsibility for any understanding or representations made by any of its officers, employees or agents prior to the execution of this Agreement, unless such understanding or representations by CMAP are expressly stated in this Agreement.
 - e) Changes: CMAP may from time to time order work suspension or make any change in the general scope of this Agreement including, but not limited to changes, as applicable, in the drawings, specifications, delivery schedules or any other particulars of the description, statement of work or provisions of this Agreement. If any such change causes an increase or decrease in the cost or time required for performance of any part of the work under this Agreement, the Contractor shall promptly notify CMAP thereof and assert its claim for adjustment within thirty (30) days after the change is ordered. A written amendment will be prepared for agreement between CMAP and the Contractor for changes in scope, time and/or costs. No amendments are effective until there is a written agreement that has been signed by both parties. No claim by the Contractor for equitable adjustment hereunder shall be allowed if asserted after final payment under this Agreement.
 - f) Changes to any portion of this Agreement shall not be binding upon CMAP except when specifically confirmed in writing by an authorized representative of CMAP.
 - g) Only the Executive Director of CMAP, or designee, shall have the authority to act for and exercise any of the rights of CMAP as set forth in this Agreement, subsequent to and in accordance with the authority granted by CMAP's Board of Directors
 - h) For its convenience, CMAP reserves the right to extend the Term of this agreement. Any changes to the Term of this Agreement shall not be binding until specifically confirmed in writing by authorized representatives of both parties.
- 2) Independent Contractor. Contractor's relationship to CMAP in the performance of this Agreement is that of an independent contractor. Contractor's personnel performing work under this Agreement shall at all times be under Contractor's exclusive direction and control and shall be employees of Contractor and not employees of CMAP. Contractor shall pay all wages, salaries and other amounts due its employees in connection with this Agreement and shall be responsible for all reports and obligations respecting them, including, but not limited to, social security, income tax withholding, and unemployment compensation, workers ' compensation insurance and similar matters.
- 3) Assignment.
- a) This agreement shall be binding upon, and inure to the benefit of, the respective successors, assigns, heirs, and personal representatives of CMAP and Contractor. Any successor to the Contractor's rights under this Agreement must be approved by CMAP unless the transaction is specifically authorized under federal law. Any successor will be required to accede to all the terms, conditions and requirements of the Agreement as a condition precedent to such succession.
 - b) The Contractor shall not assign any interest in this Agreement and shall not transfer any interest in the same (whether by assignment or novation), without the prior written consent of CMAP hereto, provided, however, that claims for money due or to become due to the Contractor from CMAP under this Agreement may be assigned to a bank, trust company or other financial institution without such approval. Notice of any such assignment or transfer shall be furnished to CMAP.
- 4) Availability of Appropriation (30 ILCS 500/20-60). This Agreement is contingent upon and subject to the availability of funds. CMAP, at its sole option, may terminate or suspend this Agreement, in whole or in part, without penalty or further payment being required, if the Illinois General Assembly, the state funding source, or the federal funding source fails to make an appropriation sufficient to pay such obligation, or if funds needed are insufficient for any reason. The contractor will be notified in writing of the failure of appropriation or of a reduction or decrease.

- 5) Allowable Charges. No expenditures or charges shall be included in the cost of the Project and no part of the money paid to the Contractor shall be used by the Contractor for expenditures or charges that are: (i) contrary to provisions of this Agreement or the latest budget approved by a duly-authorized official of CMAP; (ii) not directly for carrying out the Project; (iii) of a regular and continuing nature, except that of salaries and wages of appointed principal executives of the Contractor who have not been appointed specifically for the purposes of directing the Project, who devote official time directly to the Project under specific assignments, and respecting whom adequate records of the time devoted to and services performed for the Project are maintained by the Contractor may be considered as proper costs of the Project to the extent of the time thus devoted and recorded if they are otherwise in accordance with the provisions hereof; or (iv) incurred without the consent of CMAP after written notice of the suspension or termination of any or all of CMAP's obligations under this Agreement.

6) Method of Payment.

