Mr. Tony Manno
Senior Planner
Chicago Metropolitan Agency for Planning
233 S. Wacker Dr., Suite 800
Chicago, IL 60606

Dear Mr. Manno:

This letter is to inform you of the City of Countryside's support of the Central Council's application for the Chicago Metropolitan Agency for Planning (CMAP) Local Technical Assistance Program.

The Council proposes to conduct a regional comprehensive stormwater study for the 15 communities that make up the Central Council. The study's results will include both well-defined regional projects and individual municipal projects with regional impact, focusing on long-term regional stormwater priorities that municipalities and the Council will work on together. Central Council's proposed scope of work supports ON TO 2050 goals and objectives identified in many policy documents including the Stormwater and Flooding ON TO 2050 strategy paper.

The proposed plan will create a 10-year Regional Comprehensive Stormwater Infrastructure Plan that reflects goals of ON TO 2050. The Central Council will use this plan to identify and secure funding for numerous, regionally significant stormwater projects. The Central Council intends to compile the results from this study with the results of the Central Council Regional Transportation Plan that is already underway.

As the Mayor of the City of Countryside, this grant would be very important in advancing our community's goals, as well as advancing the economic development of the regional community. Accordingly, I whole-heartedly support the Council's grant application.

Sincerely,

Sean R. McDermott
Mayor

Village of Lyons

October 22, 2018

Mr. Tony Manno
Senior Planner
Chicago Metropolitan Agency for Planning
233 S. Wacker Dr., Suite 800

Dear Mr. Manno:

This letter is to inform you of the Village of Riverside's support of the Central Council's application for the Chicago Metropolitan Agency for Planning (CMAP) Local Technical Assistance Program.

The Council proposes to conduct a Regional Comprehensive Stormwater Study for the 15 communities that make up the Central Council. The study's results will include both well-defined regional projects and individual municipal projects with regional impact, focusing on long-term regional stormwater priorities that municipalities and the Council will work on together. Central Council's proposed scope of work supports ON TO 2050 goals and objectives identified in many policy documents including the Stormwater and Flooding ON TO 2050 strategy paper.

The proposed plan will create a 10-year Regional Comprehensive Stormwater Infrastructure Plan that reflects goals of ON TO 2050. The Central Council will use this plan to identify and secure funding for numerous, regionally significant stormwater projects. The Central Council intends to compile the results from this study with the results of the Central Council Regional Transportation Plan that is already underway.

As President of the Village of Riverside, this grant would be very important in advancing our community's goals, as well as advancing the economic development of the regional community. Accordingly, I whole-heartedly support the Council's grant application.

Sincerely,

A handwritten signature in black ink that reads "Benjamin Sells".

Benjamin Sells
