**4.0 Next Comprehensive Regional Plan – Kristin Ihnchak, CMAP**

To continue the preliminary efforts conducted over the past year, CMAP staff are beginning development of the next comprehensive regional plan in earnest over the 2016 fiscal year. Development of the next plan will build upon the foundation established in GO TO 2040 by seeking to refine the plan's major policy objectives in a manner that is supportive of the agency's core land use and transportation responsibilities, as well as identifying limited new policy directions that are complementary to CMAP's role.

More specific policies and recommendations may address both the granularity in the current plan's policies as well as expand to geographically-oriented approaches for some policy areas. New and refined policy directions are expected to be explored through the creation of topical strategy papers, while the development of data-driven snapshots will define the region's existing conditions and trends.

Kristin will describe the overall planning process and timeline, snapshots, and strategy papers to be developed this year, and expected touch points for the Land Use Committee. In addition to answering questions from committee members, Kristin encourages feedback on the proposed approach.

**5.0 Local Technical Assistance (LTA) Program: Rosemont Comprehensive Plan – Samyukth Shenbaga, CMAP**

The Village of Rosemont is situated in proximity to the City of Chicago and O'Hare International Airport, making it a prime location for residents and businesses and a gateway for visitors entering the city of Chicago. Incorporated in 1956, Rosemont is home to a relatively small number of residents but attracts as many as 50,000 visitors on a daily basis for employment and entertainment purposes. CMAP has assisted the Village in the creation of its first comprehensive plan since 1977. Sam will provide an overview, focusing on unique

aspects of the project, which is nearing its completion.

**6.0 Local Technical Assistance (LTA) Program: Complete Streets Toolkit – John O’Neal, CMAP**

Complete Streets is a transportation policy and design approach that requires streets to be planned, designed, operated, and maintained to enable safe, convenient, and comfortable travel and access for all anticipated roadway users, regardless of their age, abilities, or mode of travel. In collaboration with the Active Transportation Alliance, and the National Complete Streets Coalition, **CMAP has created a new toolkit** that is a guide for incorporating a Complete Streets approach into local planning, design, and construction processes and documents. John will provide an overview.
