REQUEST FOR PROPOSALS (RFP) NO. 210 FROM CONSULTING FIRMS FOR A MASTER PLAN FOR THE ILLINOIS INTERNATIONAL PORT DISTRICT

The Chicago Metropolitan Agency for Planning (CMAP) invites consultants to submit proposals for a Master Plan for the Illinois International Port District, as described in this scope of work. Please read each section carefully for information regarding the proposal and submittal instructions.

SECTION 1: Background and General Information

About CMAP

The Chicago Metropolitan Agency for Planning (CMAP) is the Chicago region's official comprehensive planning organization. The agency and its partners developed ON TO 2050, a new comprehensive regional plan to help the seven counties and 284 communities of northeastern Illinois implement strategies that support inclusive growth, resilience, and prioritized investment in the region. See www.cmap.illinois.gov/ONTO2050 for more information about agency priorities.

Local Technical Assistance Program

CMAP is administering this project through its [Local Technical Assistance \(LTA\) program](#), which is designed to implement the ON TO 2050 Comprehensive Regional Plan through assistance to local governments and other eligible entities. Since the initiation of the LTA program in 2011, CMAP has initiated more than 200 planning projects with local governments, nonprofits, and intergovernmental organizations to address local issues at the intersection of transportation, land use, environment, economic growth, and community development. Current projects advance the ON TO 2050 principles of resilience, inclusive growth, and prioritized investment.

General Information

Funding for this project is being provided by the Illinois Department of Transportation (IDOT) through the [Statewide Planning and Research \(SPR\) program](#). SPR investments advance IDOT's [Long Range Transportation Plan \(LRTP\)](#). The selected consultant is expected to adhere to any requirements of this federal funding program.

The SPR grant awarded to CMAP for this project is in the amount of \$300,000; however, this is a maximum budget and firms should produce a project proposal which reflects the scope of work proposed. The contract for this project is expected to be approximately twenty-four months in length. The selected consultant will work under the direction of CMAP, but is expected to interact frequently with IIPD and stakeholders through a steering committee. The final deliverable must be consistent with the Illinois International Port District Act ([70 ILCS 1810/](#)) and approved by the Illinois Department of Natural Resources ([70 ILCS 1810/4a](#)), as well as the principles, goals and strategies outlined in ON TO 2050.

As a result of responses to this RFP, CMAP and project partners (IIPD, IDOT, and the Illinois Department of Natural Resources (IDNR)) will review submissions and conduct interviews with selected consultants the agency and project partners determine can best meet the requirements outlined below. Negotiations will be held on both the scope and the cost to select the consultant that CMAP and project partners believe can best satisfy its requirements at reasonable rates for the services provided. Subject to "Reservation of Rights" below, it is anticipated that a contract with CMAP will be awarded for the work described. The contract awarded will be for a period ending no more than twenty-four months from final contract signing.

SECTION 2: Scope of Project and Procurement Details

Project Description

CMAP seeks qualified consultant or consultant team to produce a Master Plan for the Illinois International Port District (IIPD, or the Port) that addresses the terms and requirements defined in this Request for Proposals (RFP). Qualified respondents will demonstrate the capacity, expertise, and experience to thoroughly address a broad set of topics and issues in and around the Port's holdings and facilities.

In order to maximize its current and long-run performance, IIPD seeks to create a master plan that will define and chart a path to its future. This plan should provide the IIPD and its stakeholders, including the surrounding communities, with a clear vision of how the Port should develop and change between now and 2050. It should consider the IIPD's position within local, regional, state, national, and international contexts, with special attention to how IIPD can respond to macro trends. It should also reinforce broader but related planning goals, such as those of the City of Chicago, Calumet communities, Chicago region, and State. Thus, while the lands at Lake Calumet and Iroquois Landing are the primary subject of the master plan, planning factors beyond the IIPD's boundaries that will influence and be influenced by the IIPD's activities must also be considered.

Project Background

About the Illinois International Port District

The Illinois International Port District (IIPD) is located near the south west shore of Lake Michigan in Chicago, Illinois, in Cook County. The IIPD is an independent municipal corporation created through the Illinois International Port District Act ([70 ILCS 1810/](#)) that is tasked with maintaining the multimodal shipment of cargoes through its facilities, which provide waterway, rail, and truck freight connections. IIPD is governed by a nine-person board jointly appointed by the Mayor of Chicago and the Governor of Illinois. The IIPD is a "landlord port" that collects revenue from lease agreements, operating licenses, administration of Foreign Trade Zone (FTZ) #22, and its 36-hole Harborside International Golf Center.

