## **REQUEST FOR QUALIFICATIONS (RFQ) NO. 154**

### **ADVISORY TRANSPORTATION ENGINEERING SERVICES TO SUPPORT LOCAL TECHNICAL ASSISTANCE (LTA) PROJECTS**

The Chicago Metropolitan Agency for Planning (CMAP) is requesting proposals from interested contractors to provide advice on transportation engineering issues to support Local Technical Assistance (LTA) projects, as described in the enclosed Request for Proposals (RFQ).

CMAP will conduct a non-mandatory pre-bid information session on Wednesday, June 22, at 2:00 p.m. (CST). Consultants may attend in person or by webinar/conference call. To attend in person, call CMAP at 312-454-0400 to be added to the Willis Tower Visitor list. Driver's license or state ID required for entry into the building. To join by webinar/conference call, email me at [Procurements@cmap.illinois.gov](mailto:Procurements@cmap.illinois.gov) requesting RFQ 154 webinar/conference call information. An e-mail with the webinar/conference call information will be sent to all who have registered by noon on Tuesday, June 21.

Participation with the pre-bid discussion is non-mandatory, but is offered as a way to best understand the scope of work we are trying to accomplish. The presentation, questions and responses noted during the pre-bid discussion will be posted on our website with the RFQ.

If your team is qualified and experienced in performing the described services, CMAP would appreciate receiving your proposal as indicated in the RFQ. The deadline for receipt of submissions in response to the RFQ is 3:00 p.m., July 8, 2016.

Thank you, and if you have any questions, please call me at (312) 386-8756.

Sincerely,

Penny DuBernat

**REQUEST FOR PROPOSALS (RFQ) NO. 154  
ADVISORY TRANSPORTATION ENGINEERING SERVICES TO SUPPORT  
LOCAL TECHNICAL ASSISTANCE (LTA) PROJECTS**

*The Chicago Metropolitan Agency for Planning (CMAP) invites appropriate contractors to submit proposals to provide advice on transportation engineering issues to support Local Technical Assistance (LTA) projects, as described in this scope of work. Please read each section carefully for information regarding the proposal and submittal instructions.*

**SECTION 1: Background and General Information**

**About CMAP**

The Chicago Metropolitan Agency for Planning (CMAP) is our region's official comprehensive planning organization. The agency and its partners are developing ON TO 2050, a new comprehensive regional plan to help the seven counties and 284 communities of northeastern Illinois implement strategies that address transportation, housing, economic development, open space, the environment, and other quality-of-life issues. See [www.cmap.illinois.gov](http://www.cmap.illinois.gov) for more information.

**LTA Background**

CMAP is administering this project through its [Local Technical Assistance \(LTA\) program](#), which is designed to implement GO TO 2040, the region's current comprehensive plan, through assistance to local governments. Since the initiation of this program in 2011, CMAP has completed nearly 130 local planning projects, with 45 more currently underway. The purpose of the LTA program, which has been reflected clearly in its products, is to provide assistance to communities across the Chicago metropolitan region to undertake planning projects that advance the principles of GO TO 2040. For each project, CMAP conducts the technical work but coordinates closely with community representatives to ensure that the project reflects local concerns and priorities.

**Project Background**

Several LTA projects would benefit from being supplemented by transportation engineering expertise. In some cases, this would involve an assessment of the feasibility of transportation improvements such as new bicycle and pedestrian facilities in corridors or in specific locations, either during the planning process or as an immediate implementation activity. In others, it would involve preparation of general cost estimates for infrastructure improvements of different types, and in others, it would involve assisting CMAP to understand the results of upcoming major transportation investments on local transportation networks. Each of these activities is described in more detail in Section 2. The LTA program includes a focus on implementation, so it is a high priority for CMAP and the communities that CMAP is assisting to make realistic recommendations for changes to transportation infrastructure.

While CMAP has staff with significant regional transportation planning experience internally, the agency's transportation engineering experience is more limited. The purpose of this RFQ is to select contractors to provide advice on transportation engineering issues to support LTA projects. The phrase used in this RFQ – "advice on transportation engineering issues" – is deliberate, and seeks to clarify that CMAP does not expect detailed engineering work as part of this contract.

