FY 2018 PROJECTS

CREATE Program Planning Support – Passenger & Commuter Rail

**Purpose:** Chicago will prepare technical, planning, policy and strategy support services to ensure that the remaining CREATE investments maximizes public benefit. The City will facilitate communications with affected communities, businesses, and related stakeholders.

**Project Manager:** Jeff Sriver

**Progress:** Ongoing technical, planning, policy and strategy support services to ensure that the remaining CREATE investments maximizes public benefit.

**Products:** Continuing analysis of STB Waybill data to understand recent trends in commodity flows and trends and how that affects CREATE projects and regional infrastructure usage and needs. Coordination with railroads regarding updates to RTC model. Website transition coordination. Development of 2020 Advocacy Plan. Preparation of various outreach presentations.

**Objectives for the Next Three Months:** UWP-funded work has ended.

FY 2019 PROJECTS

Vision Zero South Side

**Purpose:** Vision Zero is Chicago’s initiative to eliminate fatalities and serious injuries from traffic crashes by the year 2026. A multi-departmental Vision Zero Steering Committee led by the Mayor’s Office and four Working Groups have identified goals and strategies to increase traffic safety. A three-year Vision Zero Chicago Action Plan was released in June 2017 and implementation and tracking are underway. This data-driven process established City priorities and identified the resources – and gaps in resources – to meet benchmark reduction goals for fatalities and serious injuries by 2020.

Through data analysis for the plan, City staff identified communities with above average rates of severe crashes (crashes causing death or serious, incapacitating injury). While these High Crash Areas comprise just 20% of Chicago’s geographic area and 25% of Chicago’s population, a disproportionate 36% of severe injury crashes occur within their boundaries. More aggressive severe crash reduction goals are set for these High Crash Areas, where City investment will hold a greater impact.

Equity is a major component of Vision Zero Chicago. The Economic Hardship Index is an index score developed by the Chicago Department of Public Health that compares six data points to determine the level of economic hardship community members face compared with other Chicagoans. These include crowded housing, poverty rates, unemployment, education, dependency, and per-capita income. Chicagoans living in areas of high economic hardship have a traffic crash fatality rate (deaths per 100,000 residents) twice as high as those living in areas of...
low economic hardship, and seven of the eight High Crash Areas are also areas of high economic hardship.

Traditional models and proven countermeasures for traffic enforcement and public communication typically do focus on using data, but the role of community input and accountability are largely unaddressed. An innovative, public-facing process would improve several of these countermeasures, including public information support, high visibility enforcement, unstaffed speed displays, and laser speed measuring equipment. Vision Zero Chicago provides the opportunity to work with multiple City departments and the public to construct a model for successful, equitable community engagement that builds upon these countermeasures.

**Project Manager:** Sean Wiedel

**Progress:** The Chicago Department of Procurement Services (DPS) is review the scope/cost proposal with the chosen consultant for approval. CDOT is also awaiting resolution of a contracting issue with the chosen consultant in order to move the project forward.

**Products:** N/A

**Objectives for the Next Three Months:** Approval of the scope/cost proposal by DPS, resolve the contracting issue with the chosen consultant, and issue Notice to Proceed. Hold kick-off meeting after Notice to Proceed has been issued.

**FY 2020 PROJECTS**

**North Grant Park – Streeterville Transportation Demand Management Plan**

**Purpose:** Understand the complex multimodal dynamics that create gridlock for the crossroads of Illinois’s densest concentration of residents, employers, educational institutions, medical services and cultural attractions within the North Grant Park and Streeterville neighborhoods of Chicago. Generate actionable solutions and recommendations through a transportation demand management (TDM) plan.

