

ON TO 2050

Alternative Futures: Constrained Resources

CMAP Land Use Committee
April 19, 2017

Five Alternative Futures

- Alternative Futures and ON TO 2050
 - Prioritize strategies
 - Frame issues
 - Educate and engage
- Five futures
 - Walkable communities
 - Constrained resources
 - Changed climate
 - Innovative transportation
 - Transformed economy

Five Alternative Futures

- Alternative Futures and ON TO 2050
 - Prioritize strategies
 - Frame issues
 - Educate and engage
- Five futures
 - **Walkable communities**
 - Constrained resources
 - Changed climate
 - Innovative transportation
 - Transformed economy

Five Alternative Futures

- Alternative Futures and ON TO 2050
 - Prioritize strategies
 - Frame issues
 - Educate and engage
- Five futures
 - Walkable communities
 - **Constrained resources**
 - Changed climate
 - Innovative transportation
 - Transformed economy

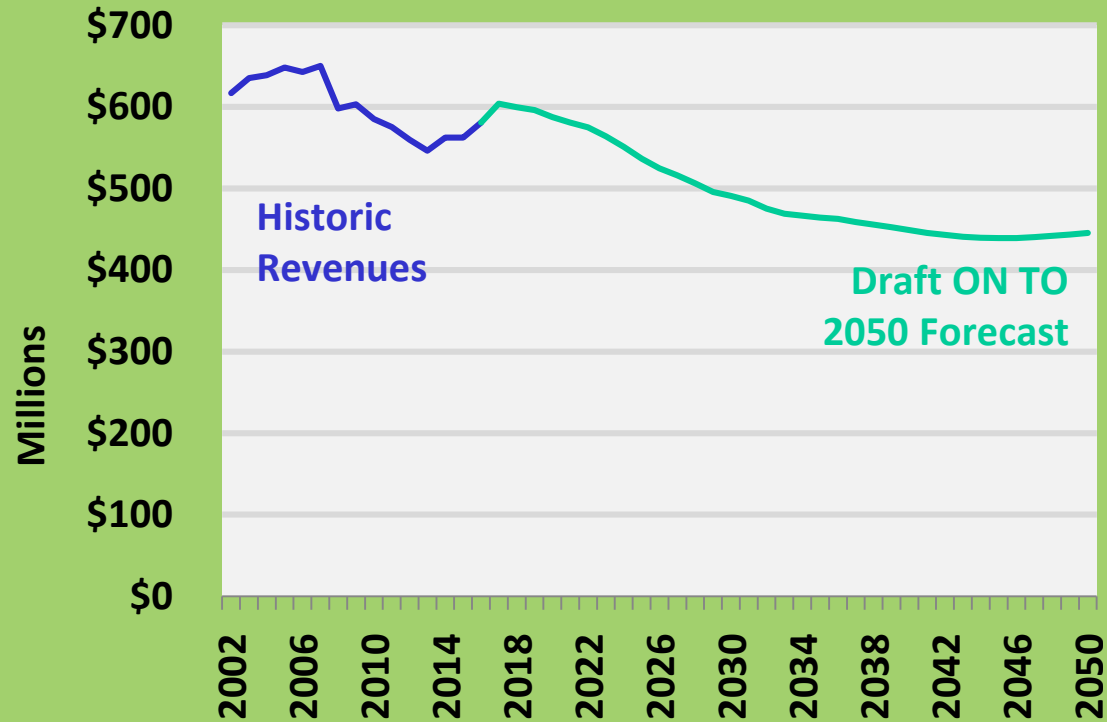

CONSTRAINED RESOURCES

Key Drivers

- **Federal and state sources of funding have stagnated**
- Tax rates have not kept pace with needs or changes