The IIPD's operations include the management of industrial maritime lands and facilities, as well as jurisdiction over conservation and recreational areas. The IIPD is divided into two areas of operation: 1) Lake Calumet and 2) Iroquois Landing. Lake Calumet consists of approximately 1,600 acres of commercial and industrial uses. The north end is primarily recreation-oriented, while the south, east, and southwest areas are primarily industrial uses. Iroquois Landing, at the mouth of the Calumet River, is approximately 190 acres of industrial use.

The IIPD is committed to developing and maintaining a world-class port that operates as a modern, economically competitive and sustainable facility, focused on generating and expanding economic activity, promoting freight movement, and creating employment opportunities for residents of the City of Chicago and the State of Illinois.

Map 1. IIPD Position within the Chicago Region

IIPD Planning Context

The IIPD was initially awarded planning support through CMAP's Local Technical Assistance program in October 2017 to produce a [Planning Priorities Report \(PPR\)](#). The intent of the PPR was to establish a baseline planning framework to help the Port and partners broadly define needs and opportunities in preparation for future planning work. The PPR synthesized information about the Port's local context drawn from stakeholder interviews and scans of transportation, economic development, demographic, natural resource, water, and bike and pedestrian data maintained by CMAP. This preplanning work identified two key priorities and opportunities:

1. **There is a critical need for a long-term vision and associated plan for IIPD facilities.** Analysis and interviews with stakeholders affirm the need for the Port to define a strategic direction that prioritizes future land and water uses and infrastructure investments, promotes freight connections, and establishes a pragmatic, contemporary approach to industry/commodities attraction and retention. Doing so will raise the transparency and predictability of IIPD's actions to the benefit of all stakeholders, and better leverage the Port's locational advantages to move more goods and produce more economic benefit to the region and the State.
2. **Multiple opportunities exist for IIPD to coordinate efforts with its neighbors and subregional stakeholders.** Due to the size, location, and diversity of its holdings and facilities, Port activities have significant influence on surrounding communities, particularly with regard to access, mobility, and freight movement, but also recreation, environmental quality, conservation, and economic development.

In addition to the PPR, the master plan should be informed by other planning efforts, such as [Strategic and Capital Needs study](#) (2012), [Economic Impact of the Port of Chicago study](#) (2018), and the Port's "E.R.I.C. Initiative." This triple bottom line commitment shapes the Port's approach to economic, environmental, and community priorities through the following factors:

Economy / Environment

IIPD pursues economic development (e.g., through attracting new industries, jobs, and cargoes/commodities) and environmental stewardship (e.g., through renewable energies, air monitors, long-term solutions for dredged material, and environmental best management practices).

Resources / Recreation

IIPD seeks to maximize the value of its existing resources (e.g., locational advantages, freight connections) and identify options to provide local recreation (e.g., a bike path or other public open space).

Industry / Innovation

IIPD strives to promote industrial development through best practice management of leases and facilities, as well as innovative solutions to its challenges (e.g., preparation for Intelligent Transportation Systems (ITS), automation of Port gates, recycling plan).

Community / Conservation

IIPD is committed to partnership with surrounding communities (e.g., through participation in the [Calumet Collaborative](#)) and seeking opportunities for land conservation (e.g., at Square Marsh).

Several plans impacting the Calumet are also relevant:

- [Chicago Region Environmental and Transportation Efficiency \(CREATE\) Program](#)
- [Positioning Pullman](#) and [Pullman Transportation Plan](#)
- [Our Great Rivers](#)
- [Southeast Chicago Area-Wide Plan](#)
- [Calumet Area Land Use Plan](#) and [Calumet Area Open Space Reserve Plan](#)
- [Red Line Extension \(RLE\) plan](#)

Scope of Services

Consultants are encouraged to propose scope of work tasks, process, and deliverables that best fit the needs of the IIPD within the context of the content and details of this RFP and other relevant information at the discretion of the consultant. Consultants should clearly identify and fully describe their proposed deliverables. Deliverables should be generally consistent with the project objectives and potential project elements below. In addition to these deliverables, the consultant will be expected to produce an executive summary that communicates the intent, principles, and recommendations of the master plan in a concise and illustrative format. Consultants are encouraged to form multi-discipline teams to fulfill the scope of services. Prior work in the Chicago region by members of consultant teams is desirable. Consultants are invited to break the work into phases or modules and present a set of associated or follow-on activities that could be pursued subsequent to their proposed master planning work. Consultants are advised that drafts of all deliverables must be provided to CMAP, IIPD, and select partners for review at least three weeks before their release to a steering committee or the public, and that no deliverables will be released without expressed approval from IIPD and CMAP.