The proliferation of special-use modes such as TNPs, taxis, tour group and school trip buses, commuter shuttles, and tourist trolleys all compete for the same road space, whether it be within roadway lanes or loading zones that become de facto pick up/drop off points. These modes can also impact the efficient flow of traffic through behaviors such as, but not limited to, double parking and queuing in roadway lanes. This often negatively affects other modes, specifically CTA bus service, bicyclists and pedestrians. Patchwork accommodations for special-use modes are not enough as density increases and more visitors flock to Illinois’s top destinations. A coordinated TDM plan will re-imagine existing infrastructure to meet future special-use mode demand, incentivize efficiencies, leverage public-private partnerships to address mobility needs, and develop policies that proactively manage special-use mode travel behavior.
Project Manager: Philip Banea

Progress: CDOT submitted the scope/cost proposal to CDOT – Contracts staff for review/eventual submittal to DPS.

Products: Task order package, which includes the scope/cost proposal

Objectives for the Next Three Months: Approval of the scope/cost proposal by DPS, seek CMAP concurrence, and issue Notice to Proceed.

FY 2021 PROJECTS

Chicago Transportation Planning and Programming

Purpose: Support the CMAP regional objectives as an MPO by ensuring the City of Chicago’s participation in CMAP’s transportation planning and programming processes including the development of the RTP and the TIP. In addition, CDOT will conduct technical/policy studies and analyses, which will lead to transportation projects and policies, as well as information for various audiences (including other government agencies, elected officials, stakeholder organizations, and the general public). Work on these tasks facilitates the full and effective participation of the City of Chicago in the regional planning process.

Project Manager: Philip Banea

Staff attended meetings, prepared or reviewed graphics/memos/reports, and coordinated with other agency staff regarding the following projects or initiatives:

- North Branch Industrial Corridor Transportation Improvement Support Services
  o Work finalized on September 2020. Project manager processing final invoices.

- Chicago – Oak Park Traffic Safety and Mobility Improvement Study
  o The final report has been completed. CDOT and Oak Park are working on potential implementation projects based on the recommendations of the study report.

- Citywide Complex Intersections Study/Framework Plan
  o The consultant team has finalized the prioritization of complex intersections based on geometry, traffic, surrounding land use, and safety factors. The team is developing report templates for discussing concepts/recommendations, based on the intersection priority levels.

- Metra Fulton Market In-fill Station Feasibility Study
  o This study will determine the feasibility and the physical space required to construct a potential Metra in-fill station in coordination with Metra’s A-2 interlocking improvement project. The recommended in-fill station location parallels the UP and Milwaukee District lines between Ashland and Ogden. In-fill station entrances will be located on the east and west side of Ashland and on the west of Ogden. This location/orientation of station entrances provides the best connections to the existing transit network, nearby employment centers, and...
is the most flexible option to accommodate future development. Future work will focus on conceptual design and the study will conclude in 2021.

- **Chicago River Planning**
  - CDOT received various proposals on the River Edge Access Study and a consultant team was chosen. The scope/cost proposal process between CDOT and consultant team has begun.

- **Southwest Industrial Corridor Transportation Planning Support Services**
  - CDOT received various proposals and a consultant team was chosen. The scope/cost proposal process between CDOT and consultant team has begun. Work on the Little Village 31st Street Corridor Study will be a part of this support services task order.

- **Grant coordination and quarterly reporting for Cook County Invest in Cook, CMAP UWP, and IDOT SPR funded projects.**

- **General coordination with CTA over strategies to plan, design, and implement Bus Priority Zones.**

- **Coordination with CMAP and RTA regarding various LTA/Community Planning studies within the City of Chicago.**

### Central Business District (CBD) Multi-Modal Demand Assessment

**Purpose:** Chicago’s CBD is an economic, cultural, and recreational hub for the State of Illinois and is supported by roughly 30,000 residents, 400,000 employees, and 150,000 visitors from around the world per day. People move across the CBD in all modes of transportation at all hours of the day. Understanding existing travel patterns is critical to implement active traffic management, prepare for emerging technologies and new mobility options, develop policies to shape the future of transportation, and to ensure that Chicago’s transportation network is serving all users efficiently and safely. A comprehensive and up to date traffic trends set is critical for coordination and planning across multiple agencies and will greatly benefit the region. An assessment of traffic will be conducted near Metra, CTA, and Amtrak rail stations to help inform future projects related to service planning, wayfinding signage, and infrastructure improvements. Better understanding traffic patterns, particularly pedestrians, will be critical for the Chicago Department of Planning and Development and business associations to understand opportunities to support economic development and planned development projects in the downtown.

