Application form:
Community Planning Program and
Local Technical Assistance Program

DEADLINE: Noon on Thursday, June 25, 2015

This application form is online at www.rtachicago.com/applications. You may submit the form by email to applications@rtachicago.com. Upon receipt of application, you will receive an e-mail verifying that your application has been received.

1. Name of Applicant:
   Village of Clarendon Hills

2. Main Contact for Application:

   Name: Dan Ungerleider, AICP
   Title: Community Development Director
   Phone number: 630-286-5412
   Email: dungerleider@clarendonhills.us

3. Type of Applicant (please check any that apply):

   X Local government
   ____ Multijurisdictional group* Please list the members of the group (including government and nongovernmental organizations):
   __________________________________________________________
   __________________________________________________________
   __________________________________________________________

   ____ Nongovernmental organization* Name of local government partner(s):
   __________________________________________________________
   __________________________________________________________

*Applications submitted by multijurisdictional groups and nongovernmental organizations must include a letter indicating support from each relevant local government. See the FAQs for more information.
Nongovernmental applicants are strongly encouraged to contact CMAP, RTA, or CCDPH prior to submitting their application to discuss their project and the demonstration of local support.

4. **Project Type (please check any that apply):**

Please check all statements below that describe characteristics of your project. (This will help us determine whether your project is best handled by CMAP, RTA, or CCDPH.)

- [X] My project involves preparation of a plan.
- [__] My project helps to implement a past plan.
- [X] My project links land use, transportation, and housing.
- [X] My project has direct relevance to public transit and supports the use of the existing transit system.
- [__] My project is a bicycle, pedestrian, or active transportation plan in suburban Cook County.
- [__] My project is not directly related to transportation or land use, but implements GO TO 2040 in other ways.

5. **Local Match Requirement (please initial to indicate you are aware of the local match requirements):**

I am aware that a local match will be required for most projects, and understand that if my project is selected it is up to the project applicant to contribute a local match. (See the program guide for further details on local match requirements.)

- [DU] Yes, I understand that applicants will be required to contribute a local match.

6. **Project Location:**

The Village of Clarendon Hills’ South Side ("South Side") is located at the south end of the Village. It is framed out by S Kingery Highway (State Route 83) on east, 59th street on south, Richmond Avenue on west, and 55th street on north. Also, it encompasses parts of the Village on the north side of the 55th street as they share some common features and infrastructure with the South Side.

7. **Project Description:**

The Village of Clarendon Hills is a 1.81 square miles village located about 18 miles southwest of Chicago, DuPage County. The Village population is 8,434 people\(^1\). There are many challenges for the Village’s south side that could properly be addressed through sound planning. That is why the Village of Clarendon Hills is applying for the CMAP LTA grant to assist us to develop a subarea comprehensive plan in keeping with the Village’s vision for the community as well as the principles of the GOTO 2040.

Although the history of the Village of Clarendon Hills goes back to 1870s, it has constantly been renewing itself through various planning efforts such as 1991 Comprehensive Plan and more recent ones including, but not restricted to, plans serving our downtown and the Ogden Avenue TIF District. These plans were developed to assure that the Village of Clarendon Hills remains a sustainable thriving community well into the future. Our aim is to foster a livable community with solid infrastructure, quality municipal services, and open space where residents can enjoy a safe healthy life.

---

\(^1\) 2000 and 2010 Census, 2012 American Community Survey five-year estimates
Although the Village is not currently seeking to annex the unincorporated properties in the planning area, this plan will include agreed upon recommendations for future annexation and preparation of infrastructure and services needed to support these properties well into the future.

Moving towards that goal, the South Side has many challenges that need to be addressed, some of which include perceived disconnection from the Village, incomplete infrastructure systems, and that much of the area is unincorporated. The South Side shares the same postal address with Clarendon Hills but not all the area is connected to the Village’s infrastructural system including water and sewer system.

In preparation for this the South Side Plan, the Village recently completed a Water System Capacity Analysis for the South Side Water Supply Area. The Village is prepared to conduct other needed and relevant studies to support this planning effort. Given the complexity of this area and its community, the Village is most interest in having CMAP’s assistance and expertise to insure the success in obtaining real community input and developing the Plan.