Broad project objectives

- **Establish a vision and goals for the future of IIPD**

Work with CMAP, IIPD, and other stakeholders to establish a long-term vision for the future of the IIPD. This vision should be both ambitious and pragmatic; it should examine and establish the foundation and rationale for investment in the Port, and chart a clear path for the IIPD to optimize its performance and regional economic impact. Extensive engagement with stakeholders such as current and potential tenants, industry groups, short- and long-haul railroads using the Port, government, terminal operators, trucking firms using the Port, tourism groups, surrounding neighborhood community groups, and environmental and conservation interests should help shape this vision. Associated objectives and outcomes should be established for five-year increments toward the plan horizon.

- **Assess future opportunities and challenges**

Identify and assess current and future drivers and influences on the future of the IIPD, including trends, context, initiatives, and others. Examples include trends in trade and commerce, cargo activity forecast, demand/capacity forecast, shipping industry and logistics requirements in supply chain management, technology advancements, port functions, facility management and governance, as well as those of the surrounding context, such as land use change, transportation investment, and economic development. These trends should be closely linked to recommendations on how IIPD can take action to leverage or mitigate their future effects.

- **Maximize the productivity and economic impact of IIPD**

Assess the economic potential of the Port and establish a range of possible economic outcomes under different development scenarios. This may include identifying and assessing possible commodity mix and activity level scenarios, establishing a cogent industrial recruitment and retention strategy, assessing intermodal opportunities and needs, and identifying competitive advantages for the Port. This analysis may also include an examination of the core functions of the Port, as well as other potential functions such as active and passive recreation (e.g., Harborside International Golf Center), hotel / conference / entertainment uses, and others.

- **Prioritize capital projects**

Evaluate facilities needs and priorities in light of the vision and associated future land and water use plan that will support efforts to increase the performance of the IIPD. Determine the preferred sequencing of key improvements and order of magnitude opinion of probable costs for recommended improvements.

- **Promote freight movement and resilience**
Evaluate opportunities to improve intermodal freight connections, especially with regard to marine/truck and marine/rail connections. Increase efficiency of goods movement through IIPD facilities and related intermodal links. Provide a broad assessment of the long-term potential role of the Port in the regional and national freight network. Identify key issues affecting the resilience of the maritime mode offered by the Port (e.g., technological change, cargo trends, regulatory shifts, natural and man-made disasters, competition from other U.S. and foreign seaports).
- **Identify opportunities to harmonize interactions and integration with surrounding communities**
The IIPD surrounding context, whether socioeconomic, physical, political, regulatory, or otherwise, is complex. Place the IIPD within the context of the surrounding communities, activities, land uses, industries, institutions, and planning efforts. Incorporate findings from CMAP Planning Priorities Report and build on them where necessary. Examples include recent or ongoing initiatives in the vicinity of the IIPD that may influence or be influenced by the future of the IIPD, such as the Pullman Historic District, Big Marsh Park, the Calumet Collaborative, 'green' industries, and others. Assess any major negative externalities related to IIPD operations (e.g., truck congestion) and identify next steps to mitigate or otherwise reduce these impacts.
- **Promote environmental stewardship, sustainability, and resilience**
Review existing environmental work related to IIPD, especially in and immediately surrounding Lake Calumet. Assess and incorporate environmental needs and opportunities (e.g., green energy development) into the future land and water use plan. Recommend future environmental planning IIPD may wish to pursue (e.g., green stormwater policies, brownfield remediation.) Recommend strategies that achieve sustainability and resilience objectives that are complementary to other project objectives. Provide order of magnitude opinion of probable costs for any recommended improvements.
- **Generate strategies to support recreation and conservation uses**
Explore and evaluate opportunities to support recreation and conservation uses adjacent to the Port. Examples include facilitating an east-west bicycle connection from the Pullman National Monument to Big Marsh, providing public open space access at the Port, and identifying habitat restoration and conservation options on surrounding lands and waters.
- **Other elements at the discretion of the consultant**
Consultant teams are welcome to propose additional objectives that align with or enhance the above considerations.

