REQUEST FOR QUALIFICATIONS (RFQ) NO. 138

ADVISORY STORMWATER ENGINEERING SERVICES TO SUPPORT REGIONAL STORMWATER PLANNING AND LOCAL TECHNICAL ASSISTANCE (LTA) PROJECTS

The Chicago Metropolitan Agency for Planning (CMAP) is requesting proposals from interested contractors for advisory stormwater engineering, as described in the enclosed Request for Qualifications (RFQ).

CMAP will conduct a non-mandatory pre-submission information session on Thursday July 2, at 1:00 p.m. local time. Contractors may attend in person or by webinar/conference call. To attend in person, call CMAP at 312-454-0400 to be added to the Willis Tower Visitor list. Driver’s license or state ID required for entry into the building. To join by webinar/conference call, email Procurements@cmap.illinois.gov requesting RFQ 138 webinar/conference call information. An e-mail with the webinar/conference call information will be sent to all who have registered by noon on Wednesday July 1st.

Participation in the pre-submission discussion is non-mandatory, but is offered as a way to best understand the scope of work we are trying to accomplish. The questions and responses noted during the pre-submission discussion will be sent to all meeting attendees and posted to the CMAP website.

If your firm is qualified and experienced in performing the described services, CMAP would appreciate receiving your proposal as indicated in the RFQ. The deadline for receipt of submissions in response to the RFQ is 3:00 p.m., Wednesday, July 15, 2015.

Thank you, and if you have any questions, please call me at (312) 386-8756.

Sincerely,

REQUEST FOR QUALIFICATIONS (RFQ) NO. 138

ADVISORY STORMWATER ENGINEERING SERVICES TO SUPPORT REGIONAL STORMWATER PLANNING AND LOCAL TECHNICAL ASSISTANCE (LTA) PROJECTS

The Chicago Metropolitan Agency for Planning (CMAP) invites qualified contractors to submit qualifications to provide advice on stormwater management and engineering issues to support regional stormwater planning initiatives and Local Technical Assistance (LTA) projects, as described in this scope of work. Please read each section carefully for information regarding the proposal and submittal instructions.

SECTION 1: Background and General Information

About CMAP
The Chicago Metropolitan Agency for Planning (CMAP) is the official regional planning organization for the northeastern Illinois counties of Cook, DuPage, Kane, Kendall, Lake, McHenry, and Will. CMAP developed and now leads the implementation of GO TO 2040, metropolitan Chicago's comprehensive regional plan, which establishes coordinated strategies that help the region's 284 communities address transportation, housing, economic development, open space, the environment, and other quality-of-life issues. See www.cmap.illinois.gov for more information.

LTA Background / Statement of Purpose
CMAP is pursuing this project through its Local Technical Assistance (LTA) program, which is designed to implement GO TO 2040 through assistance to local governments. Since the initiation of the LTA program in 2011, over 100 projects have been completed, with 50 more underway. The purpose of the Local Planning and LTA programs, which have been reflected clearly in their products, is to provide assistance to communities across the Chicago metropolitan region to undertake planning projects that advance the principles of GO TO 2040. For each project, CMAP conducts the technical work but coordinates closely with community representatives to ensure that the project reflects local concerns and priorities.

Several LTA projects would benefit from being supplemented by stormwater engineering expertise. In some cases, this would involve an assessment of the feasibility of recommendations, such as land use and development plans, policies, and infrastructure improvements such as the installation of green infrastructure practices to improve stormwater management. In others, it would involve working with CMAP staff to develop a technical approach to assessing stormwater management challenges and solutions using spatial data and GIS-based tools and analytics. These and other requested activities are described in more detail in Section 2. The LTA program includes a focus on implementation, so it is a high priority for CMAP and the communities that CMAP makes realistic and implementable recommendations for improving stormwater management.

While CMAP has significant internal capacity to address water resource planning needs, the agency’s stormwater engineering experience is more limited. The purpose of this RFQ is to select a contractor or multiple contractors to provide advice on stormwater engineering issues to support related projects.

General Information
As a result of responses to this RFQ, CMAP plans to review submissions and conduct interviews with contractors it determines are best qualified to meet the requirements outlined
below. Negotiations will be held as necessary to select the firm(s) that CMAP believes are most qualified based upon its requirements. Subject to “Reservation of Rights” below, it is anticipated that a contract(s) will be awarded for one year in length with two one year options for renewal.

