Annual permitted multifamily units for the City of Chicago, suburban Cook County, and all other CMAP counties

Note: The collar counties include DuPage, Kane, Kendall, Lake, McHenry, and Will Counties. Additionally, the U.S. Census does not provide data on whether multifamily units are for-sale or for-rent. Finally, not all permitted units are built. It is likely that many units permitted just before and during the most recent recession were not constructed.