Potential Project Elements

Proposals should consider the following list of potential master plan elements and options; however, teams are expected to use previous experience and professional judgment in preparing proposals. Elements may generally be reorganized, omitted, or added to best meet the broad project objectives above at the consultant's discretion. Master planning work may also be phased to meet exigencies of budget, time, and quality. *Elements marked with an asterisk (*) are required.*

 - b) Order of Precedence: Conflicting provisions hereof, if any, shall prevail in the following descending order of precedence: (1) the provisions of the executed contract, including its exhibits; (2) the provisions of the RFP on which the contract is based including any and all Addendums; (3) the proposal submitted to CMAP by the Consultant in response to said RFP; and (4) any other documents cited or incorporated herein by reference.
 - c) CMAP's failure to insist in any one or more instances upon the performance of any terms or conditions of this Agreement shall not be construed as a waiver or relinquishment of CMAP's right to such performance by the Consultant or to future performance of such terms or conditions and Consultant's obligation in respect thereto shall continue in full force and effect. Consultant shall be responsible for having taken steps reasonably necessary to ascertain the nature and location of the work, and the general and local conditions that can affect the work or the cost thereof. Any failure by the Consultant to do so will not relieve it from responsibility for successfully performing the work without additional expense to CMAP.

If any such change causes an increase or decrease in the cost or time required for performance of any part of the work under this Agreement, the Consultant shall promptly notify CMAP thereof and assert its claim for adjustment within thirty (30) days after the change is ordered. A written amendment will be prepared for agreement between CMAP and the Consultant for changes in scope, time and/or costs. No amendments are effective until there is a written agreement that has been signed by both parties. No claim by the Consultant for equitable adjustment hereunder shall be allowed if asserted after final payment under this Agreement.
 - f) Changes to any portion of this Agreement shall not be binding upon CMAP except when specifically confirmed in writing by an authorized representative of CMAP.
 - g) For its convenience, CMAP reserves the right to extend the Term of this agreement. Any changes to the Term of this Agreement shall not be binding until specifically confirmed in writing by authorized representatives of both parties.
- 2) Chicago Metropolitan Agency for Planning Designee. - 4) Availability of Appropriation (30 ILCS 500/20-60). This Agreement is contingent upon and subject to the availability of funds. CMAP, at its sole option, may terminate or suspend this Agreement, in whole or in part, without penalty or further payment being required, if the Illinois General Assembly, the state funding source, or the federal funding source fails to make an appropriation sufficient to pay such obligation, or if funds needed are insufficient for any reason. CONTRACTOR will be notified in writing of the failure of appropriation or of a reduction or decrease.
- 5) Allowable Charges. No expenditures or charges shall be included in the cost of the Project and no part of the money paid to the Contractor shall be used by the Contractor for expenditures or charges that are: (i) contrary to provisions of this Agreement or the latest budget approved by a duly-authorized official of CMAP; (ii) not directly for carrying out the Project; (iii) of a regular and continuing nature, except that of salaries and wages of appointed principal executives of the Contractor who have not been appointed specifically for the purposes of directing the Project, who devote official time directly to the Project under specific assignments, and respecting whom adequate records of the time devoted to and services performed for the Project are maintained by the Contractor may be considered as proper costs of the Project to the extent of the time thus devoted and recorded if they are otherwise in accordance with the provisions hereof; or (iv) incurred without the consent of CMAP after written notice of the suspension or termination of any or all of CMAP's obligations under this Agreement.
- 6) Method of Payment. Project expenditures are paid directly from federal and/or state funds. Because CMAP is responsible for obtaining federal reimbursement for project expenditures, it is necessary that CMAP monitor all procedures and documents which will be used to claim and support project-related expenditures. The following procedures should be observed to secure payment:

- a) Based on services performed, CONTRACTOR may submit invoices as frequently as once a month, but is required to submit invoices no later than fifteen (15) days after the end of each quarter. Failure to submit such payment request timely will render the amounts billed an unallowable cost for which the CONTRACTOR cannot be reimbursed. CMAP is committed to reducing paper use and has established an electronic invoicing system. All invoices are to be submitted through email to:

accounting@cmap.illinois.gov

All invoices shall be signed by an authorized representative of the CONTRACTOR

- b) Subject to the conditions of this Agreement, CMAP will honor invoices in amounts deemed by it to be proper to insure the carrying out of the approved scope of services and shall be obligated to pay the Contractor such amounts as may be approved by CMAP. Invoices shall detail expenses and amount of time spent on CMAP assignments. If an invoice is not acceptable, CMAP shall promptly provide the Contractor a written statement regarding its ineligibility or deficiencies to be eliminated prior to its acceptance and processing. All invoices for services performed and expenses incurred by CONTRACTOR for the services of this Agreement must be presented to CMAP no later than fifteen (15) days after the end of this Agreement. It is the CONTRACTOR'S responsibility to remain current with these registrations and requirements. If the CONTRACTOR'S status with regard to any of these requirements change, the CONTRACTOR must notify CMAP immediately.
 - 8) Audits. The records and supportive documentation for all completed projects are subject to an on-site audit by CMAP. CMAP reserves the right to inspect and review, during normal working hours, the work papers of the independent auditor in support of their audit report.
 - 9) Access to Records.