**General Information**

As a result of responses to this RFQ, CMAP plans to review submissions and conduct interviews with selected contractors it determines are best qualified to meet the requirements outlined below. Negotiations will be held as necessary to select the contractor(s) that CMAP believes are most qualified based upon its requirements. Subject to "Reservation of Rights" below, it is anticipated that at least three contracts will be awarded for one year in length with two one year options for renewal. It is anticipated that any contracts awarded as a result of this RFQ will be on a task order (PAO) basis.

**SECTION 2: Scope of Project and Procurement Details**

## Scope of Services

This RFQ seeks review and advice on transportation engineering issues for LTA projects that are underway, planned to begin in the near future, or that have recently been completed and are priorities for implementation. These projects are in a variety of settings, from rural areas to established suburban communities to dense urban areas. For each project, the contractor will work directly with CMAP, although interaction with the local project sponsor (typically a municipality) may occasionally be needed as well.

The assistance sought includes five different types of activities. These are each stand-alone activities; that is, they are not necessarily meant to be done in sequence for a single community. CMAP cannot yet specify the communities where each of these activities will be conducted, as this is being determined as the LTA projects advance. In total, CMAP anticipates that the contractor will be asked to take on approximately six to eight projects of the types described below during the first year of this contract.

A description of each activity type is included below. When considering these activity types, contractors should keep in mind that products should be at a suitable level of detail and specificity to include in a comprehensive plan, corridor plan, subarea plan, or similar planning document. In other words, the contractor will not be preparing engineering drawings or materials with a high level of specificity. The phrase used in this RFQ – “advice on transportation engineering issues” – is deliberate, and seeks to clarify that CMAP does not expect detailed engineering work as part of this contract.

1. **Review feasibility of recommendations** for improvements to transportation infrastructure. Many LTA plans recommend transportation infrastructure improvements. These may include use of Complete Streets standards on local roads, pedestrian improvements to address gaps in the pedestrian system, improved accommodation for transit services, improved truck access to industrial areas, conversion of one-way streets to two-way streets, and others. These types of policy recommendations are typically made at the corridor level in LTA plans; for example, a street may be identified as a priority for Complete Streets treatment along a two-mile corridor. The contractor will be asked to review these types of plan recommendations from CMAP staff for general physical feasibility. For example, the contractor could be asked to review whether pavement width is sufficient for addition of bicycle facilities or medians, assess whether improvements could fit within the existing right-of-way or require land acquisition, or perform similar tasks.

The contractor will not be asked to prepare engineering drawings as a part of these activities; instead, this will be a high-level review of feasibility. In all cases, the contractor’s advice will inform CMAP’s planning recommendations only, and it is recognized that actual engineering work will be necessary at later stages of project development, but not as part of these planning projects in this contract.

For activities of this type, CMAP will provide GIS maps of the relevant area and a description of the transportation improvements under consideration. The contractor’s involvement will occur while CMAP is developing recommendations, but before specific recommendations have been made. The contractor will be responsible for gathering additional information and data about the area, which may include conducting site visits and supplementing the data provided by CMAP with local data. The deliverable for activities of this type will take the form of a memo to CMAP which explains the results of the contractor’s review.

2. Assist CMAP to **develop recommended solutions in specific locations**, including specific intersections or sites. In some cases, LTA plans go beyond the corridor-level recommendations described above to focus on specific locations. These may be intersections (or mid-block crossings) that present a particular barrier to pedestrian or bicycle travel, or a large site where redevelopment is desired. In these cases, CMAP may wish to detail a specific improvement as part of the plan. For example, this may include a diagram of improved pedestrian and bicycle facilities at a single intersection, or it may include a site plan that shows access points into a

redevelopment site from an adjacent roadway. The contractor will be asked to lead the preparation of diagrams of this sort, in consultation with CMAP.

As above, the contractor will not be asked to prepare engineering drawings. While these diagrams will be site-specific, they will be used to inform CMAP's planning recommendations only.

For activities of this type, CMAP will provide GIS maps of the specific area, a description of the desired improvements, and in some cases rough sketches of potential improvements. The contractor's involvement will occur while CMAP is developing recommendations, but before specific recommendations have been made. Contractors will be responsible for additional data collection, including site visits and other necessary field work. The final deliverable will be a diagram (or in some cases multiple diagrams) of the proposed treatment of the intersection or site under consideration. The contractor will be asked to prepare sketch versions of the diagrams for discussion with CMAP before finalizing. Ultimately, the diagrams are expected to be included in the final plan, so they will need to be prepared at a sufficiently high level of graphic quality.