SECTION 2: Scope of Project and Procurement Details

Scope of Services
This RFQ seeks stormwater engineering assistance for Local Planning and LTA projects that are underway, planned to begin in the near future, and future projects. These projects will occur in a variety of settings from rural areas to established suburban communities to dense urban areas. For each project, the contractor will work directly with CMAP, although interaction with the local project sponsor (typically a municipality) may occasionally be needed as well.

The assistance sought includes five different types of activities, as described below. These are each stand-alone activities; that is, they will not all be required for all projects. CMAP cannot yet specify the communities where each of these activities will be conducted, as this is being determined as projects advance. Nor can CMAP accurately predict how much work will occur within each activity area. However, CMAP anticipates that the contractor(s) will be asked to take on approximately five to eight projects of the activity types described below during the first year of this contract, with an estimated combined cost of approximately $75,000.

A description of each activity type is included below. When considering these activity types, contractors should keep in mind that the intent is to provide planning-level assistance, advice, and recommendations that are reasonable and feasible from a stormwater engineering perspective, and that are appropriate for planning and policy documents such as comprehensive plans, corridor plans, subarea plans, or other similar plans. In some cases, plans and policy documents may include recommendations for the development of engineering studies and models in order to better understand stormwater challenges and solutions, but neither detailed, technical studies nor engineering designs or drawings will be prepared under this contract. Detailed activities for which assistance is being requested will be described in individual Task Order Requests.

1. Assist with review and refinement of local stormwater planning and analysis approach. CMAP has initiated a project to collect, compile, and make available spatial and other data useful for community stormwater planning needs. Data will include topography, floodplains, historic stream locations, land use, groundwater depth, soil types, repetitive loss properties, and information collected from public engagement. This effort also includes the development of an approach to identify areas within individual communities with potential flooding problems as well as areas where specific land-surface solutions could be implemented, such as repurposing vacant land for stormwater management practices (such as rain gardens and swales), incorporating stormwater best management practices in new capital investments (such as street reconstruction projects using permeable paving), and direct priority areas for home buy outs and floodplain protection and reconnection.

In addition to examining spatial datasets of relevant information, the approach is expected to include an analysis of the flow of stormwater across the surface of the landscape using the flowpath modeling method and spatial analysis capabilities of ArcGIS software including Arc Hydro tools. The intent is to understand likely paths of overland flow, delineate contributing drainage areas, identify potential flood problem
areas, and identify opportunities to address flood problems using land-surface solutions. The approach will be tested and refined through application to pilot communities and comparison of the results of our analysis with previous engineering studies conducted by others in these same communities, if available.

The contractor will be asked to assist with reviewing, testing, and refining CMAP’s approach including the selection and use of data layers and the analytical methodology. Contractors may be asked to review CMAP’s approach and results with other available studies, which may include engineering studies such as H&H models.

For this activity, CMAP will provide an outline of the approach as well as working datasets and other data used in the analysis for the pilot communities. The contractor’s involvement will occur while CMAP is developing and testing the approach. The contractor will be asked to meet with CMAP staff to discuss and refine the approach, may be asked to provide written recommendations, and may be asked to attend or conduct working sessions to work through the methodology using data and software.

2. Assist with refinement of regional stormwater analysis approach. As part of its stormwater initiative, CMAP will develop an analytical method to identify priority clusters across the region with the greatest stormwater mitigation needs. The intent of this approach is to identify regional and sub-regional challenges that can be targeted as future focus areas for stormwater planning assistance. This effort will use the same data and similar analytical approaches as described in Task 1 above, though other available datasets and analytical methods may be used as well.

The contractor will be asked to assist with reviewing, testing, and refining CMAP’s approach including the selection and use of data layers and the analytical methodology. The contractor will also be asked to review and provide feedback on draft results/deliverables. For this activity, CMAP will provide an outline of the approach as well as a list of datasets used in the analysis. The contractor’s involvement will occur while CMAP is developing and testing the approach.

3. Assist with community and/or multijurisdictional stormwater planning efforts by reviewing the application and results of CMAP’s stormwater analysis, reviewing identified challenges and solutions, and providing input on the feasibility of draft recommendations for improvements to stormwater management in a specific community. Using the approach described above in activity 1, CMAP will recommend stormwater management practices and other improvements as part of LTA and other stormwater management planning projects. Recommendations will vary from site specific green stormwater infrastructure installations to community-wide standards or policy changes, such as natural resource protection standards, stream and floodplain buffers, changes in land use patterns and intensities, or changes to land use and development standards.

