- 5.0 ON TO 2050 update**
- 6.0 ON TO 2050: Universe of layers**
One overarching goal of the next plan's development is to provide actionable guidance for implementers by including greater geographic specificity for key policy areas. To that end, staff are seeking to develop a series of "layers" that will use maps, data, and contextual information to provide more specific, sub-regional guidance in ON TO 2050. Staff will provide an overview of and solicit feedback on an initial "universe" of layers for consideration in crafting place-based solutions in the next plan.
ACTION REQUESTED: Discussion
- 7.0 ON TO 2050: Housing supply and affordability strategy paper**
As part of the next plan process, the Housing Committee will be providing CMAP staff with critical feedback during the development of a strategy paper on housing supply and affordability. This is the fourth in a series of discussions about the strategy paper. The

discussion will focus on the memo circulated in advance of the meeting, identifying possible strategies to barriers to housing choice in the region.
