Oswego officials are inviting the public to attend an open house to urge regional leaders to construct an extension of the BNSF rail line to allow Metra service to come to Oswego.

The Chicago Metropolitan Agency for Planning is working on their next comprehensive plan and Metra service is among many other projects being discussed.

Oswego officials say one of the open houses CMAP is holding is taking place on Tuesday at the old Kendall County Courthouse in downtown Yorkville from 4:00 p.m. to 7:00 p.m.

Yorkville officials have also invited residents to the courthouse to hear about plans for the area.

Those who can't attend the "ON TO 2050" open house can also comment their opinions to CMAP online. For more information on the open house and to connect, residents can go to www.cmap.illinois.gov/onto2050