3. Following plan completion, assist CMAP to **develop recommended solutions that build on plan recommendations**. Assignments in these cases will be similar to those listed as part of the second task, above. However, for these projects, the assignments will occur following plan adoption, as part of a short-term implementation activity to add more detail to a recommendation in the plan. Often, this will be done to assist the local sponsor in preparing to submit a grant application.
4. **Develop generalized cost estimates** for recommended infrastructure improvements. LTA plans often recommend infrastructure improvements of various types, such as off-street bicycle trails, sidewalks, intersection improvements, and others. In some cases, it would be useful to the community to have a general sense of the expected cost of the recommended improvements. The contractor will be asked to review general recommendations for infrastructure improvements and develop "ballpark" cost estimates. These are expected to be quite generalized and based on unit costs rather than a detailed examination of local conditions; again, contractors should keep in mind that these will likely be included as an appendix to a comprehensive plan, corridor plan, downtown plan, or similar planning document.

For activities of this type, CMAP will provide the contractor with GIS maps of the relevant area and a description of the recommended infrastructure improvements. The contractor's involvement will occur at a fairly late stage in the project, after CMAP has developed recommendations and confirmed them with the local sponsor. The final deliverable will be a table that shows the estimated cost for each infrastructure improvement as well as the assumptions that went into the cost estimation.

5. **Review expected impact of planned infrastructure improvements** on local conditions. Some LTA plans occur in communities where major transportation investments are being planned by IDOT, the Tollway, Metra, CTA, CDOT, freight railroads, or other agencies. In these cases, the upcoming transportation investment may have significant impacts on local transportation networks which should influence the recommendations of the LTA plan. When CMAP identifies this as an issue, the contractor will be asked to review the planned investment and provide some insight and discussion into possible local impacts. Quantitative analysis and detailed study by the contractor will not be expected. The contractor's involvement will occur early in the project, as CMAP is identifying key issues for the LTA plan to address. Activities of this type will involve discussions with CMAP staff but will not be expected to produce a formal deliverable.

Contractors should demonstrate their qualifications to assist in each of the types of activities described above. Please see Section 3, Submittal Requirements, for more detail on how contractors should demonstrate their qualifications in their submittals.

Please note that contractors are not expected, as part of this RFQ, to propose a total cost for each activity described above. Actual scope, budget and timeline for any activity will be developed on a task order basis using the hourly rates submitted in response to each individual PAO request. However, as noted in Section 3, Submittal Requirements, CMAP requests that contractors provide several examples of past work that is similar to each activity described above, including an estimate of the cost of each.

### **Selection Process and Schedule**

June 17:	Release RFQ
June 22:	Non-mandatory pre-bid information session/phone call at CMAP
July 8:	Proposals due
July:	Interview finalists
August-September:	Consultant selection and contracting

### **Proposal Evaluation**

All proposals submitted in response to this request for proposals will be analyzed for completeness and qualifications. CMAP will select no less than three firms which it determines to be the most qualified to provide services for the project and rank them in order of qualifications to provide services regarding each specific project type. The following criteria will be used in evaluating proposals:

1. The demonstrated record of experience of the contractor as well as identified staff in providing advice on transportation engineering issues as identified in this scope of work.
2. The quality of the narrative describing the approach to the five types of projects described in the scope of services.
3. The experience of the firm in conducting similar projects in a variety of geographic contexts and for a variety of transportation modes, as indicated through the quality and relevance of the examples of similar work.
4. The reputation of the firm or organization based on references.

All timely responses received to this scope of work will be reviewed and interviews may be conducted with selected submitters CMAP determines can best meet the above requirements. An internal CMAP committee will make the consultant selection decision.

For each individual project, CMAP shall prepare a written description of the scope of the proposed services to be used as a basis for negotiations and shall negotiate a PAO with the most qualified contractor at compensation that CMAP determines to be fair and reasonable. If CMAP is unable to negotiate a satisfactory PAO with the most qualified contractor which it deems most qualified, negotiations with that contractor will be terminated. CMAP shall then begin negotiations with the next best qualified consultant(s) until a satisfactory agreement has been reached.