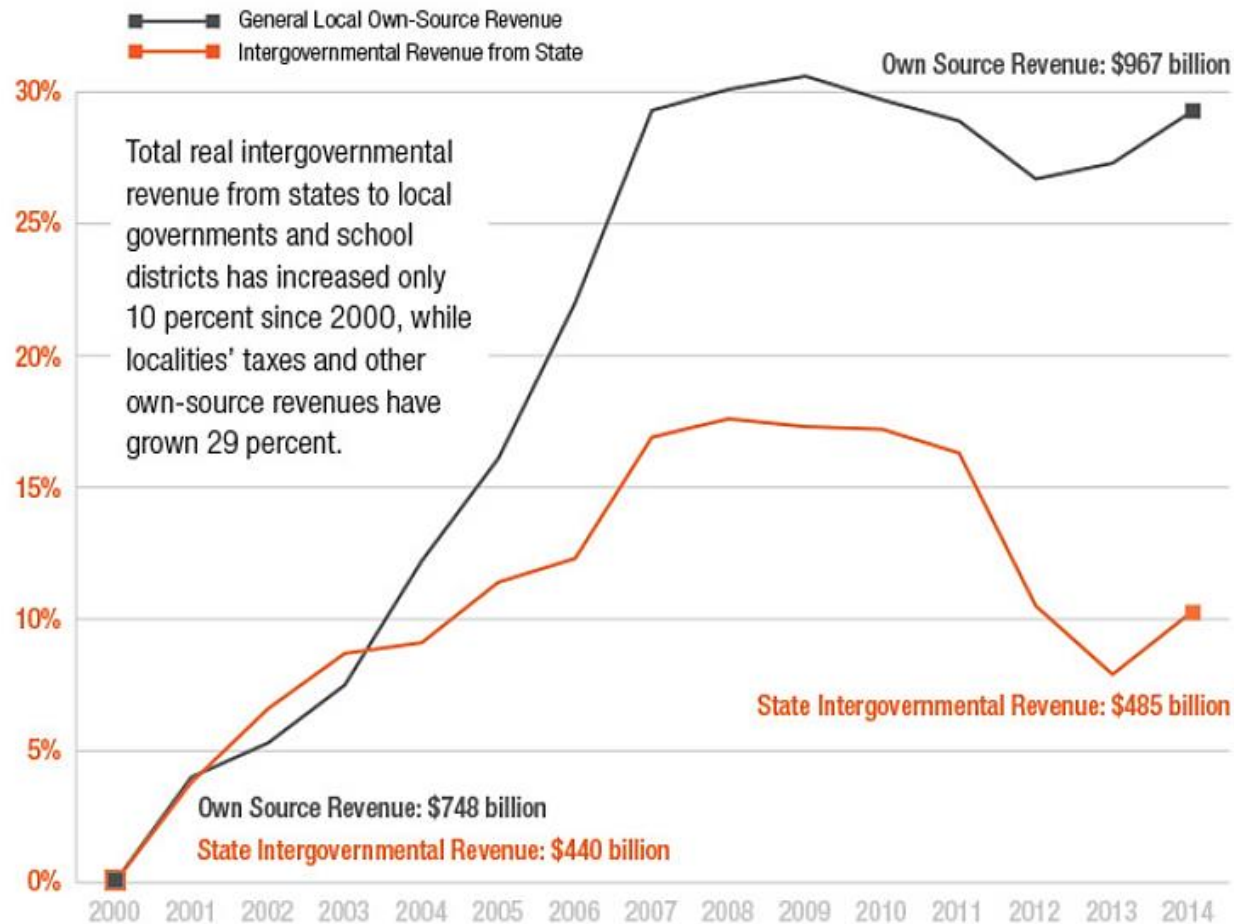

Historic and forecasted state MFT revenues to Northeastern Illinois

Major impacts

- Local agencies rely more heavily on own-source revenues
- Local taxes, fees, licenses, and fines have increased
- Public-private partnerships become more common