This project will support and inform other UWP studies, including CDOT’s North Grant Park – Streeterville Transportation Demand Management Plan, CTA’s Bus Priority Network Plan, and Metra’s Downtown Connections Study, which will identify strategies for better managing regional and local traffic and curbside demand. A comprehensive set of traffic trends along with the recommendations for Streeterville will help inform strategies for managing traffic in other areas of downtown. Also, CDOT is in the process of building out our traffic management center (Chicago Smart Mobility System) by compiling a variety of inputs that can be used for project planning and real-time interventions. The information from this proposed project can be incorporated into the traffic management center and used by project managers across the department.
CDOT will engage a consultant to assess demand at hundreds of mid-block locations across the CBD to document the number of people walking, biking, and driving throughout the day. CDOT does not currently have an up to date and accurate snapshot of the number of people moving throughout the CBD, particularly on foot and by bike. While CDOT does have access to telematics data from Replica, that data does not provide the level of detail needed to appropriately plan for projects and develop policies for a targeted area like the CBD. This project will include demand assessment (including data processing and analyses), resulting in a collection of detailed data sets and report summarizing travel patterns throughout the area.

**Project Manager:** Brenda McGruder

**Progress:** The intergovernmental agreement between CMAP and CDOT for this project is being reviewed by the Chicago Department of Law.

**Products:** Intergovernmental agreement

**Objectives for the Next Three Months:** Once reviews are completed, the agreement will be signed by the CDOT Commissioner and sent back to CMAP for signature/execution. The CDOT project manager will set-up the funding afterwards.
Metra

FY 2021 PROJECTS
PROGRAM DEVELOPMENT

Purpose: Program development of capital transit planning and development

Project Manager(s): Holly Waters, Tina Ignat, Dustin J. Clark

Metra does not draw down until the grant agreement is signed. Please note that the Metra Programming Staff now consists of 2.

Progress:

- Development of the 2021-2025 Capital Program:
  - Met (virtually) with user departments to discuss project readiness and full project costs,
  - Utilized Decision Support Tool (DST) to weigh the state of good repair backlog across the agency and by asset category.
  - Produced a new Investment Prioritization

- Developed numerous iterations of the 2021-2025 Capital Program before advancing the program to Metra’s Senior Leadership Team.

- Producing Basis of Expense (BOE) Report beta version that captures the expenditure of all capital projects.
  - BOE Report has informed the initial drafts of the 2021-2025 Capital Program,
  - BOE Report has been distributed to user departments to inform their workflow and to gather suggestions to further develop the BOE Report.

- Determined project for IDOT ITEP grant

- Making progress on the RTA Budget Call FY2021:
  - Updated Investment Prioritization Framework, Budget Book, and Project Descriptions,
  - Drafting forms for Exhibits G and H and I
  - Awarded a $500,000 Invest in Cook County grant for construction of a new enclosed shelter and parking lots at 115th Street on the Rock Island District

Products:

- Finalized Decision Support Tool and User Guide in coordination with consultants WSP:

- Developed a new Investment Prioritization method
• Completed draft 2021-2025 Capital Program for deliberation by the Senior Leadership Team;

• Prepared August 2020 Capital Program Amendment.

• Prepared September 2020 Capital Program Amendment.

Objectives for the Next Three Months:

• Complete RTA Budget Call FY2021 documentation and forms:
  • Investment Prioritization Framework,
  • Budget Book Charts,
  • 2021-2025 Capital Program,
  • Exhibits G and H.