In most cases the contractor will be asked to review technical aspects of CMAP’s assessment of stormwater challenges and solutions for accuracy, general physical feasibility, and compliance with engineering standards and best practices. This will also include an opinion as to whether the recommended improvements would have the intended effect on the stormwater challenge being addressed, and whether further analysis or recommendations are needed, such as grey infrastructure or H&H modeling. In some cases the contractor may be asked to assess whether and how improvements and infrastructure planned by others (e.g., MWRD) might affect problem areas and
solutions that are identified in CMAP’s analysis. Though limited quantitative analysis may be necessary in order to develop such input, highly detailed quantitative analysis by the contractor will not be expected.

For activities of this type, CMAP will provide GIS and other data for the relevant area and a description of the stormwater improvements under consideration. The contractor’s involvement will occur during the assessment of existing conditions, one of the first phases of work for each project. If needed, the contractor will be responsible for gathering additional information and data about the area, which may include conducting limited field work and supplementing the data provided by CMAP with local data. In some cases, the contractor also may be asked to meet with CMAP and individual communities. The deliverable for activities of this type will take the form of either a memo to CMAP that explains the results of the contractor’s review, or a marked up version of a draft document provided by CMAP.

The contractor will not be asked to prepare engineering designs or drawings as a part of these activities; instead, this will be a high-level review of feasibility. In all cases, the contractor’s advice will inform CMAP’s planning recommendations.

4. Assist CMAP to develop recommended planning-level solutions in specific locations. In some cases during the stormwater planning analysis, specific sites will be identified that have significant challenges or significant potential to help address stormwater challenges. These may include individual streets, subdivisions, or other sites that are particularly susceptible to flooding, or exist in depressional or otherwise challenged areas. In these cases, CMAP may wish to provide additional detail for a specific improvement as part of the plan. For example, this may include a concept-level plan of a site rain garden or bioswale, or it may include a site plan that shows the integration of green stormwater infrastructure practices with existing or planned development. The contractor may be asked to prepare concept plans of this sort, in consultation with CMAP, or to review concepts prepared by CMAP.

For activities of this type, CMAP will provide GIS and other data for the relevant area and a description of the stormwater improvements under consideration. The contractor’s involvement will occur while CMAP is developing recommendations, but before specific recommendations have been made. If needed, the contractor will be responsible for gathering additional information and data about the area, which may include conducting limited field work and supplementing the data provided by CMAP with local data. In some cases, the contractor also may be asked to meet with CMAP and individual communities.

The deliverable for activities of this type will take the form of either a memo to CMAP that explains the results of the contractor’s review, or a marked up version of a draft document provided by CMAP. In some cases, the final deliverable will be a concept-level diagram (or in some cases multiple diagrams) of the proposed treatment of the site under consideration. The contractor will be asked to prepare sketch versions of the diagrams for discussion with CMAP before finalizing. Ultimately, the diagrams are expected to be included in the final plan, so they will need to be prepared at a high level of graphic quality.
As above, the contractor will not be asked to prepare engineering drawings. While concept-level diagrams will be site-specific, they will be used to inform CMAP’s planning recommendations, and it is recognized that further engineering work will be necessary.

5. **Develop generalized cost estimates** for recommended stormwater infrastructure improvements. LTA plans often recommend infrastructure improvements that include new construction, upgrades to existing infrastructure, and infrastructure maintenance. Examples include bioswales, home buyouts, flood proofing, and others. In some cases, it would be useful to the community to have a general sense of the expected cost of the recommended improvements. The contractor will be asked to review general recommendations for infrastructure improvements and develop general, order-of-magnitude cost estimates that would be useful for budgeting purposes. These are expected to be generalized and based on unit costs rather than a detailed examination of local conditions; again, contractors should keep in mind that these will likely be included as an appendix to a comprehensive plan, corridor plan, downtown plan, or similar planning document.

In addition, CMAP has begun to work with a few communities to update their capital improvement plans (CIP). As part of this project, the contractor will be asked to review the cost estimates provided by the local government for each potential stormwater improvement project and provide a general confirmation that the costs are reasonable. In this case, the final deliverable will simply be communication with CMAP staff concerning any projects that have cost estimates that require further scrutiny or discussion with the local government.

For activities of this type, CMAP will provide GIS and other data for the relevant area and a description of the stormwater improvements under consideration. The contractor’s involvement in cost-estimating will likely occur after recommendations have been selected; however, at times an understanding of order-of-magnitude cost may help inform the selection of stormwater solutions. If needed, the contractor will be responsible for gathering additional information and data about the area, which may include conducting limited field work and supplementing the data provided by CMAP with local data.

The deliverable for activities of this type will take the form of an Estimate of Cost memo to CMAP that includes a table of total estimated cost for each improvement and an explanation of assumptions, unit costs, and how the total was calculated.