HOW LOCALITIES' REVENUES HAVE CHANGED SINCE 2000

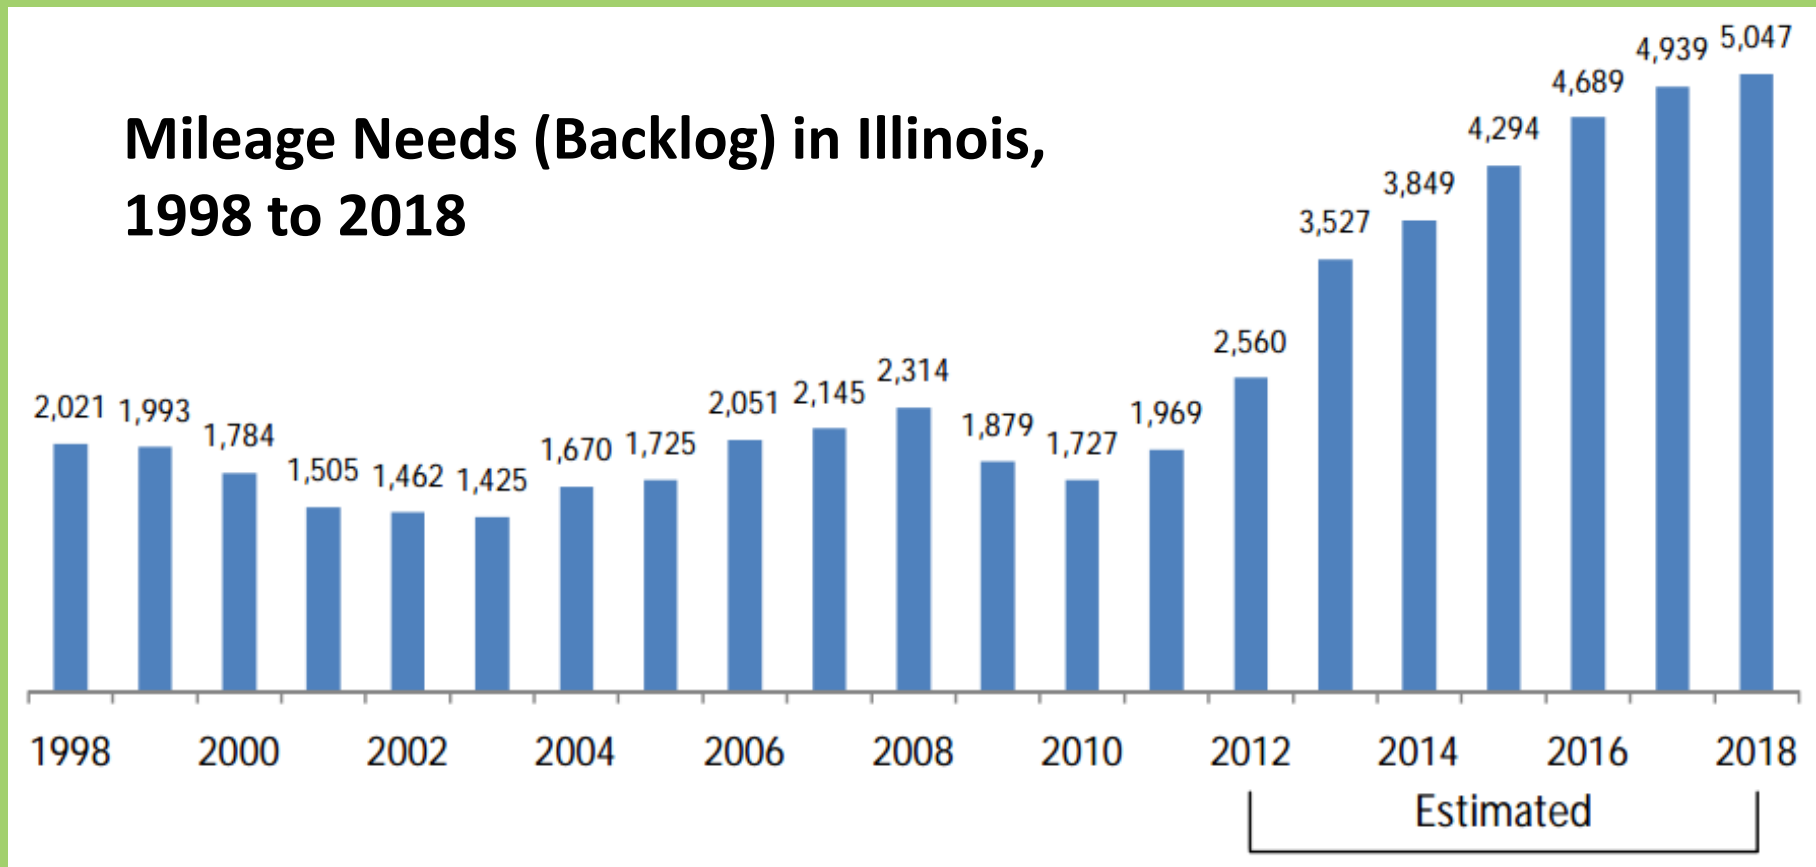

NOTE: Amounts adjusted for inflation

Major impacts:

Negative quality of life effects

- **Transportation infrastructure is in greater state of disrepair**

Major impacts:

Negative quality of life effects

- **Local planning and development** becomes more challenging
- **Regional economy** becomes less competitive
- Protection for **natural resources and climate change resilience** declines
- **Quality of life** comes at a higher price

Major impacts:

Disproportionately impacted communities

- **Communities with low incomes, limited resources, or less capacity will struggle to make ends meet**
 - Infrastructure
 - Community development
 - Affordable housing
 - Human services

Strategies

- Increase efficiency of **existing infrastructure**
- Modernize **transportation system funding**
- Promote **efficient governance** strategies
- Increase **municipal capacity**
- Make strategic **development decisions**

Strategies

- Reform **tax policies** related to sales and property taxes
- Support **economically disconnected** areas and communities experiencing **disinvestment**
- Implement **additional resources** from all sectors

Next steps

November 2016 – June 2017

- Develop alternative futures
 - Constrained Resources memo in spring 2017
- Identify and prioritize strategies
- Prepare for public outreach

April 2017 – August 2017

- Interactive kiosks for all futures
- MetroQuest
 - Constrained Resources survey in spring 2017
- Forums
 - “Doing more with less” in August 2017
- Other outreach activities