## SECTION 3: Submittal Requirements

**Proposals must be received at CMAP on or before 3:00 p.m. Friday July 8, 2016**

Submissions should be submitted in the order presented:

1. Identify the contractor team that will be involved in this project. Clearly identify the project manager, and specify the role of subcontractors. Provide a description of your firm's structure, experience, services and staff, along with similar descriptions for any proposed subcontractors.
2. Provide a description of the firm's qualifications to provide advice on transportation engineering issues as described in the Scope of Services in Section 2. Identify the key staff involved in each activity, clearly describing qualifications and experience.
3. Include a narrative describing the general approach that the firm would take to complete the activities outlined in the Scope of Services in Section 2. The firm should also provide a general description of its work process with clients related to work of this type. In this section, contractors should describe their experience working on a task order basis with public sector clients.

Each activity will require a separate narrative describing the contractor's approach, as each should use a distinct process. Each narrative should:

- Describe approximate estimates of the length of time involved to complete the activity and identify the relevant staff to be involved. The expectations for the type of information that CMAP will provide to the contractor are specified in the activity descriptions in the Scope of Services in Section 2 above; contractors should indicate within their narrative whether any additional information from CMAP will be necessary. Be clear about when and how coordination with CMAP staff will occur within each process.
  - Provide at least two to three examples of the consultant's experience in each type of activity. Describe the consultant's contributions clearly, and specify the client for each, the date prepared, and the overall project that the consultant's work supported. Estimate approximate cost for each example that is supplied, focusing on the cost of the consultant's contributions, not the overall cost of the larger project. Please note that estimation of cost for each example is very important, and do not neglect to include this. While cost may be difficult to calculate for some complex multi-part projects, CMAP requests that a rough estimate be included. Please note that this request is for two to three examples for each of the five types of activities, meaning that ten to fifteen examples should be supplied in total.
  - Identify the staff who would be involved in each type of activity, and describe their qualifications. Also identify any fixed costs that are likely to occur as part of any activity related to this contract.
4. Provide at least three references, including individual contact name, name of company and phone number, that CMAP staff may contact regarding the contractor's qualifications to undertake this project.
  5. Sign and submit the "Certificate Regarding Workers' Compensation Insurance," Attachment 2, the "Information to be provided by Bidder," Attachment 3, and "Certification for Contracts, Grants, Loans, and Cooperative Agreements," Attachment 4.

### **Submission of Proposals**

Proposals must be submitted to CMAP no later than 3:00 p.m. July 8, 2016. Three (3) paper copies of all proposals as well as one (1) electronic version in PDF format on CD ROM or other digital media, must be submitted no later than 3:00 p.m. on Friday, July 8, 2016. Submissions must be in a sealed package or envelope. The applicant's organization name and address shall appear in the upper left corner of the package.

Submission of RFQ by fax or e-mail is not acceptable. Submissions may be delivered to CMAP in person or sent (by U.S. Postal Service or other reliable means) to the following address:

Chicago Metropolitan Agency for Planning  
Attn: Procurement Officer  
Response to RFQ No. 154  
233 S. Wacker Drive, Suite 800  
Chicago, IL 60606

There will be no public opening for this RFQ. Late submissions will be rejected and returned unopened. Questions may be referred to Penny DuBernat, (312) 386-8756 or Email: [pdubernat@cmapp.illinois.gov](mailto:pdubernat@cmapp.illinois.gov).

## **SECTION 4: Contractual Agreement and Rights**

### **Contractual Agreement**

The contract CMAP anticipates awarding as a result of this RFQ and subsequent rate submissions and negotiations, if any, will indicate the service requirements, time periods involved and applicable hourly rates. In addition, it will include the General Provisions, Section 5 hereto, and Special Provisions, Section 6 hereto, which will apply to the contract.

### **Reservation of Rights**

CMAP reserves the following rights if using them will be more advantageous to CMAP:

- 1) Withdraw this RFQ at any time without prior notice.
- 2) Accept or reject any and all submissions, or any item or part thereof
- 3) Postpone qualifications due date.
- 4) Not award a contract to any submitter responding to this RFQ.
- 5) Award a contract without negotiations or discussions.

Contractors who are or have been seriously deficient in current or recent contract performance in the absence of evidence to the contrary or circumstances properly beyond the control of the Contractor shall be presumed to be unable to meet these requirements. Past unsatisfactory performance will ordinarily be sufficient to justify a finding of non-responsibility.

## **SECTION 5: General Provisions**

**The following provisions apply to the solicitation to which this section is attached and to any contract that results from the solicitation.** Signatories of this Agreement certify that these conditions and procedures and terms and the conditions and procedures specific to this project will be adhered to unless amended in writing.

1) Complete Agreement.

