6. Project Location:
Please provide a brief description of the location of your project. You may include a map if that helps to describe location, but this is not required. If your project helps to implement a past plan, please include a link to that plan.

This project is located in the Village of Lake Zurich. The project location would encompass the entire Village as the project would be to update the 2003 Comprehensive Plan. An update to the 2003 Comprehensive Plan is a strategy within one of the five major strategic goals identified in the 2014-2019 Strategic Plan for the Village of Lake Zurich, and in this way an update to the Comprehensive Plan will help to implement a past plan. A link to the 2014-2019 Strategic Plan is below.

7. Project Description:
Please tell us what you would like to do in your community, and what assistance is needed. If you have more than one idea, please submit a separate application for each project. Please be specific, but also brief (less than two pages per project idea)—we simply want to have a basic understanding of what you want to do. Program staff will follow-up with you if we need any additional information to fully understand your proposed project.
The Village would like assistance in updating our Comprehensive Plan. The current Comprehensive Plan was adopted on 2/17/2003 and is now over 12 years old. The Village imagines an updated plan would include the following:

1. Existing Conditions Report (including challenges and opportunities)
2. Plan Update Process Description
3. Purpose and Vision Statement
4. Goals and Objectives
5. Future Trends for Development
6. Sub Area Analysis
7. Land Use Plan
8. Transportation Plan
9. Open Space Plan
10. Infrastructure Plan
11. Plan Implementation Strategies

This project would also involve a significant amount of public outreach (public workshops, visioning charrettes, etc.) which the Village would also need assistance with. The Village is prepared to assist with staff time and volunteer time. It is a longstanding goal of the community to update the plan and it should be noted that the Village of Lake Zurich applied to participate in the LTA Program last year but was not selected. However, community support remains strong and for the second year in a row the Village Board approved a Resolution affirming their support. This Resolution is attached.

The Village is interested in having an updated Comprehensive Plan that ties into the Land Use Planning Study that CMAP is coordinating as a result of the proposed Route 53 expansion project in Lake County. As portions of Lake Zurich will be affected by the expansion of Route 53, CMAP, in conjunction with the Lakota Group, is in the final stages of finalizing a Land Use Plan to help affected communities plan for future growth. CMAP can help coordinate the alignment of an updated local Comprehensive Plan with the Route 53 Land Use Plan, which will also tie into the GO TO 2040 Plan, and is consistent with CMAP’s goal of fostering a regional approach.

In May of 2014 the Village Board adopted a Five Year Strategic Plan to help establish a direction for the Village over the next five years. Contained as a key strategy to accomplish one of the five major strategic goals outlined in the plan, the document calls for the “update of regulations to develop proactive policies which will include the revision of the Comprehensive Plan.” This reinforces the political and community support for this project and means that an updated Comprehensive Plan will help to implement the 2014-2019 Strategic Plan of Lake Zurich.

Should you have any questions, please don’t hesitate to contact me at the number listed on this application. The Village of Lake Zurich is excited for the opportunity to work with CMAP on an updated Comprehensive Plan and will look forward to hearing back from you.