• Prepare a grant application for IDOT’s ITEP program for submission in October or November.
  • Continue to develop and distribute the BOE Report.
  • Prepare FTA COVID -19 Research Grant
  • Prepare November Capital Program Amendment
  • Begin working with the new Metra PMO - WSP
Pace

FY 21 Projects

RIDESHARE SERVICE PROGRAM

Purpose: Funding ridematching software and a mobile app that meets the nationally recognized rideshare industry standards. The online matching tool is a critical component of the Pace Rideshare program and the new features will trigger changes to the website content, incentives offered, program approach and marketing. In addition, it will allow Pace to better support and grow the existing pace vanpool Program

The Pace RideShare Program helps the long-distance workday commuter and travelers where public transportation and ride hailing are not an option as they are too expensive, take over an hour or not available.

Project Manager: Kim Koy

Progress: No Activity recorded awaiting FY21 signed contract

Products:

Objectives for the Next Three Months:

TIP DEVELOPMENT AND MODELING

Purpose: To develop a fiscally constrained Pace Bus Capital Improvement Program for the Northeastern Illinois region which is consistent with and supportive of the five-year regional TIP.

Project Manager: Jonathon Christ, Kris Skogsbakken

Progress: No activity. Awaiting signed UWP contract.

Products: N/A

Objectives for the Next Three Months
FY 2017 FUNDING

Community Planning Assistance to Local Governments

Purpose:
The Community Planning Program provides funding and planning assistance for planning projects that benefit the community and the regional transportation system. RTA staff performs program and project management activities in support of the program.

Project Manager: Michael Horsting

Progress:
- **Cary Transit Oriented Development Plan**: Completed the data collection necessary for the Existing Conditions Summary, completed all stakeholder engagement, and conducted the first community workshop.

Products:
- **Cary Transit Oriented Development Plan**: The first community workshop with 75 participants was held.

Objectives for Next Three Months:
- **Cary Transit Oriented Development Plan**: The consultant team will complete the Existing Conditions Summary. Conduct a steering committee review meeting. Begin working on land use strategies and development concepts.

FY 2019 FUNDING

Community Planning Assistance to Local Governments

Purpose:
The Community Planning Program provides funding and planning assistance for planning projects that benefit the community and the regional transportation system. RTA staff performs program and project management activities in support of the program.

Project Manager: Michael Horsting

Progress:
- **Pace I-294 Tri-State Corridor Market Assessment and Feasibility Study**: The consultant completed the Existing Conditions Assessment, Market Analysis, Traffic Conditions Report, and Station Design Tech. Memo. Weekly project meetings were held as well as a workshop for Pace staff to learn more about the project and respond to alternative route and station alignments.
Products:
- **Pace I-294 Tri-State Corridor Market Assessment and Feasibility Study**: Draft Existing Conditions Assessment, Market Analysis, Traffic Conditions Report, and Station Design Tech Memo

Objectives for Next Three Months:
- **Pace I-294 Tri-State Corridor Market Assessment and Feasibility Study**: Finalizing the Existing Conditions Assessment, Market Analysis, Traffic Conditions Report, and Station Design Tech Memo. Begin developing initial express bus conceptual routings, which will be further developed.

**FY 2020 FUNDING**

**Community Planning Assistance to Local Governments**

Purpose:
The Community Planning Program provides funding and planning assistance for planning projects that benefit the community and the regional transportation system. RTA staff performs program and project management activities in support of the program.

**Project Manager**: Michael Horsting

Progress:
- **Harvey TOD Plan Update**: Finalized the RFP Scope of Services and developed a task order solicitation to be advertised for bid.
- **University Park TOD Plan Update**: Initiated project development activities with the municipality.