As above, the contractor will not be asked prepare engineering designs or drawings as a part of these activities; instead, costs should be best estimates based on available information. The contractor’s advice will inform CMAP’s planning recommendations.

Contractors should demonstrate their qualifications to assist in each of the types of activities described above. Please see Section 3, Submittal Requirements, for more detail on how contractors should demonstrate their qualifications in their submittals.

Proposal Evaluation
All proposals submitted in response to this request for qualifications will be analyzed for completeness. The following criteria will be used in evaluating proposals:

1. Qualifications of Contractor. The individual and/or contractor’s demonstrated record of experience in providing advice on stormwater engineering issues as identified in this scope of work. Qualifications of assigned staff that will perform the work. The education, experience, and expertise of the individual and/or contractor’s principals, employees and subcontractors who will be assigned key project responsibilities
2. The quality of the narrative describing the approach to the five types of projects described in the scope of services.
3. The experience of the firm in conducting similar projects in a variety of geographic contexts for public sector clients, as indicated through the quality and relevance of the examples of similar work.
4. The reputation of the firm or organization based on references.

All timely responses received to this RFQ will be reviewed and interviews may be conducted with selected submitters CMAP determines can best meet the above requirements. An in-house CMAP committee will make the selection decision.

After the committee has selected the most qualified contractor(s) CMAP will then negotiate a scope of work and contract with a contractor or contractors judged to be the most qualified to conduct this work. It is anticipated that any contract issued as a result of this RFQ will be on a task order basis.
SECTION 3: Submittal Requirements

Proposals must be received at CMAP on or before 3:00 p.m. Wednesday, July 15, 2015.

Submissions should be submitted in the order presented:

1. A general description of your firm’s structure, experience, services and staff, along with similar descriptions for any proposed subcontractors.

2. A description of the firm’s qualifications to provide advice on stormwater engineering issues as described in the Scope of Services in Section 2. Identify the key staff involved in each activity, clearly describing qualifications and experience.

3. A narrative describing the general approach that the firm would take to complete the activities outlined in the Scope of Services in Section 2. The firm should also provide a general description of its work process with clients related to work of this type. In this section, contractors should describe their experience working on a task order basis with public sector clients.

Each activity will require a separate narrative describing the contractor’s approach, as each should use a distinct process. Each narrative should:

- Estimate the length of time involved to complete the activity, and identify the relevant staff to be involved. The expectations for the type of information that CMAP will provide to the contractor are specified in the activity descriptions in the Scope of Services in Section 2 above; contractors should indicate within their narrative whether any additional information from CMAP will be necessary. Be clear about when and how coordination with CMAP staff will occur within each process.

- Provide between five and ten examples of the firm’s experience that demonstrate the firm’s ability to conduct the types of activities described in the Scope of Services in Section 2. Describe the firm’s contributions clearly, and specify the client for each, the date prepared, and the overall project that the firm’s work supported. Please note that this request is for the firm to demonstrate experience for the types of activities described in the Scope of Services. Examples may address more than one of the types of activities described, and if so, please distinguish the different types of work that were done. Please do not submit more than ten examples. (Please note that CMAP is requesting five to ten total examples, not five to ten for each of the listed activities.)

- Identify the staff that would be involved in each type of activity, and describe their qualifications. Limit resumes to two pages of the most relevant qualifications and experience.

4. At least three references, including individual contact name, name of company and phone number, that CMAP staff may contact regarding the contractor’s qualifications to undertake this project.
The respondent shall also sign and submit Attachment 1:“Certificate Regarding Workers’ Compensation Insurance”, Attachment 2, “Information to be Provided by Bidder”, and Attachment 3: Certification for Contracts, Grants, Loans, and Cooperative Agreements.

**Submittal Requirements for Proposals**

Proposals must be submitted to CMAP no later than 3:00 p.m. July 15, 2015.

Three (3) paper copies of all proposals as well as one (1) electronic version in PDF format on CD ROM must be submitted no later than 3:00 p.m. on Wednesday, July 15, 2015. Submissions must be in a sealed package or envelope. The applicant’s organization name and address shall appear in the upper left corner of the package.