Project expenditures are paid directly from federal and/or state funds. Because CMAP is responsible for obtaining federal reimbursement for project expenditures, it is necessary that CMAP monitor all procedures and documents which will be used to claim and support project-related expenditures. The following procedures should be observed to secure payment:

- a) Based on services performed, CONTRACTOR may submit invoices as frequently as once a month, but is required to submit invoices no later than fifteen (15) days after the end of each quarter. Failure to submit such payment request timely will render the amounts billed an unallowable cost for which the CONTRACTOR cannot be reimbursed. CMAP is committed to reducing paper use and has established an electronic invoicing system. All invoices are to be submitted through email to:

accounting@cmap.illinois.gov

All invoices shall be signed by an authorized representative of the CONTRACTOR

- b) Subject to the conditions of this Agreement, CMAP will honor invoices in amounts deemed by it to be proper to insure the carrying out of the approved scope of services and shall be obligated to pay the Contractor such amounts as may be approved by CMAP. Invoices shall detail expenses and amount of time spent on CMAP assignments. If an invoice is not acceptable, CMAP shall promptly provide the Contractor a written statement regarding its ineligibility or deficiencies to be eliminated prior to its acceptance and processing. All invoices for services performed and expenses incurred by CONTRACTOR for the services of this Agreement must be presented to CMAP no later than fifteen (15) days after the close of the fiscal year for multi-year contracts, or no later than fifteen (15) days after the end of this Agreement for shorter term contracts. Notwithstanding any other provision of this Agreement, CMAP shall not be obligated to make payment to CONTRACTOR on invoices presented after said date. No payments will be made for services performed prior to the effective date of this Agreement. All payments will be transferred electronically to Contractor's business bank account. The successful Contractor will be requested to provide transfer numbers for the business bank account when the contract is finalized, in addition to a copy of its IRS W-9 (Request for Taxpayer Identification Number and Certification).
- c) Each invoice and report submitted must contain: the contract number, a unique vendor invoice number, a description of the services performed, the hourly rates and number of hours worked for each contractor, an itemization of travel and other costs which are chargeable to the contract and the following certification by an official authorized to legally bind the CONTRACTOR:

By signing this payment request, I certify that to the best of my knowledge and belief that the payment request is true, complete, and accurate, and the expenditures, disbursements and cash receipts are for the purposes and objectives set forth in the terms and conditions of this contract. I am aware that any false, fictitious, or fraudulent information, or the omission of any material fact,

may subject me to criminal, civil or administrative penalties for fraud, false statements, false claims or otherwise. (U.S. Code Title 18, Section 1001 and Title 31, Sections 3729-3730 and 3801-3812).

- d) The Contractor is required to pay all subcontractors within thirty days of receiving payment for that portion of the work from CMAP. Failure to pay subcontractors within thirty days may jeopardize future CMAP contract awards.
- 7) Conflict of Interest. In order to avoid any potential conflict of interest, the Contractor agrees during the term of this Agreement not to undertake any activities which could conflict directly or indirectly with the interest of CMAP. Contractor shall immediately advise CMAP of any such conflict of interest. CMAP shall make the ultimate determination as to whether a conflict of interest exists.
- 8) Audits. The records and supportive documentation for all completed projects are subject to an on-site audit by CMAP. CMAP reserves the right to inspect and review, during normal working hours, the work papers of the CONTRACTOR in support of their invoices.
- 9) Access to Records.
 - a) The Contractor and its Subcontractor, under this Agreement shall preserve and produce upon request of the authorized representatives of CMAP all data, records, reports, correspondence and memoranda of every description of the CONTRACTOR and its Subcontractors, if any, under this Agreement relating to carrying out this Agreement for the purposes of an audit, inspection or work review for a period of three (3) years after completion of the project, except that:
 - i. If any litigation, claim or audit is started before the expiration of three-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved.
 - ii. Records for nonexpendable property acquired with federal funds shall be retained for three (3) years after its final disposition.
 - iii. The CONTRACTOR shall include a provision in all of its subcontracts, if any, such provisions.
- 10) Subcontracts.
 - a) Any subcontractors or outside associates or contractors required by the Contractor in connection with the services covered by this Agreement will be limited to such individuals or firms as were specifically identified and agreed to during negotiations. Any substitutions in or additions to such subcontractors, associates or contractors will be subject to the prior approval of CMAP.
 - b) All subcontracts for work under this Agreement shall contain those applicable provisions which are required in this Agreement.
 - c) The Contractor may not subcontract services agreed to under this Agreement without prior written approval of CMAP.
- 11) Equipment Inventory. An inventory of non-expendable personal property having a useful life of more than two years and an acquisition cost of \$500 or more is subject to periodic inspection by CMAP.
- 12) Suspension. If the CONTRACTOR fails to comply with the special conditions and/or the general terms and conditions of this Agreement, CMAP may, after written notice to the CONTRACTOR, suspend the Agreement and withhold further payments or prohibit the CONTRACTOR from incurring additional obligations of funds pending corrective action by the CONTRACTOR. If corrective action has not been completed within sixty (60) calendar days after service of written notice of suspension, CMAP shall notify the CONTRACTOR in writing that the Agreement has been terminated by reason of default in accordance with paragraph 14 hereof. CMAP may determine to allow such necessary and proper costs which the CONTRACTOR could not reasonably avoid during the period of suspension provided such

costs meet the provisions of the U.S. Office Management and Budget 2 CFR 200 in effect on the date first above written.