- a) This Agreement (which also may be herein referred to as "Contract"), including all exhibits and other documents incorporated or referenced in the agreement, constitutes the complete and exclusive statement of the terms and conditions of the agreement between CMAP and Contractor and it supersedes all prior representations, understandings and communications. The invalidity in whole or in part of any term or condition of this Agreement shall not affect the validity of other terms or conditions.
- b) Order of Precedence: Conflicting provisions hereof, if any, shall prevail in the following descending order of precedence: (1) the provisions of the executed contract, including its exhibits; (2) the provisions of the RFQ on which the contract is based including any and all Addendums; (3) the proposal submitted to CMAP by the Contractor in response to said RFQ; and (4) any other documents cited or incorporated herein by reference.
- c) CMAP's failure to insist in any one or more instances upon the performance of any terms or conditions of this Agreement shall not be construed as a waiver or relinquishment of CMAP's right to such performance by Contractor or to future performance of such terms or conditions and Contractor's obligation in respect thereto shall continue in full force and effect. Contractor shall be responsible for having taken steps reasonably necessary to ascertain the nature and location of the work, and the general and local conditions that can affect the work or the cost thereof. Any failure by Contractor to do so will not relieve it from responsibility for successfully performing the work without additional expense to CMAP.
- d) CMAP assumes no responsibility for any understanding or representations made by any of its officers, employees or agents prior to the execution of this Agreement, unless such understanding or representations by CMAP are expressly stated in this Agreement.
- e) Changes: CMAP may from time to time order work suspension or make any change in the general scope of this Agreement including, but not limited to changes, as applicable, in the drawings, specifications, delivery schedules or any other particular of the description, statement of work or provisions of this Agreement. If any such change causes an increase or decrease in the cost or time required for performance of any part of the work under this Agreement, the Contractor shall promptly notify CMAP thereof and assert its claim for adjustment within thirty (30) days after the change is ordered. A written amendment will be prepared for agreement between CMAP and the Contractor for changes in scope, time and/or costs. No amendments are effective until there is a written agreement that has been signed by both parties. No claim by the Contractor for equitable adjustment hereunder shall be allowed if asserted after final payment under this Agreement.
- f) Changes to any portion of this Agreement shall not be binding upon CMAP except when specifically confirmed in writing by an authorized representative of CMAP.
- g) For its convenience, CMAP reserves the right to extend the Term of this agreement. Any changes to the Term of this Agreement shall not be binding until specifically confirmed in writing by authorized representatives of both parties.

2) Chicago Metropolitan Agency for Planning Designee. Only the Executive Director of CMAP, or designee, shall have the authority to act for and exercise any of the rights of CMAP as set forth in this Agreement, subsequent to and in accordance with the authority granted by CMAP's Board of Directors.

- 3) Compliance/Governing Law. The terms of this Agreement shall be construed in accordance with the laws of the State of Illinois. Any obligations and services performed under this Agreement shall be performed in compliance with all applicable state and federal laws.
- 4) Availability of Appropriation (30 ILCS 500/20-60). This Agreement is contingent upon and subject to the availability of funds. CMAP, at its sole option, may terminate or suspend this Agreement, in whole or in part, without penalty or further payment being required, if the Illinois General Assembly, the state funding source, or the federal funding source fails to make an appropriation sufficient to pay such obligation, or if funds needed are insufficient for any reason. CONTRACTOR will be notified in writing of the failure of appropriation or of a reduction or decrease.
- 5) Allowable Charges. No expenditures or charges shall be included in the cost of the Project and no part of the money paid to the Contractor shall be used by the Contractor for expenditures or charges that are: (i) contrary to provisions of this Agreement or the latest budget approved by a duly-authorized official of CMAP; (ii) not directly for carrying out the Project; (iii) of a regular and continuing nature, except that of salaries and wages of appointed principal executives of the Contractor who have not been appointed specifically for the purposes of directing the Project, who devote official time directly to the Project under specific assignments, and respecting whom adequate records of the time devoted to and services performed for the Project are maintained by the Contractor may be considered as proper costs of the Project to the extent of the time thus devoted and recorded if they are otherwise in accordance with the provisions hereof; or (iv) incurred without the consent of CMAP after written notice of the suspension or termination of any or all of CMAP's obligations under this Agreement.
- 6) Method of Payment.