Products:
- **Harvey TOD Plan Update**: None
- **University Park TOD Plan Update**: None

Objectives for Next Three Months:
- **Harvey TOD Plan Update**: Conduct solicitation for consultant assistance and preferred vendor selection.
- **University Park TOD Plan Update**: Develop an RFP Scope of Services and initiate the procurement process for consultant assistance.
2.04 COVID Response

Operational Area

COVID-19 Response and Recovery (2021.021)

Qtr 2021.021 Quarter Progress

1Q CMAP created a reporting category in this year’s work plan for projects and initiatives that have been developed to respond to local government and partner agency needs related to COVID-19 response and recovery. This list of COVID-19 activities includes: an RFP on mobility and transit recovery; webinar on shared services; and regional working group for economy, workforce and tourism.

Next Quarter Objectives

Continue work of Regional Economic Task Force and continue to pursue webinars and best practices during this time of constrained resources.

Projects

Local Government Network (2020.081)

Qtr 2020.081 Quarter Progress

1Q Three initiatives have been initiated and completed since program launch in May 20. Assessment of network performance across initiatives, cleaning of contact database underway, and drafting of project charter are underway.

Next Quarter Objectives

Complete initial assessment memo on network performance and project charter.

CMAP Talks (2021.010)

Qtr 2021.010 Quarter Progress

1Q We completed several CMAP Talks webinars with external partners. Webinars included Shared Services, Chicago Federal reserve, Congestion surge, Climate Resilience, and partnership with Cook County Forest Preserve.

Next Quarter Objectives

We are working on the next set of CMAP talks webinars.
Mobility Recovery (2021.054)

Qtr  2021.054  Quarter Progress

1Q  Finalized scope and put Mobility Recovery RFP out to bid, and have interviewed the top firms.

Next Quarter Objectives

Select vendor and negotiate contract.

2.11 Regional Transportation Focus Area

Projects

Regional Transportation Focus Area: funding, equity, and safety multi-year implementation planning (2021.019)

Qtr  2021.019  Quarter Progress

1Q  Individual projects on Mobility Recovery and a Transportation Equity Framework were developed and spun off from the focus area.

Next Quarter Objectives

Inventory any additional transportation policy work required to support the ON TO 2050 plan update in October 2022.

Equity in fines, fares, and fees (2021.023)

Qtr  2021.023  Quarter Progress

1Q  Completed assessments of the equity of fees, fines, and fares; started evaluating strategies for potential recommendation; held Resource Group meeting.

Next Quarter Objectives

Complete evaluation of strategies, then hold final Resource Group meeting. Staff will draft the report.

Regional preparation for emerging transportation technology (2021.025)

Qtr  2021.025  Quarter Progress

1Q  Project suspended due to staffing and prioritization of mobility recovery efforts.

Next Quarter Objectives

Project suspended due to staffing and prioritization of mobility recovery efforts.
Ongoing transportation revenues analysis, communication, and outreach (2021.027)

Qtr 2021.027 Quarter Progress

1Q Analyzed motor fuel tax revenues and tracked road usage charge implementation nationally through partner engagement.

Next Quarter Objectives

Continue to provide analysis if select revenue sources and continue partner engagement, as needed.

Safety action agenda (2021.029)

Qtr 2021.029 Quarter Progress

1Q New safety staff have been hired and onboarded. Concept memo presented to working committees. Scoping has begun.

Next Quarter Objectives

2.12 Regional Economic Competitiveness Focus Area

Projects

Regional Economic Competitiveness Focus Area: multi-year implementation planning (2021.017)

Qtr 2021.017 Quarter Progress

1Q Conducted internal analysis and partner engagement for pandemic recovery response.

Next Quarter Objectives

Individual projects on economic recovery will be developed and spun off from the focus area. Remainder of economic scoping will be realigned for the plan update.

Regional economic development analysis, implementation, and coordination (2021.031)

Qtr 2021.031 Quarter Progress

1Q Evaluated national regional economic development best practices. Conducted outreach to national practitioners.
Next Quarter Objectives

Convene regional economic development practitioners to discuss next steps following CRGC suspension of operations.

Analysis and visualization of performance trends (2021.032)

Qtr 2021.032 Quarter Progress

1Q Ongoing data acquisition. Project scope realignment to focus on economic conditions. Transportation monitoring shifted to COVID update activity.