13) Termination.

- a) This Agreement may be terminated in whole or in part in writing by either party in the event of substantial failure (hereinafter termed "Termination by Default") by the other party to fulfill its obligations under this Agreement through no fault of the terminating party, provided that no such termination may be affected unless the other party is given (i) not less than seven (7) calendar days written notice (delivered by certified mail, return receipt requested) of intent to Termination by Default, and (ii) an opportunity for consultation with the terminating party prior to Termination by Default.
- b) This Agreement may be terminated in whole or in part in writing by CMAP for its convenience (hereinafter termed "Termination for Convenience"), provided that the CONTRACTOR is given not less than seven (7) calendar days written notice (delivered by certified mail, return receipt requested) of intent to terminate.
- c) If Termination by Default is effected by CMAP, an equitable adjustment in the price provided for in this Agreement shall be made, but (i) no amount shall be allowed for anticipated profit on unperformed services or other work, and (ii) any payment due to the CONTRACTOR at the time of termination may be adjusted to the extent of any additional costs occasioned to CMAP by reason of the CONTRACTOR'S default. If Termination by Default is effected by the CONTRACTOR, or if Termination for Convenience is effected by CMAP, the equitable adjustment shall include a reasonable profit for services or other work performed. The equitable adjustment for any termination shall provide payment to the CONTRACTOR for services rendered and expenses incurred prior to termination, in addition CMAP may include cost reasonably incurred by the CONTRACTOR relating to commitments which had become firm prior to termination.
- d) Upon notice of termination action pursuant to paragraphs (a) or (b) of this clause, the CONTRACTOR shall (i) promptly discontinue all services affected (unless the notice directs otherwise) and (ii) deliver or otherwise make available to CMAP all data, drawings, specifications, reports, estimates, summaries and such other information and materials as may have been accumulated by the CONTRACTOR in performing this Agreement, whether completed or in process.
- e) Upon termination pursuant to paragraphs (a) or (b) of this clause, CMAP may take over the work and prosecute the same to completion by agreement with another party otherwise.
- f) In the event the CONTRACTOR must terminate this Agreement due to circumstances beyond its control, the termination shall be deemed to have been effected for the convenience of CMAP. In such event, adjustment of the price provided for in this Agreement shall be made as provided in paragraph c of this clause.

14) Patents and Copyright Responsibility.

- a) The Contractor agrees that any material or design specified by the Contractor or supplied by the Contractor pursuant to this Agreement shall not infringe any patent or copyright and the Contractor shall be solely responsible for securing any necessary licenses required for patented or copyrighted material used by the Contractor.
- b) If any claim is brought against CMAP by third parties for alleged infringement of third-party patent and copyright and intellectual rights, which claim is caused by breach of the Contractor's promise as contained in paragraph a of this clause, the Contractor shall save harmless and indemnify CMAP from all loss, damage or expense (including attorney's fees) due to defending CMAP from such claim.