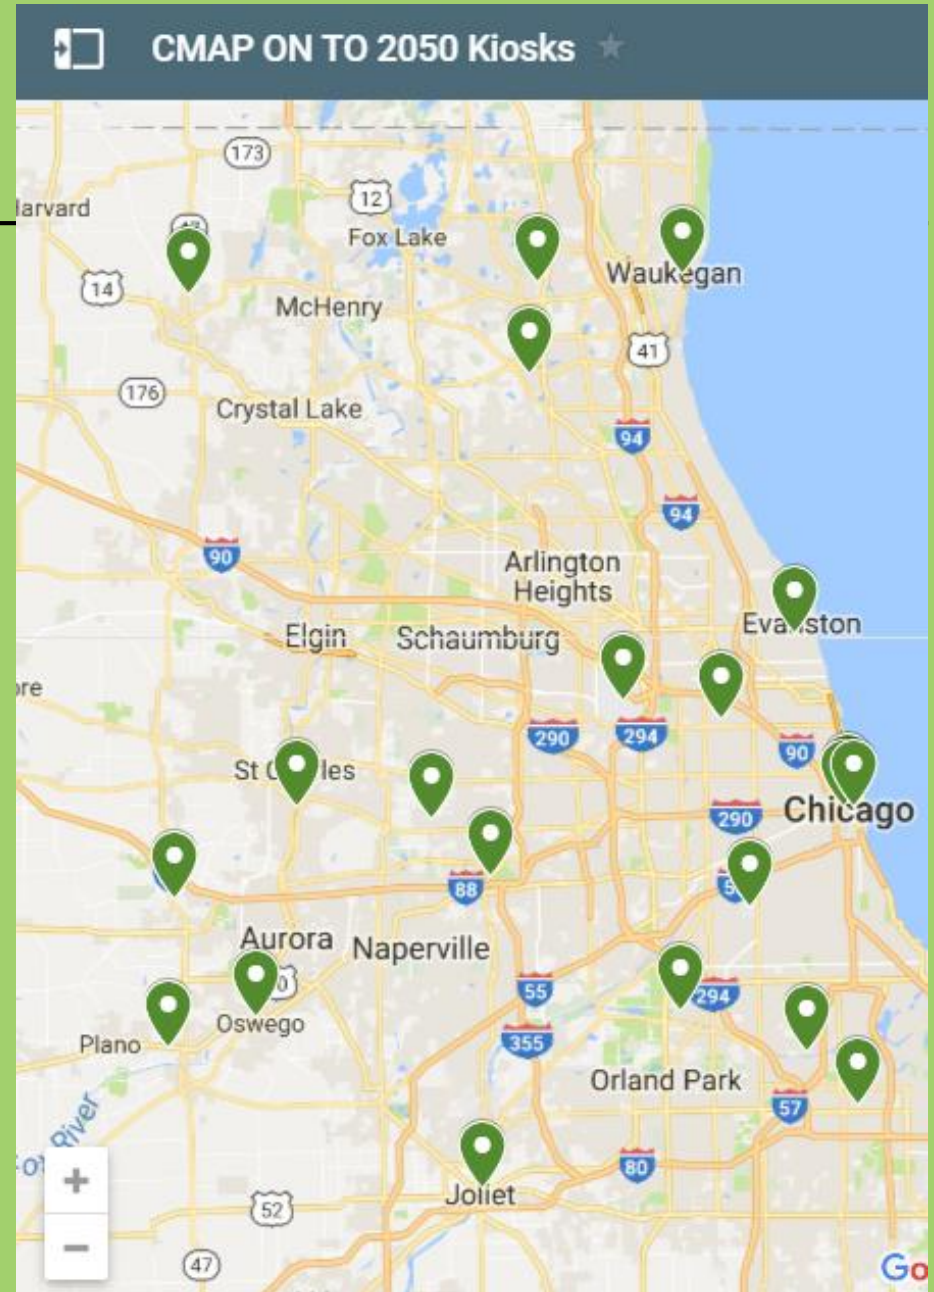

Kiosks and workshops

- Interactive kiosks
- Alternative futures workshops

Interested in hosting a workshop?
Contact Jane Grover
jgrover@cmap.illinois.gov

Location of kiosks:

<http://www.cmap.illinois.gov/onto2050/futures/kiosks>

Upcoming forums

- Thriving in a Changing Climate – April 6
- Where We'll Live in 2050 – May 4
- Harnessing Technology for Future Mobility – June 22
- The Future of Economic Opportunity – July 19
- **Doing More with Less in 2050 – August**

Register at www.cmap.illinois.gov/onto2050

Feedback

- Are there other strategies that we should consider?
- Opportunity to survey informed stakeholders
 - What are some positions or strategies we should ask? (e.g., support for VMT)
