- 5.0 CDOT Signal Interconnect Plan (Abraham Emmanuel)**
CDOT staff will present on its signal interconnect plan for the city. The plan calls for a citywide cellular interconnect to get all traffic signals connected to a new active traffic management system (ATMS).
ACTION REQUESTED: Information & Discussion
- 6.0 Emerging Transportation Technology Strategy Paper (Sam Van Hecke)**
Improvements in technology have the potential to dramatically change our region's transportation system. To determine the most likely impacts of these technologies, with a goal of ultimately incorporating practical yet forward-thinking strategies into ON TO 2050, CMAP contracted with Cambridge Systematics to conduct a study on this subject. At this meeting, the consultant will present and is seeking feedback on preliminary findings from their work, particularly focusing on technologies impacting transportation operations.
ACTION REQUESTED: Information & Discussion

7.0 Highway Traffic Signal Inventory (Aaron Brown)

CMAP, along with our partner agencies, have found the Highway Traffic Signal Inventory a very useful tool for planning activities. CMAP staff will provide a status update on the progress of developing a new highway traffic signal inventory.

ACTION REQUESTED: Information & Discussion

8.0 Truck Origin and Destination Study (Tom Murtha)

To improve CMAP's understanding of how trucks move throughout the region on a daily basis and enhance our freight modelling capabilities, CMAP purchased a truck probe dataset from the American Transportation Research Institute. CMAP staff will show results from a recent study using this dataset.

ACTION REQUESTED: Information & Discussion

9.0 Highway Safety Strategy Paper

To explore how to address the federal safety performance measure rules and how to include safety in ON TO 2050, CMAP is preparing a strategy paper on highway safety. Staff will provide an update on the progress of the strategy paper.