- c) If the principal purpose of this Agreement is to create, develop or improve products, processes or methods; or to explore into fields which directly concern public health, safety or welfare, or if the Project is in a field of science or technology in which there has been little significant experience outside of work funded by federal assistance; and any discovery or invention arises or is developed in the course of or under this Agreement, such invention or discovery shall be subject to the reporting and rights provisions of U.S. Office of Management and Budget Circular No. A-102, and to the pertinent regulations of the grantor agency(ies) in effect on the date of execution of this Agreement. The Contractor shall include provisions appropriate to effectuate the purpose of this condition in all subcontracts under this Agreement involving research, developmental, experimental or demonstration work.
- d) Remedies. Except as may be otherwise provided in this Agreement, all claims, counterclaims, disputes and other matters in question between CMAP and the CONTRACTOR arising out of or relating to this Agreement or the breach thereof will be decided by arbitration. If the parties hereto mutually agree, a request for remedy may be sought from a court of competent jurisdiction within the State of Illinois, County of Cook.
- e) Ownership of Documents/Title of Work. All documents, data and records produced by the Contractor in carrying out the Contractor's obligations and services hereunder, without limitation and whether preliminary or final, shall become and remain the property of CMAP. CMAP shall have the right to use all such documents, data and records without restriction or limitation and without additional compensation to the Contractor. All documents, data and records utilized in performing research shall be available for examination by CMAP upon request. Upon completion of the services hereunder or at the termination of this Agreement, all such documents, data and records shall, at the option of CMAP, be appropriately arranged, indexed and delivered to CMAP by the Contractor.
- f) Software. All software, related computer programs, and source code produced and developed by the Contractor (or authorized contractor or subcontractor thereof) in carrying out the Contractor's obligation hereunder, without limitation and whether preliminary or final, shall become and remain the property of both CMAP and the Contractor. CMAP shall be free to sell, give, offer or otherwise provide said software and related computer programs to any other agency, department, commission, or board of the State of Illinois, as well as any other agency, department, commission, board, or other governmental entity of any country, state, county, municipality, or any other unit of local government or to any entity consisting of representative of any unit of government, for official use by said entity. Additionally, CMAP shall be free to offer or otherwise provide said software and related computer programs to any current or future contractor.

Attachment 4: Checklist of Services

Please check the service area for which you are applying.

	1. Land use plans <p>The land use plan service area includes comprehensive plans, downtown, neighborhood, corridor, subarea, site plans, and other forms of land use planning. Comprehensive plans establish a long-term vision for a community and provide a policy framework intended to help the community achieve its goals. Comprehensive plans generally address land use, housing, environment, and transportation. Comprehensive plans may include other topics relevant to individual communities such as stormwater management, health, historic preservation, sustainability, natural resources, agricultural preservation, water resources, or community character. Downtown, neighborhood, corridor, subarea, and site plans typically address specific areas, topics, or challenges rather than the all-inclusive approach used for comprehensive plans. These types of plans may focus on flooding, capital improvements, housing, retail, industry, or a combination of topics for a defined area of a community. Site plans identify appropriate land uses for locally controlled redevelopment site based on previous planning work, local zoning regulations, and existing market data and analysis.</p>
	2. Bicycle and pedestrian-focused transportation plans <p>These plans address non-motorized transportation needs, often with the goal of improving and increasing transit access and use of transportation alternatives. The planning process will involve community outreach as well as the engagement of local expertise using a safe systems approach. Topics can include route planning and infrastructure, wayfinding, streetscapes and furnishings, and access for people with disabilities.</p>
	3. Local road safety plans / Safety Action Plans <p>A local road safety plan (LRSP) provides a process for identifying and prioritizing potential safety improvements on local roads. The planning process will involve community outreach as well as the engagement of local expertise using a safe systems approach. It will evaluate the most common and riskiest crash types and locations and develop recommendations for countermeasures. The process results in a plan that assesses crash risk, prioritizes the most important actions including capital improvements as well as broader safety programs, and lays out implementation steps. The geographic scope of the project and number of locations evaluated will depend somewhat on resources and extent of safety problems, but it is expected that an LRSP could be developed for a smaller municipality or a section of a larger one.</p>
	4. Planning renderings, illustrations, drawings, and graphic design <p>CMAP often requires assistance enhancing projects visually to improve the understanding and accessibility of the content for potential users. These services cover general graphic designer support, to include renderings, illustrations, and drawings to demonstrate the visual impact of planning or policy directions in specific areas using hand-drawn or computer-generated mediums. This work often includes oblique aerial views, street-level renderings, and street-level photo simulations, all of which compare current and future conditions. Additional services will include the design and layout of planning documents, infographics, icons/logos, and other deliverables in final published reports, to ensure that content is visually appealing, easy to understand, and accessible to users. Visual storytelling through video and audio design and production may also be required.</p>
	5. Market and demographic analysis <p>CMAP often requires assistance with market and demographic analysis to enhance projects during various phases of the planning process or undertake new demographic policy research</p>

in the region. Market analysis may be used to inform existing conditions analysis or plan recommendations based on site-driven analysis, use-driven analysis, or fiscal impact analysis. Market analysis may be used for implementation steps, such as identifying partner organizations, or specific funding mechanisms. Market analysis must include both qualitative and qualitative approaches understand community market conditions, including asset-based analysis. Storytelling as qualitative research can complement more conventional quantitative research/data, offering a different understanding of lived experience and subjectivity to effect change in public knowledge, attitudes, and behavior. Demographic analysis may be used to inform existing conditions analysis or plan recommendations but may also be used for higher level regional policy research. In addition, a contractor may be asked to assist municipalities with limited staff or resources, which may include preparing RFQs, or acting as the community's representative in interactions with potential developers.