Submission of RFQ by fax or e-mail is not acceptable. Submissions may be delivered to CMAP in person or sent (by U.S. Postal Service or other reliable means) to the following address:

Chicago Metropolitan Agency for Planning  
Attn: Procurement Officer  
Response to RFQ No. 138  
233 S. Wacker Drive, Suite 800  
Chicago, IL 60606

There will be no public opening for this RFQ. Late submissions will be rejected and returned unopened. Questions may be referred to Penny DuBernat (312) 386-8756 or Email: PDubernat@cmap.illinois.gov.
SECTION 4: Contractual Agreement and Rights

Contractual Agreement
The contract CMAP anticipates awarding as a result of this RFQ and subsequent rate submissions and negotiations, if any, will indicate the service requirements, time periods involved and applicable hourly rates. In addition, it will include the General Provisions, Section 5 hereto, and Special Provisions, Section 6 hereto, which will apply to the contract.

Reservation of Rights
CMAP reserves the following rights if using them will be more advantageous to CMAP:

a. Withdraw this RFQ at any time without prior notice.
b. Accept or reject any and all submissions, or any item or part thereof
c. Postpone qualifications due date.
d. Not award a contract to any submitter responding to this RFQ.
e. Award a contract without negotiations or discussions.

Contractors who are or have been seriously deficient in current or recent contract performance in the absence of evidence to the contrary or circumstances properly beyond the control of the Contractor shall be presumed to be unable to meet these requirements. Past unsatisfactory performance will ordinarily be sufficient to justify a finding of non-responsibility.

SECTION 5: General Provisions

The following provisions apply to the solicitation to which this section is attached and to any contract that results from the solicitation:

1. Complete Agreement.

   a. This Agreement (which also may be herein referred to as "Contract"), including all exhibits and other documents incorporated or referenced in the agreement, constitutes the complete and exclusive statement of the terms and conditions of the agreement between CMAP and Contractor and it supersedes all prior representations, understandings and communications. The invalidity in whole or in part of any term or condition of this Agreement shall not affect the validity of other terms or conditions.

   b. Order of Precedence: Conflicting provisions hereof, if any, shall prevail in the following descending order of precedence: (1) the provisions of the executed contract, including its exhibits; (2) the provisions of the RFQ on which the contract is based including any and all Addendums; (3) the proposal submitted to CMAP by the Contractor in response to said RFQ; and (4) any other documents cited or incorporated herein by reference.

   c. CMAP’s failure to insist in any one or more instances upon the performance of any terms or conditions of this Agreement shall not be construed as a waiver or relinquishment of CMAP’s right to such performance by Contractor or to future performance of such terms or conditions and Contractor's obligation in respect thereto shall continue in full force and effect. Contractor shall be responsible for having taken steps reasonably necessary to ascertain the nature and location of the work, and the general and local conditions that can affect the work or the cost thereof.
Any failure by Contractor to do so will not relieve it from responsibility for successfully performing the work without additional expense to CMAP.

d. CMAP assumes no responsibility for any understanding or representations made by any of its officers, employees or agents prior to the execution of this Agreement, unless such understanding or representations by CMAP are expressly stated in this Agreement.

e. Changes: CMAP may from time to time order work suspension or make any change in the general scope of this Agreement including, but not limited to changes, as applicable, in the drawings, specifications, delivery schedules or any other particular of the description, statement of work or provisions of this Agreement. If any such change causes an increase or decrease in the cost or time required for performance of any part of the work under this Agreement, the Contractor shall promptly notify CMAP thereof and assert its claim for adjustment within thirty (30) days after the change is ordered. A written amendment will be prepared for agreement between CMAP and the Contractor for changes in scope, time and/or costs. No amendments are effective until there is a written agreement that has been signed by both parties. No claim by the Contractor for equitable adjustment hereunder shall be allowed if asserted after final payment under this Agreement.

f. Changes to any portion of this Agreement shall not be binding upon CMAP except when specifically confirmed in writing by an authorized representative of CMAP.

2. Chicago Metropolitan Agency for Planning Designee. Only the Executive Director of CMAP, or designee, shall have the authority to act for and exercise any of the rights of CMAP as set forth in this Agreement, subsequent to and in accordance with the authority granted by CMAP's Board of Directors.

3. Allowable Charges. No expenditures or charges shall be included in the cost of the Project and no part of the money paid to the Contractor shall be used by the Contractor for expenditures or charges that are: (i) contrary to provisions of this Agreement or the latest budget approved by a duly-authorized official of CMAP; (ii) not directly for carrying out the Project; (iii) of a regular and continuing nature, except that of salaries and wages of appointed principal executives of the Contractor who have not been appointed specifically for the purposes of directing the Project, who devote official time directly to the Project under specific assignments, and respecting whom adequate records of the time devoted to and services performed for the Project are maintained by the Contractor may be considered as proper costs of the Project to the extent of the time thus devoted and recorded if they are otherwise in accordance with the provisions hereof; or (iv) incurred without the consent of CMAP after written notice of the suspension or termination of any or all of CMAP’s obligations under this Agreement.