Project expenditures are paid directly from federal and/or state funds. Because CMAP is responsible for obtaining federal reimbursement for project expenditures, it is necessary that CMAP monitor all procedures and documents which will be used to claim and support project-related expenditures. The following procedures should be observed to secure payment:

- a) Based on services performed, Contractor may submit invoices as frequently as once a month. CMAP is committed to reducing paper use and has established an electronic invoicing system. All invoices are to be submitted through email to:

[accounting@cmmap.illinois.gov](mailto:accounting@cmmap.illinois.gov)

All invoices shall be signed by an authorized representative of the CONTRACTOR

- b) Subject to the conditions of this Agreement, CMAP will honor invoices in amounts deemed by it to be proper to insure the carrying out of the approved scope of services and shall be obligated to pay the Contractor such amounts as may be approved by CMAP. Invoices shall detail expenses and amount of time spent on CMAP assignments. If an invoice is not acceptable, CMAP shall promptly provide the Contractor a written statement regarding its ineligibility or deficiencies to be eliminated prior to its acceptance and processing. All invoices for services performed and expenses incurred by CONTRACTOR for the services of this Agreement must be presented to CMAP no later than fifteen (15) days after the end of this Agreement. Notwithstanding any other provision of this Agreement, CMAP shall not be obligated to make payment to CONTRACTOR on invoices presented after said date. No payments will be made for services performed prior to the effective date of this Agreement. All payments will be transferred electronically to Contractor's business bank account. The successful Contractor will be requested to provide transfer numbers for the business bank account when the contract is finalized.

- 7) Audits. The records and supportive documentation for all completed projects are subject to an on-site audit by CMAP. CMAP reserves the right to inspect and review, during normal working hours, the work papers of the independent auditor in support of their audit report.
- 8) Access to Records.
  - a) The Contractor and its subcontracts under this Agreement shall preserve and produce upon request of the authorized representatives of CMAP all data, records, reports, correspondence and memoranda of every description of the Contractor and its subcontractors, if any, under this Agreement relating to carrying out this Agreement for the purposes of an audit, inspection or work review for a period of three (3) years after completion of the project, except that:
    - i) If any litigation, claim or audit is started before the expiration of three-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved.
    - ii) Records for nonexpendable property acquired with federal funds shall be retained for three (3) years after its final disposition.
  - b) The Contractor shall include in all subcontracts, if any, under this Agreement a provision that CMAP will have full access to and the right to examine any pertinent books, documents, papers, and records of any such subcontractor involving transactions related to the subcontract for three (3) years from the final payment under that subcontract except that:
    - i) If any litigation, claim or audit is started before the expiration of the three-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved.
    - ii) Records for nonexpendable property acquired with federal funds shall be retained for three (3) years after its final disposition.

The term "subcontract" as used in this clause excludes purchase orders not exceeding \$2,500.

9) Cost Category Transfer Request.

Notification to CMAP is required for transfers among appropriated cost categories which exceed 15% of the line item. No transfer of funds can exceed the total Agreement. The CONTRACTOR must submit a written report (form provided by CMAP) to CMAP detailing the amount of transfer, the cost categories from and to which the transfer is to be made, and rationale for the transfer.

- 10) Procurement Procedures. All procurement transactions for Contractual Services, Commodities and Equipment shall be conducted in a manner that provides maximum open and free competition. The CONTRACTOR shall also meet the following minimum procedural requirements.
  - a. Subcontracting: Subcontracting, assignment or transfer of all or part of the interests of the CONTRACTOR concerning any of the obligations covered by this Agreement is prohibited without prior written consent of CMAP.
  - b. Procurement of Goods or Services: For purchases of products or services with any Agreement funds that cost more than \$3,000 but less than the simplified acquisition threshold fixed at 41 U.S.C. 403 (11), (currently set at \$100,000), the CONTRACTOR shall obtain price or rate quotations from an adequate number (at least three) of qualified sources. Procurement of products or services with any Agreement funds that are in excess of \$100,000 will require the CONTRACTOR to use the Invitation for Bid process or the Request for Proposal process. In the absence of formal codified procedures of the CONTRACTOR, the procedures of CMAP will be used, provided that the procurement procedures conform to the provisions in (K) below. The CONTRACTOR may only

procure products or services from one source with any Agreement funds if: (1) the products or services are available only from a single source; or (2) CMAP authorizes such a procedure; or (3) after solicitation of a number of sources, competition is determined inadequate.

