**PREPARE**

The Preserved context maintains Barrington as an integral part of current conditions and values. It establishes the appropriate mix of land uses for the station and surrounding area and includes existing building setbacks and the existing parking structures.

This scenario is evaluated using the following principles:

- **Community:** Encourages vibrant, walkable communities.
- **Public Space:** Provides open, accessible spaces for residents and visitors.
- **Innovate:** Supports sustainable development.
- **Existing Uses:** Maintains and enhances existing uses.
- **Public Transport:** Promotes efficient and accessible public transport.

**Village of Barrington**

**INNOVATE**

This scenario takes a more aggressive approach to development in the station area and includes significant growth between zones and new uses.

This scenario is evaluated using the following principles:

- **Community:** Encourages vibrant, walkable communities.
- **Public Space:** Provides open, accessible spaces for residents and visitors.
- **Innovate:** Supports sustainable development.
- **Existing Uses:** Maintains and enhances existing uses.
- **Public Transport:** Promotes efficient and accessible public transport.