4. Reports and Methods of Payment.

a. Based on services performed, Contractor may submit invoices as frequently as once a month. CMAP is committed to reducing paper use and has established an electronic invoicing system. All invoices are to be submitted through email to:

accounting@cmap.illinois.gov

b. Subject to the conditions of this Agreement, CMAP will honor invoices in amounts deemed by it to be proper to insure the carrying out of the approved scope of services
and shall be obligated to pay the Contractor such amounts as may be approved by CMAP. Invoices shall detail expenses and amount of time spent on CMAP assignments. If an invoice is not acceptable, CMAP shall promptly provide the Contractor a written statement regarding its ineligibility or deficiencies to be eliminated prior to its acceptance and processing.

c. All payments will be transferred electronically to Contractor’s business bank account. The successful Contractor will be requested to provide transfer numbers for the business bank account when the contract is finalized.

5. Audit and Access to Records.

a. The Contractor and its subcontracts under this Agreement shall preserve and produce upon request of the authorized representatives of CMAP all data, records, reports, correspondence and memoranda of every description of the Contractor and its subcontractors, if any, under this Agreement relating to carrying out this Agreement for the purposes of an audit, inspection or work review for a period of three (3) years after completion of the project, except that:

   (1) If any litigation, claim or audit is started before the expiration of three-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved.

   (2) Records for nonexpendable property acquired with federal funds shall be retained for three (3) years after its final disposition.

b. The Contractor shall include in all subcontracts, if any, under this Agreement a provision that CMAP will have full access to and the right to examine any pertinent books, documents, papers, and records of any such subcontractor involving transactions related to the subcontract for three (3) years from the final payment under that subcontract except that:

   (1) If any litigation, claim or audit is started before the expiration of the three-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved.

   (2) Records for nonexpendable property acquired with federal funds shall be retained for three (3) years after its final disposition.

The term “subcontract” as used in this clause excludes purchase orders not exceeding $2,500.

6. Suspension. If the Contractor fails to comply with the special conditions and/or the general terms and conditions of this Agreement, CMAP may, after written notice to the Contractor, suspend the Agreement and withhold further payments or prohibit the Contractor from incurring additional obligations of funds pending corrective action by the Contractor. If corrective action has not been completed within sixty (60) calendar days after service of written notice of suspension, CMAP shall notify the Contractor in writing that the Agreement has been terminated by reason of default in accordance with paragraph 11 hereof. CMAP may determine to allow such necessary and proper costs which the Contractor could not reasonably avoid during the period of suspension provided such costs meet the provisions
of the U.S. Office Management and Budget Circular A-87 in effect on the date first above written.

7. Termination.

a. This Agreement may be terminated in whole or in part in writing by either party in the event of substantial failure (hereinafter termed “Termination by Default”) by the other party to fulfill its obligations under this Agreement through no fault of the terminating party, provided that no such termination may be affected unless the other party is given (i) not less than seven (7) calendar days written notice (delivered by certified mail, return receipt requested) of intent to Termination by Default, and (ii) an opportunity for consultation with the terminating party prior to Termination by Default.

b. This Agreement may be terminated in whole or in part in writing by CMAP for its convenience (hereinafter termed “Termination for Convenience”), provided that the Contractor is given not less than seven (7) calendar days written notice (delivered by certified mail, return receipt requested) of intent to terminate.

c. If Termination by Default is effected by CMAP, an equitable adjustment in the price provided for in this Agreement shall be made, but (i) no amount shall be allowed for anticipated profit on unperformed services or other work, and (ii) any payment due to the Contractor at the time of termination may be adjusted to the extent of any additional costs occasioned to CMAP by reason of the Contractor’s default. If Termination by Default is effected by the Contractor, or if Termination for Convenience is effected by CMAP, the equitable adjustment shall include a reasonable profit for services or other work performed. The equitable adjustment for any termination shall provide payment to the Contractor for services rendered and expenses incurred prior to termination, in addition CMAP may include cost reasonably incurred by the Contractor relating to commitments which had become firm prior to termination.

d. Upon notice of termination action pursuant to paragraphs (a) or (b) of this clause, the Contractor shall (i) promptly discontinue all services affected (unless the notice directs otherwise) and (ii) deliver or otherwise make available to CMAP all data, drawings, specifications, reports, estimates, summaries and such other information and materials as may have been accumulated by the Contractor in performing this Agreement, whether completed or in process.

e. Upon termination pursuant to paragraphs (a) or (b) of this clause, CMAP may take over the work and prosecute the same to completion by agreement with another party otherwise.

f. In the event the Contractor must terminate this Agreement due to circumstances beyond its control, the termination shall be deemed to have been effected for the convenience of CMAP. In such event, adjustment of the price provided for in this Agreement shall be made as provided in paragraph c of this clause.