- c. Records. The CONTRACTOR shall maintain records sufficient to detail the significant history of procurements. These records shall include, but are not necessarily limited to: information pertinent to rationale for the method of procurement, selection of contract type, contractor selection or rejection, and basis for the cost or price.
- d. No CONTRACTOR employee shall participate in the procurement of products or services if a conflict of interest, real or apparent, would be involved. No employee shall solicit or accept anything of monetary value from bidders or suppliers.

11) Equipment Inventory. An inventory of non-expendable personal property having a useful life of more than two years and an acquisition cost of \$500 or more is subject to periodic inspection by CMAP.

12) Suspension. If the Contractor fails to comply with the special conditions and/or the general terms and conditions of this Agreement, CMAP may, after written notice to the Contractor, suspend the Agreement and withhold further payments or prohibit the Contractor from incurring additional obligations of funds pending corrective action by the Contractor. If corrective action has not been completed within sixty (60) calendar days after service of written notice of suspension, CMAP shall notify the Contractor in writing that the Agreement has been terminated by reason of default in accordance with paragraph 11 hereof. CMAP may determine to allow such necessary and proper costs which the Contractor could not reasonably avoid during the period of suspension provided such costs meet the provisions of the U.S. Office Management and Budget 2 CFR 200 in effect on the date first above written.

13) Termination.

- a. This Agreement may be terminated in whole or in part in writing by either party in the event of substantial failure (hereinafter termed "Termination by Default") by the other party to fulfill its obligations under this Agreement through no fault of the terminating party, provided that no such termination may be affected unless the other party is given (i) not less than seven (7) calendar days written notice (delivered by certified mail, return receipt requested) of intent to Termination by Default, and (ii) an opportunity for consultation with the terminating party prior to Termination by Default.
- b. This Agreement may be terminated in whole or in part in writing by CMAP for its convenience (hereinafter termed "Termination for Convenience"), provided that the Contractor is given not less than seven (7) calendar days written notice (delivered by certified mail, return receipt requested) of intent to terminate.
- c. If Termination by Default is effected by CMAP, an equitable adjustment in the price provided for in this Agreement shall be made, but (i) no amount shall be allowed for anticipated profit on unperformed services or other work, and (ii) any payment due to the Contractor at the time of termination may be adjusted to the extent of any additional costs occasioned to CMAP by reason of the Contractor's default. If Termination by Default is effected by the Contractor, or if Termination for Convenience is effected by CMAP, the equitable adjustment shall include a reasonable profit for services or other work performed. The equitable adjustment for any termination shall provide payment to the Contractor for services rendered and expenses incurred prior to termination, in addition CMAP may include cost reasonably incurred by the Contractor relating to commitments which had become firm prior to termination.
- d. Upon notice of termination action pursuant to paragraphs (a) or (b) of this clause, the Contractor shall (i) promptly discontinue all services affected (unless the notice directs otherwise) and (ii) deliver or otherwise make available to CMAP all data, drawings, specifications,

reports, estimates, summaries and such other information and materials as may have been accumulated by the Contractor in performing this Agreement, whether completed or in process.

- e. Upon termination pursuant to paragraphs (a) or (b) of this clause, CMAP may take over the work and prosecute the same to completion by agreement with another party otherwise.
  - f. In the event the Contractor must terminate this Agreement due to circumstances beyond its control, the termination shall be deemed to have been effected for the convenience of CMAP. In such event, adjustment of the price provided for in this Agreement shall be made as provided in paragraph c of this clause.
- 14) Remedies. Except as may be otherwise provided in this Agreement, all claims, counterclaims, disputes and other matters in question between CMAP and the Contractor arising out of or relating to this Agreement or the breach thereof will be decided by arbitration. - F. Debarment** The Contractor shall comply with Debarment provisions as contained in 2 CFR Part 1200, as amended. The Contractor certifies that to the best of its knowledge and belief, the Contractor and the Contractor's principals: a) are not presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from covered transactions by any federal department or agency; b) within a three-year period preceding this Agreement have not been convicted of or had a civil judgment rendered against it for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain or performing a public (federal, state or local) transaction or contract under a public transaction, violation of federal or state anti-trust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements or receiving stolen property; c) are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (federal, state or local) with commission of any of the offenses enumerated in subsection (b), above; and d) have not within a three-year period preceding this Agreement had one or more public transactions (federal, state or local) terminated for cause or default.