- a) The CONTRACTOR and its subcontracts under this Agreement shall preserve and produce upon request of the authorized representatives of CMAP all data, records, reports, correspondence and memoranda of every description of the CONTRACTOR and its subcontractors, if any, under this Agreement relating to carrying out this Agreement for the purposes of an audit, inspection or work review for a period of three (3) years after completion of the project, except that:

Procurement of products or services with any Agreement funds that are in excess of \$10,000.00 will require the CONTRACTOR to use the Invitation for Bid process or the Request for Proposal process. In the absence of formal codified procedures of the CONTRACTOR, the procedures of CMAP will be used. The CONTRACTOR may only procure products or services from one source with any Agreement funds if: (1) the products or services are available only from a single source; or (2) CMAP authorizes such a procedure; or (3) after solicitation of a number of sources, competition is determined inadequate.

- e. CONTRACTOR certifies that to the best of its knowledge, its sub-grantees have complied with and will comply with Executive Order No. 1 (2007) (EO 1-2007). EO 1-2007 generally prohibits contractors and subcontractors from hiring the then-serving Governor's family members to lobby procurement activities to the State, or any other unit of government in Illinois including local governments, if that procurement may result in a contract valued at over \$25,000. This prohibition also applies to hiring for that same purpose any former State employee who had procurement authority at any time during the one-year period preceding the procurement lobbying activity.
- 11) Equipment Inventory. An inventory of non-expendable personal property having a useful life of more than two years and an acquisition cost of \$500 or more is subject to periodic inspection by CMAP.

If corrective action has not been completed within sixty (60) calendar days after service of written notice of suspension, CMAP shall notify the CONTRACTOR in writing that the Agreement has been terminated by reason of default in accordance with paragraph 14 hereof. CMAP may determine to allow such necessary and proper costs which the CONTRACTOR could not reasonably avoid during the period of suspension provided such costs meet the provisions of the U.S. Office Management and Budget 2 CFR 200 in effect on the date first above written.
- 13) Termination.
- a. This Agreement may be terminated in whole or in part in writing by either party in the event of substantial failure (hereinafter termed "Termination by Default") by the other party to fulfill its obligations under this Agreement through no fault of the terminating party, provided that no such termination may be affected unless the other party is given (i) not less than seven (7) calendar days written notice (delivered by certified mail, return receipt requested) of intent to Termination by Default, and (ii) an opportunity for consultation with the terminating party prior to Termination by Default.

If Termination by Default is effected by the CONTRACTOR, or if Termination for Convenience is effected by CMAP, the equitable adjustment shall include a reasonable profit for services or other work performed. The equitable adjustment for any termination shall provide payment to the CONTRACTOR for services rendered and expenses incurred prior to termination, in addition CMAP may include cost reasonably incurred by the CONTRACTOR relating to commitments which had become firm prior to termination.
 - d. Upon notice of termination action pursuant to paragraphs (a) or (b) of this clause, the CONTRACTOR shall (i) promptly discontinue all services affected (unless the notice directs otherwise) and (ii) deliver or otherwise make available to CMAP all data, drawings, specifications, reports, estimates, summaries and such other information and materials as may have been accumulated by the CONTRACTOR in performing this Agreement, whether completed or in process.

In such event, adjustment of the price provided for in this Agreement shall be made as provided in paragraph c of this clause.
- 14) Remedies. Except as may be otherwise provided in this Agreement, all claims, counterclaims, disputes and other matters in question between CMAP and the CONTRACTOR arising out of or relating to this Agreement or the breach thereof will be decided by arbitration. The CONTRACTOR shall take affirmative actions to insure that applicants are employed and that employees are treated during their employment without regard to their race, religion, color, sex, national origin, ancestry, or physical or mental handicap unrelated to ability. Such actions shall include, but not be limited to, employment, promotion, demotion, transfer, recruitment, recruitment advertising, layoff, termination, rates of pay, other forms of compensation, and selection for training or apprenticeship.