8. Remedies. Except as may be otherwise provided in this Agreement, all claims, counterclaims, disputes and other matters in question between CMAP and the Contractor arising out of or relating to this Agreement or the breach thereof will be decided by arbitration. If the parties hereto mutually agree, a request for remedy may be sought from a court of competent jurisdiction within the State of Illinois, County of Cook.
9. Equal Employment Opportunity. The Contractor will comply with Executive Order 11246 entitled “Equal Employment Opportunity,” as amended by U.S. Department of Labor regulations (41 CFR Part 60). In connection with the execution of this Agreement, the Contractor shall not discriminate against any employee or an applicant for employment because of race, religion, color, sex, national origin, ancestry, or physical or mental handicap unrelated to ability. The Contractor shall take affirmative actions to insure that applicants are employed and that employees are treated during their employment without regard to their race, religion, color, sex, national origin, ancestry, or physical or mental handicap unrelated to ability. Such actions shall include, but not be limited to, employment, promotion, demotion, transfer, recruitment, recruitment advertising, layoff, termination, rates of pay, other forms of compensation, and selection for training or apprenticeship. The Contractor shall cause the provisions of this paragraph to be inserted into all subcontractors work covered by this Agreement so that such provisions will be binding upon each subcontractor, provided that such provisions shall not apply to contracts or subcontracts for standard commercial supplies or raw materials.

10. Small and Minority Business Enterprise. In connection with the performance of this Agreement the Contractor will cooperate with CMAP in meeting its commitments and goals with respect to the maximum utilization of small business and minority business enterprises, and will use its best efforts to insure that small business and minority business enterprises shall have the maximum practicable opportunity to compete for subcontract work under this Agreement.

11. Political Activity. No portion of funds for this subcontract shall be used for any partisan political activity or to further the election or defeat of any candidate for public office.

12. Prohibited Interest.

a. No officer or employee of CMAP and no member of its governing body and no other public official of any locality in which the Project objectives will be carried out who exercises any functions or responsibilities in the review or approval of the undertaking or carrying out of such objectives shall (i) participate in any decision relating to any subcontract negotiated under this Agreement which affects his personal interest or the interest of any corporation, partnership or association in which he is, directly or indirectly, interested; or (ii) have any financial interest, direct or indirect, in such subcontract or in the work to be performed under such contract.

Specifically, during the period in which federal assistance is extended to the project, or project property is used for a purpose for which the federal assistance is extended or for another purpose involving the provision of similar services or benefits, or as long as the CONTRACTOR retains ownership or possession of the project property, whichever is longer, the CONTRACTOR assures that:

The inability of the CONTRACTOR to certify to the certification in this section will not necessarily result in denial of participation in this Agreement. The CONTRACTOR shall submit an explanation of why it cannot provide the certification in this section. This certification is a material representation of fact upon which reliance was placed when the DEPARTMENT determined whether to enter into this transaction. If it is later determined that the CONTRACTOR knowingly rendered an erroneous certification, in addition to other remedies available to the federal government, the DEPARTMENT may terminate
this Agreement for cause. The CONTRACTOR shall provide immediate written notice to the DEPARTMENT if at any time the CONTRACTOR learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances. The CONTRACTOR agrees that it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible or voluntarily excluded from participation in this covered transaction, unless authorized, in writing, by the DEPARTMENT. The CONTRACTOR agrees that it will include the clause titled “Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction,” provided by the DEPARTMENT, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions. The CONTRACTOR may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible or voluntarily excluded from the covered transaction, unless the CONTRACTOR knows the certification is erroneous. The CONTRACTOR may decide the method and frequency by which it determines the eligibility of its principals. The CONTRACTOR may, but is not required to, check the Non-procurement List. If the CONTRACTOR knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible or voluntarily excluded from participation, in addition to other remedies available to the federal government, the DEPARTMENT may terminate this Agreement for cause or default.