The inability of the Contractor to certify to the certification in this section will not necessarily result in denial of participation in this Agreement. The Contractor shall submit an explanation of why it cannot provide the certification in this section. This certification is a material representation of fact upon which reliance was placed when CMAP determined whether to enter into this transaction. If it is later determined that the Contractor knowingly rendered an erroneous certification, in addition to other remedies available to the federal government, CMAP may terminate this Agreement for cause. The Contractor shall provide immediate written notice to CMAP if at any time the Contractor learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this Part shall have the meaning set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549.

The Contractor agrees that it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible or voluntarily excluded from participation in this covered transaction, unless authorized, in writing, by CMAP. The Contractor agrees that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," provided by CMAP, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions. The Contractor may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible or voluntarily excluded from the covered transaction, unless the Contractor knows the certification is erroneous. The Contractor may decide the method and frequency by which it determines the eligibility of its principals. The Contractor may, but is not required to, check the Non-procurement List. If the Contractor knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible or voluntarily excluded from participation, in addition to other remedies available to the federal government, CMAP may terminate this Agreement for cause or default.

Nothing contained in this section shall be construed to require establishment of a system of records in order to render in good faith the certification required by this section. The knowledge and information of the Contractor is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(b) *Single audit.* A non-Federal entity that expends \$750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single audit conducted except when it elects to have a program-specific audit.

(c) *Program-specific audit election.* When an auditee expends Federal awards under only one Federal program (excluding R&D) and the Federal program's statutes, regulations, or the terms and conditions of the Federal award do not require a financial statement audit of the auditee, the auditee may elect to have a program-specific audit. A program-specific audit may not be elected for R&D unless all of the Federal awards expended were received from the same Federal agency, or the same Federal agency and the same pass-through entity, and that Federal agency, or pass-through entity in the case of a subrecipient, approves in advance a program-specific audit.

(d) *Exemption when Federal awards expended are less than \$750,000.* A non-Federal entity that expends less than \$750,000 during the non-Federal entity's fiscal year in Federal awards is exempt from Federal audit requirements for that year, except as noted in §200.503 Relation to other audit requirements, but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO).

(e) Except for the provisions for biennial audits provided in paragraphs (a) and (b), audits required by this part must be performed annually. Any biennial audit must cover both years within the biennial period.

(a) A state, local government, or Indian tribe that is required by constitution or statute, in effect on January 1, 1987, to undergo its audits less frequently than annually, is permitted to undergo its audits pursuant to this part biennially. This requirement must still be in effect for the biennial period.

(b) Any nonprofit organization that had biennial audits for all biennial periods ending between July 1, 1992, and January 1, 1995, is permitted to undergo its audits pursuant to this part biennially.

(f) The audit must be completed; the data collection form described in Appendix X to Part 200 and reporting package must be submitted within the earlier of 30 calendar days after receipt of the auditor's report(s), or nine months after the end of the audit period.

(g) *Reporting package.* The reporting package must include the following:

(1) Financial statements and schedule of expenditures of Federal awards discussed in §200.510 Financial statements, paragraphs (a) and (b), respectively;

CMAP's DBE program, as required by 49 CFR Part 26, as amended, will be incorporated by reference and made a part of this Agreement for any Federal assistance awarded by FTA or U.S. DOT. Implementation of this DBE program is a legal obligation of the Contractor, and failure to carry out its terms shall be treated as a violation of the Agreement. Upon notification by the Federal Government or CMAP to the Contractor of its failure to implement its approved DBE program, the U.S. DOT may impose sanctions as provided for under 49 CFR Part 26, as amended, and may in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001, as amended, and/or the Program Fraud Remedies Act, 31 U.S.C. 3801 *et seq.*, as amended.

**J. Assurance of Nondiscrimination on the Basis of Disability** As required by U.S. DOT regulations, "Nondiscrimination on the Basis of Handicap in Programs and Activities Receiving or Benefiting from Federal Financial Assistance," at 49 CFR 27.9, the Contractor assures that, as a condition to the approval or extension of any Federal assistance awarded by FTA to construct any facility, obtain any rolling stock or other equipment, undertake studies, conduct research, or to participate in or obtain any benefit from any program administered by FTA, no otherwise qualified person with a disability shall be, solely by reason of that disability, excluded from participation in, denied the benefits of, or otherwise subjected to discrimination in any program or activity receiving or benefiting from Federal assistance administered by the FTA or any entity within U.S. DOT.