6. Capital asset assessment and capital improvement planning

This service area includes assisting communities with infrastructure capital asset inventory, condition assessment (condition, age, service history, design life, useful life, level of redundancy), prioritization of future capital improvements based on importance and condition, and asset management planning. Contractor may also assist with capital program planning, including financial analysis, asset rehabilitation and replacement costs, revenue projections, potential efficiencies, and related tasks. Work under this service area may include assistance with a single asset system (such as water supply, stormwater, or transportation), specific elements of a single asset system (such as lead service lines or water loss control), or may address multiple community assets and infrastructure systems, such as the production of a complete Capital Improvement Plan for a community.

7. Transportation plans

These plans may address reviewing the feasibility of transportation infrastructure improvement recommendations; assessing conditions and developing recommendations for specific corridors, intersections, and/or community-wide surface transportation systems that include roadways, bicycle, pedestrian, and transit infrastructure; and developing graphically driven concept plans. Work may also include the development of generalized cost estimates for recommended infrastructure improvements, preparation of generalized scopes of work and cost estimates for preliminary, final, and/or construction engineering as well as long-term maintenance costs for use in local budgeting and grant applications; and reviews of expected traffic and/or budget impacts of planned infrastructure improvements. CMAP does not anticipate that the contractor will be asked to prepare engineering drawings as a part of these activities.

8. ADA self-evaluation and transition plans

These projects seek to assist local municipalities develop and implement ADA transition plans and self-evaluations in compliance with Title II requirements, specifically focused on public rights-of-way. Projects may require measuring, inventorying, analyzing, and prioritizing public ROW components and their compliance status; development of grievance procedures; public outreach, and integration of recommended ADA infrastructure improvements into existing capital improvement plans and municipal budgeting processes.

9. Consensus-based stakeholder engagement strategy development and management

This service area includes collaborating with CMAP staff to develop strategies for policy development through stakeholder consensus building activities to realize more equitable and resilient outcomes for all. Work may include identifying stakeholders; assessing stakeholder interests and potential for reaching consensus-based agreements; designing a consensus-based process with clear goals, ground rules, work plan and timeline; message mapping; meeting preparation and conducting pre-meeting research; communicating with stakeholders via email, phone and engagement platforms; resolving stakeholder questions; meeting facilitation and drafting meeting summaries; managing the consensus building process to

maximize the success for reaching agreements that are technically sound and politically acceptable; and, promoting consensus agreements where possible and enabling near-consensus alternatives when full consensus is not possible.

10. Regional and sub-regional planning and policy analysis

These analyses would involve collaborating with CMAP to answer discrete questions raised through the regional planning and policy process, either to leverage specific subject matter expertise or extend the capacity of CMAP staff. Work assignments may include topics related to transportation, economy, environment, water / natural resources, climate resilience and mitigation, land use, demographic, market/real estate planning and policy at the regional or subregional scale. Expected deliverables include best practice/peer scan memos, recommendation memos, technical memos, maps/spatial analysis, charts/infographics, plans, dashboards, storymaps, live models detailing analysis (e.g., in Excel), presentation materials, and meeting support (e.g., polling, discussion questions, facilitation, subject matter expertise.)

11. Water quality

This services area consists of tasks to assist CMAP with watershed-based planning or technical assistance being conducted in partnership with Illinois EPA. Work may include assisting with or completing water quality modeling, which may include nonpoint-source pollution source identification, quantification of pollutant loading, hydrologic and nutrient budgets, assessing how surface waters will respond to watershed and environmental changes (e.g., land use change, climate change), developing TMDLs, estimating pollutant load reductions and planning level costs for urban and agricultural best management practices, and quantifying benefits of water quality protection policies. In some cases, this work may also require hydrologic and hydraulic modeling. Work may also include assisting with or conducting aerial analysis and/or field data collection to assess the extent and magnitude of streambank and shoreline erosion and associated stream or lake physical conditions, the type and condition of stormwater detention basins, the quality of riparian zones, and identification of BMP types and locations to address sources of NPS pollution and associated waterbody impairments, and preparation of associated data tables and maps.