Nothing contained in this section shall be construed to require establishment of a system of records in order to render in good faith the certification required by this section. The knowledge and information of the CONTRACTOR is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

G. Audit Requirements The CONTRACTOR certifies that it will comply with the requirements of 2 CFR Part 200, Subpart F, which sets forth standards for obtaining consistency and uniformity for the audit of non-Federal entities expending Federal awards. (b) Single audit. A non-Federal entity that expends $750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single audit conducted except when it elects to have a program-specific audit.

(c) Program-specific audit election. When an auditee expends Federal awards under only one Federal program (excluding R&D) and the Federal program's statutes, regulations, or the terms and conditions of the Federal award do not require a financial statement audit of the auditee, the auditee may elect to have a program-specific audit. A program-specific audit may not be elected for R&D unless all of the Federal awards expended were received from the same Federal agency, or the same Federal agency
and the same pass-through entity, and that Federal agency, or pass-through entity in the case of a subrecipient, approves in advance a program-specific audit.

(d) **Exemption when Federal awards expended are less than $750,000.** A non-Federal entity that expends less than $750,000 during the non-Federal entity's fiscal year in Federal awards is exempt from Federal audit requirements for that year, except as noted in §200.503 Relation to other audit requirements, but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO).

(e) Except for the provisions for biennial audits provided in paragraphs (a) and (b), audits required by this part must be performed annually. Any biennial audit must cover both years within the biennial period.

(a) A state, local government, or Indian tribe that is required by constitution or statute, in effect on January 1, 1987, to undergo its audits less frequently than annually, is permitted to undergo its audits pursuant to this part biennially. This requirement must still be in effect for the biennial period.

(b) Any nonprofit organization that had biennial audits for all biennial periods ending between July 1, 1992, and January 1, 1995, is permitted to undergo its audits pursuant to this part biennially.

(f) The audit must be completed; the data collection form described in Appendix X to Part 200 and reporting package must be submitted within the earlier of 30 calendar days after receipt of the auditor’s report(s), or nine months after the end of the audit period.

(g) **Reporting package.** The reporting package must include the following:

1. Financial statements and schedule of expenditures of Federal awards discussed in §200.510 Financial statements, paragraphs (a) and (b), respectively;

assistance derived from the U.S. DOT or in the administration of its Disadvantaged Business Enterprise (DBE) program or the requirements of 49 CFR Part 26, as amended. The CONTRACTOR assures that it shall take all necessary and reasonable steps set forth in 49 CFR Part 26, as amended, to ensure nondiscrimination in the award and administration of all third party contracts and subagreements supported with Federal assistance derived from the U.S. DOT. The CONTRACTOR’S DBE program, as required by 49 CFR Part 26, as amended, will be incorporated by reference and made a part of this Agreement for any Federal assistance awarded by FTA or U.S. DOT. Implementation of this DBE program is a legal obligation of the CONTRACTOR, and failure to carry out its terms shall be treated as a violation of the Agreement. Upon notification by the Federal Government or the DEPARTMENT to the CONTRACTOR of its failure to implement its approved DBE program, the U.S. DOT may impose sanctions as provided for under 49 CFR Part 26, as amended, and may in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001, as amended, and/or the Program Fraud Remedies Act, 31 U.S.C. 3801 et seq., as amended.

J. Assurance of Nondiscrimination on the Basis of Disability As required by U.S. DOT regulations, "Nondiscrimination on the Basis of Handicap in Programs and Activities Receiving or Benefiting from Federal Financial Assistance," at 49 CFR 27.9, the CONTRACTOR assures that, as a condition to the approval or extension of any Federal assistance awarded by FTA to construct any facility, obtain any rolling stock or other equipment, undertake studies, conduct research, or to participate in or obtain any benefit from any program administered by FTA, no otherwise qualified person with a disability shall be, solely by reason of that disability, excluded from participation in, denied the benefits of, or otherwise subjected to discrimination in any program or activity receiving or benefiting from Federal assistance administered by the FTA or any entity within U.S. DOT. The CONTRACTOR assures that project implementation and operations so assisted will comply with all applicable requirements of U.S. DOT regulations implementing the Rehabilitation Act of 1973, as amended, 29 U.S.C. 794, et seq., and the Americans with Disabilities Act of 1990, as amended, 42 U.S.C. 12101 et seq., and implementing U.S. DOT regulations at 49 CFR parts 27, 37, and 38, and any applicable regulations and directives issued by other Federal departments or agencies.

The CONTRACTOR certifies that it will include in its contracts financed in whole or in part with FTA assistance all clauses required by Federal laws, executive orders, or regulations, and will ensure that each subrecipient and each contractor will also include in its subagreements and its contracts financed in whole or in part with FTA assistance all applicable clauses required by Federal laws, executive orders, or regulations.
