

# Stormwater and Flooding

ON TO 2050 Strategy Paper

CMAP Environment and Natural Resources  
Working Committee

October 5, 2017

# Agenda

- Draft Strategy Paper
- Review process
- Next steps

# Draft Strategy Paper

- Introduction
- Flooding impacts in the Chicago region
- Strategies for reducing flooding impacts
  1. Identify and communicate flooding risk and exposure
  2. Advance planning efforts to reduce current and future risk
  3. Invest and maintain grey and green infrastructure
  4. Increase resiliency of transportation system
  5. Enhance coordination and governance
- Appendix: Regional Flooding Susceptibility Index

# Review Process

- Draft paper can be found on ENR committee webpage
- Asking for ENR committee member comments by **October 12**
- Also seeking comments from additional stakeholders:
  - IDNR, IEPA, ISWS, ILASFM, County stormwater staff, USACE, and members of the Calumet Stormwater Collaborative
- Send comments to Nora
  - [nbeck@cmap.illinois.gov](mailto:nbeck@cmap.illinois.gov) or 312-386-8677

# Next Steps

- Refine draft paper based on comments received
- Release final version later this year/early next year