Next Quarter Objectives

Continue ongoing data acquisition, synthesis of select indicator trends.

Assessment of disinvestment in northeastern Illinois (2021.034)

Qtr 2021.034 Quarter Progress

1Q Completed a policy update laying out public-facing commitments for the disinvestment research. Continued general research and began to scope out the first analysis investigating how vacancy interacts with disinvestment.

Next Quarter Objectives

Continue literature review and conduct interviews about how vacancy factors into disinvestment. Identify vacancy data sources, assemble regional data, and carry out regional analyses of disinvestment and vacancy.

State revenue sharing with local governments analysis (2021.036)

Qtr 2021.036 Quarter Progress

1Q Drafted rescope of the project to account for shifting priorities and staff availability due to the pandemic.

Next Quarter Objectives

Begin first set of analysis on sales tax revenue.

Analysis and guidance on the use of local incentives (2021.038)

Qtr 2021.038 Quarter Progress

1Q Completed and released the Incentives Guide. Presented report to IL-APA and other external stakeholders. Continued LTA alternative assistance project with Richton Park, presented to Village Board. Scoped and gathered data for prevalence report.

Next Quarter Objectives

Analysis on distribution of state incentives (2021.039)

Qtr 2021.039 Quarter Progress

1Q Project suspended due to staffing and prioritization of economic recovery efforts.

Next Quarter Objectives

Project suspended due to staffing and prioritization of economic recovery efforts.

Regional workforce and labor market trends (2021.041)

Qtr 2021.041 Quarter Progress

1Q Ongoing regional economic condition monitoring of employment and business health. Published an update with analysis of unemployment and job growth.

Next Quarter Objectives

Ongoing regional economic condition monitoring regarding employment and business health, key findings will be documented via internal or external analysis.

2.13 Regional Climate Focus Area

Projects

Climate Focus Area: Regional climate strategic planning (2021.005)

Qtr 2021.005 Quarter Progress

1Q Project initiated with scope, schedule, and team task assignments. Peer review, stakeholder engagement, and daylight strategy integration in progress by end of quarter.

Next Quarter Objectives

Complete peer review and stakeholder engagement, identify strategies and potential FY22 projects, synergize with other focus areas, and begin to assess resource needs for FY22.

Climate mitigation and adaptation technical assistance strategy (2021.009)

Qtr 2021.009 Quarter Progress

1Q Began initial discussion and drafting of charter and scope.

Next Quarter Objectives

Complete scope and initiate project work with team.
Climate data inventory and refinement (2021.012)

Qtr 2021.012 Quarter Progress

1Q  Started review of municipal-level GHG emissions inventory processes. Began log of existing climate data assets.

Next Quarter Objectives

Begin to scope upcoming GHG emissions inventory.

GHG reporting and monitoring (2021.014)

Qtr 2021.014 Quarter Progress

1Q  Staff has been analyzing mobile source GHG data from previous conformity modeling to establish a GHG mobile source emissions baseline and trendline for Total GHG, Hour of Day, and Vehicle type.

Next Quarter Objectives

Provide a presentation of our findings to internal staff and at the December Transportation Committee meeting.

Transportation mitigation strategies (2021.015)

Qtr 2021.015 Quarter Progress

1Q  Reviewed several studies and partners research. Refined list of scenarios to be examined. Started to develop a framework for modeling results.

Next Quarter Objectives

Begin to share proposed list with internal and external partners. Refine individual scenarios. Bring in more data on potential strategies.

2.21 Planning Resources

Projects

Algonquin and Cary Subarea Plan (2017.700)

Qtr 2017.700 Quarter Progress

1Q  Continued to develop virtual open house materials and engagement webpage.

Next Quarter Objectives

Launch virtual open house, revise plan, and schedule presentations for adoption.
Beach Park Northern Lakeshore Trail Connectivity Plan NLTC (2017.702)

Qtr 2017.702 Quarter Progress
