- **QUESTIONS FOR COMMITTEE:** *How should we use green infrastructure as an important consideration in the development of comprehensive plans and zoning ordinances? Do you know of specific examples where this was done?*
- 5.0 **Community Planning Program: Update**– Hala Ahmed, CMAP
Hala will provide the committee with an initial overview of the applications received by the June 9 deadline for this new collaboration between CMAP and the RTA.
- 6.0 **Illinois Department of Commerce and Economic Opportunity (DCEO) "IKE" Planning Program** – Bob Dean, CMAP
Bob will briefly discuss CMAP's intention to submit an application to the Illinois Department of Commerce and Economic Opportunity (DCEO), for funding available through the Ike Planning Program to create a grant program, administered by CMAP, to support local planning projects in our region that incorporate comprehensive planning and hazard mitigation (particularly related to stormwater management, flood prevention, and the use of green infrastructure for these purposes). Please see memo entitled "[DCEO 'IKE' Planning Program](#)."
- 7.0 **Parking Management Strategies in Suburban Downtowns** – Lindsay Banks, CMAP
In many suburban downtowns, where the density of mixed-use and residential is higher than the rest of the community, parking is increasingly cited as problematic. Many, if not most, parking problems arise from improper management of existing parking supply, rather than a shortage. Lindsay will discuss her analysis, on behalf of CMAP, evaluating opportunities for parking management reform, as well as CMAP's potential role going forward. For more detail on this subject, please see her paper entitled "[Parking Management in Suburban Downtowns](#)."
